SUPPLEMENTARY INFORMATION:

Proposed Project

Medical Expenditures Panel Survey—Household and Medical Provider Components

AHRQ requests that OMB approve a revision to AHRQ's collection of information for the Medical Expenditures Panel Survey—Household and Medical Provider Components: OMB Control number 0935-0118, expiration November 30, 2025. Requested changes are for the Household Component (MEPS-HC) only.

The MEPS was initiated in 1996. Each year a new panel of sample households is selected. Recent annual MEPS-HC sample sizes average about 13,500 households. The panel design of the survey, which includes 5 rounds of interviews covering 2 full calendar years, provides data for examining person level changes in selected variables such as expenditures, health insurance coverage, and health status.

This Research Has the Following Goals

(1) To produce nationally representative estimates of health care use, expenditures, sources of payment, and health insurance coverage for the U.S. civilian noninstitutionalized population.

(2) To produce nationally representative estimates of respondents' health status, demographic and socioeconomic characteristics, employment, access to care, and satisfaction with health care.

Proposed Changes for the 2025 MEPS-HC
