Regulatory Flexibility Act Certification

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in additional reporting, recordkeeping or other compliance requirements for small entities.

2. The action may result in authorizing small entities to furnish the product(s) to the Government.

3. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 8501–8506) in connection with the product(s) deleted from the Procurement List.

End of Certification

Accordingly, the following product(s) are deleted from the Procurement List:

DEPARTMENT OF DEFENSE

Department of the Army

Second Draft Environmental Impact Statement for Army Training Land Retention at Pōhakuloa Training Area in Hawai'i

AGENCY: Department of the Army, DOD.

ACTION: Notice of availability.

SUMMARY: The Department of the Army (Army) announces the availability of a Second Draft Environmental Impact Statement (Draft EIS) regarding its proposed action to retain up to approximately 22,750 acres of the 23,000 acres of land the Army currently leases from the State of Hawai'i ("State-owned land") at Pōhakuloa Training Area (PTA) on the island of Hawai'i. The Army is publishing the Draft EIS for public review during a 45-day comment period. In accordance with the National Environmental Policy Act (NEPA) and the Hawai'i Environmental Policy Act (HEPA), the Draft EIS analyzes the potential direct, indirect, and cumulative impacts of a range of reasonable alternatives that meet the purpose of, and need for, the proposed action. Because the proposed action involves State-owned land, the EIS is a joint NEPA-HEPA document; therefore, the public review process runs concurrently and meets both NEPA and HEPA requirements.

DATES: The Army invites public comments on the Draft EIS during the 45-day public comment period. To be considered in the Final EIS, all comments must be postmarked or received by 11:59 p.m. Hawai'i standard time on June 7, 2024. Public meetings will be held in Waimea District Park on May 6, 2024, and at the 'Imiloa Astronomy Center on May 7, 2024 to provide information on the Draft EIS and to enhance the opportunity for public comment. Information on how to participate in the Draft EIS public meetings and how to submit comments is available on the EIS website at <https://home.army.mil/hawaii/index.php/PTAEIS>.

ADDRESSES: Written comments should be submitted through the EIS website at <https://home.army.mil/hawaii/index.php/PTAEIS>, emailed to atlr-pta-eis@g70.design, mailed to ATLR PTA

EIS Comments, P.O. Box 3444, Honolulu, HI 96801-3444, or provided during the public meetings. Comments must be postmarked or received by June 7, 2024.

FOR FURTHER INFORMATION CONTACT: U.S. Army Garrison-Hawaii, Mr. Michael Donnelly, Public Affairs Office, by telephone at (808) 787-2140 or by email at usarmy.hawaii.nepa@army.mil.

SUPPLEMENTARY INFORMATION: During World War II, the U.S. Marine Corps trained on the land now known as PTA. A 1956 maneuver agreement between the Territory of Hawai'i and the Army formally established PTA. In 1964, the State of Hawai'i granted the Army a 65-year lease of approximately 23,000 acres of land adjacent to PTA for military purposes. The State-owned land now contains utilities, critical infrastructure, maneuver area, and key training facilities, some of which are not available elsewhere in Hawai'i. The parcel also provides access among the PTA cantonment area and Bradshaw Army Airfield and two other federally owned parcels at PTA.

The Army made a Draft EIS available for comment on this action on April 8, 2022. In response to comments received from agencies and the public on that Draft EIS, the Army is no longer considering the retention of approximately 250 acres of State-owned land administered by the Department of Hawaiian Home Lands. In addition to analyzing impacts of a fee simple retention method, the new Draft EIS also assesses impacts of a lease retention method. Due to these changes, the Army determined that another draft EIS should be made available for public comment.

The Draft EIS evaluates the potential impacts of a range of reasonable alternatives: (1) Maximum Retention (of approximately 22,750 acres); (2) Modified Retention (of approximately 19,700 acres); and (3) Minimum Retention and Access (of approximately 10,100 acres and 11 miles of roads and training trails). The Draft EIS also analyzes the potential impacts of the No Action Alternative, under which Army use of the land would cease altogether when the lease expires in 2029. The Army has identified Alternative 2, Modified Retention, as the Preferred Alternative. The Army based its preference on: public comments; environmental, social, technical, and economic considerations; and the ability of the alternative to meet the mission of the Army.

The Draft EIS analyzes: land use; biological resources; historic and cultural resources and cultural
