

Title: Voluntary Protection Programs (VPP).

OMB Control Number: 1218–0239.

Affected Public: Business or other for-profits.

Number of Respondents: 3,751.

Number of Responses: 3,295.

Frequency of Responses: Various.

Average Time per Response: Varies.

Estimated Total Burden Hours: 69,657.

Estimated Cost (Operation and Maintenance): \$0.

IV. Public Participation—Submission of Comments on This Notice and Internet Access to Comments and Submissions

You may submit comments in response to this document as follows: (1) electronically at <https://www.regulations.gov>, which is the Federal eRulemaking Portal; or (2) by facsimile (fax), if your comments, including attachments, are not longer than 10 pages you may fax them to the OSHA Docket Office at (202) 693–1648. All comments, attachments, and other material must identify the agency name and the OSHA docket number for the ICR OSHA–2011–0056. You may supplement electronic submission by uploading document files electronically.

Comments and submissions are posted without change at <https://www.regulations.gov>. Therefore, OSHA cautions commenters about submitting personal information such as social security numbers and dates of birth. Although all submissions are listed in the <https://www.regulations.gov> index, some information (e.g., copyrighted material) is not publicly available to read or download from this website. All submission, including copyrighted material, are available for inspection and copying at the OSHA Docket Office. Information on using the <https://www.regulations.gov> website to submit comments and access the docket is available at the website's "User Tips" link. Contact the OSHA Docket Office at (202) 693–2350, (TTY) (877) 889–5627 for information about materials not available from the website, and for assistance in using the internet to locate docket submissions.

V. Authority and Signature

James S. Frederick, Deputy Assistant Secretary of Labor for Occupational Safety and Health, directed the preparation of this notice. The authority for this notice is the Paperwork Reduction Act of 1995 (44 U.S.C. 3506 *et seq.*) and Secretary of Labor's Order No. 8–2020 (85 FR 58393).

Signed at Washington, DC, on April 17, 2024.

James S. Frederick,

Deputy Assistant Secretary of Labor for Occupational Safety and Health.

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[Docket No. OSHA–2007–0042]

TUV Rheinland of North America, Inc.: Grant of Expansion of Recognition

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Notice.

SUMMARY: In this notice, OSHA announces the final decision to expand the scope of recognition for TUV Rheinland of North America, Inc., as a Nationally Recognized Testing Laboratory (NRTL).

DATES: The expansion of the scope of recognition becomes effective on April 24, 2024.

FOR FURTHER INFORMATION CONTACT: Information regarding this notice is available from the following sources:

Press inquiries: Contact Mr. Frank Meilinger, Director, OSHA Office of Communications, U.S. Department of Labor; telephone: (202) 693–1999; email: meilinger.francis2@dol.gov.

General and technical information: Contact Mr. Kevin Robinson, Director, Office of Technical Programs and Coordination Activities, Directorate of Technical Support and Emergency Management, Occupational Safety and Health Administration, U.S. Department of Labor; telephone: (202) 693–1911; email: robinson.kevin@dol.gov. OSHA's web page includes information about the NRTL Program (see <http://www.osha.gov/dts/otpc/nrtl/index.html>).

SUPPLEMENTARY INFORMATION:

I. Notice of Final Decision

OSHA hereby gives notice of the expansion of the scope of recognition of TUV Rheinland of North America, Inc. (TUVRNA), as a NRTL. TUVRNA's expansion covers the addition of two test standards to the NRTL scope of recognition.

OSHA recognition of a NRTL signifies that the organization meets the requirements specified in 29 CFR 1910.7. Recognition is an acknowledgment that the organization can perform independent safety testing

and certification of the specific products covered within the scope of recognition. Each NRTL's scope of recognition includes (1) the type of products the NRTL may test, with each type specified by the applicable test standard and (2) the recognized site(s) that has/have the technical capability to perform the product-testing and product-certification activities for test standards within the NRTL's scope. Recognition is not a delegation or grant of government authority; however, recognition enables employers to use products approved by the NRTL to meet OSHA standards that require product testing and certification.

The agency processes applications by NRTLs or applicant organizations for initial recognition, as well as for expansion or renewal of recognition, following requirements in appendix A to 29 CFR 1910.7. This appendix requires that the agency publish two notices in the **Federal Register** in processing an application. In the first notice, OSHA announces the application and provides the preliminary finding. In the second notice, the agency provides the final decision on the application. These notices set forth the NRTL's scope of recognition or modifications of that scope. OSHA maintains an informational web page for each NRTL, including TUVRNA, which details that NRTL's scope of recognition. These pages are available from the OSHA website at <http://www.osha.gov/dts/otpc/nrtl/index.html>.

TUVRNA submitted an application, dated June 7, 2023 (OSHA–2007–0042–0072), to expand recognition to include the addition of two test standards to the NRTL scope of recognition. OSHA staff performed a detailed analysis of the application packet and reviewed other pertinent information. OSHA did not perform any on-site reviews in relation to this application.

OSHA published the preliminary notice announcing TUVRNA's expansion application in the **Federal Register** on March 25, 2024 (89 FR 20705). The agency requested comments by April 9, 2024, but it received no comments in response to this notice. OSHA now is proceeding with this final notice to grant expansion of TUVRNA's scope of recognition.

To review copies of all public documents pertaining to TUVRNA's application, go to www.regulations.gov or contact the OSHA Docket Office. Docket No. OSHA–2007–0042 contains all materials in the record concerning TUVRNA's recognition.

II. Final Decision and Order

OSHA staff examined TUVRNA’s expansion application, their capability to meet the requirements of the test standard, and other pertinent information. Based on its review of this

evidence, OSHA finds that TUVRNA meets the requirements of 29 CFR 1910.7 for expansion of its recognition, subject to the limitations and conditions listed below. OSHA, therefore, is proceeding with this final notice to

grant TUVRNA’s scope of recognition. OSHA limits the expansion of TUVRNA’s recognition to testing and certification of products for demonstration of conformance to the test standards shown below in Table 1.

TABLE 1—APPROPRIATE TEST STANDARDS FOR INCLUSION IN TUVRNA’S NRTL SCOPE OF RECOGNITION

Test standard	Test standard title
UL 61010–2–051	Electrical Equipment for Measurement, Control and Laboratory Use—Part 2—051: Particular Requirements for Laboratory Equipment for Mixing and Stirring.
UL 61010–2–061	Electrical Equipment for Measurement, Control and Laboratory Use—Part 2—061: Particular Requirements for Laboratory Atomic Spectrometers with Thermal Atomization and Ionization.

OSHA’s recognition of any NRTL for a particular test standard is limited to equipment or materials for which OSHA standards require third-party testing and certification before using them in the workplace. Consequently, if a test standard also covers any products for which OSHA does not require such testing and certification, a NRTL’s scope of recognition does not include these products.

A. Conditions

Recognition is contingent on continued compliance with 29 CFR 1910.7, including but not limited to, abiding by the following conditions of recognition:

1. TUVRNA must inform OSHA as soon as possible, in writing, of any change of ownership, facilities, or key personnel, and of any major change in its operations as a NRTL, and provide details of the change(s);
2. TUVRNA must meet all the terms of its recognition and comply with all OSHA policies pertaining to this recognition; and
3. TUVRNA must continue to meet the requirements for recognition, including all previously published conditions on TUVRNA’s scope of recognition, in all areas for which it has recognition.

OSHA hereby expands the scope of recognition of TUVRNA, subject to the limitations and conditions specified above.

III. Authority and Signature

James S. Frederick, Deputy Assistant Secretary of Labor for Occupational Safety and Health, 200 Constitution Avenue NW, Washington, DC 20210, authorized the preparation of this notice. Accordingly, the agency is issuing this notice pursuant to 29 U.S.C. 657(g)(2), Secretary of Labor’s Order No. 8–2020 (85 FR 58393, September 18, 2020) and 29 CFR 1910.7.

Signed at Washington, DC, on April 17, 2024.

James S. Frederick,
Deputy Assistant Secretary of Labor for Occupational Safety and Health.

NATIONAL SCIENCE FOUNDATION

Agency Information Collection Activities: Comment Request

AGENCY: National Science Foundation.
ACTION: Submission for OMB review; comment request.

SUMMARY: The National Science Foundation (NSF) has submitted the following request for revision of the approved collection of research and development data in accordance with the Paperwork Reduction Act of 1995. This is the second notice for public comment; the first was published in the **Federal Register** and no comments were received. NSF is forwarding the proposed renewal submission to the Office of Management and Budget (OMB) for clearance simultaneously with the publication of this second notice.

DATES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR ADDITIONAL INFORMATION CONTACT: Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 2415 Eisenhower Avenue, Alexandria, VA 22314; or send email to splimpto@nsf.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–800–877–

8339, which is accessible 24 hours a day, 7 days a week, 365 days a year (including federal holidays).

SUPPLEMENTARY INFORMATION:

Title of Collection: National Science Foundation Research Traineeship (NRT) Monitoring System.

OMB Number: 3145–0263.

Type of Request: Intent to seek approval to renew an information collection.

Proposed Project: The National Science Foundation’s (NSF’s) Division of Graduate Education (DGE) in the Directorate for STEM Education (EDU) administers the NSF Research Traineeship (NRT) program. The NRT program is designed to encourage the development and implementation of bold, new, and potentially transformative models for STEM graduate education training. The NRT program seeks to ensure that graduate students in research-based master’s and doctoral degree programs develop the skills, knowledge, and competencies needed to pursue a range of STEM careers. NRT is dedicated to effective training of STEM graduate students in high-priority interdisciplinary or convergent research areas through the use of a comprehensive traineeship model that is innovative, evidence-based, and aligned with changing workforce and research needs.

Previously, NRT awardees provided NSF with information on their activities through periodic research performance progress reports. The NRT monitoring system (also referred to as the NRT reporting system) has replaced these reports with a tailored program monitoring system that uses internet-based information and communication technologies to collect, review, and validate specific data on NRT awards. EDU is committed to ensuring the efficiency and effectiveness with which respondents provide and NSF staff can access and analyze data on funded projects within the NRT programs.
