SPL requests blanket authorization to export liquefied natural gas (LNG) previously imported into the United States by vessel from foreign sources in a volume equivalent to 500 billion cubic feet (Bcf) of natural gas on a cumulative basis over a two-year period. SPL filed the Application under the Natural Gas Act (NGA).

SUPPLEMENTARY INFORMATION: SPL requests a short-term blanket authorization to export LNG that has been previously imported into the United States from foreign sources for a two-year period commencing on June 7, 2024. SPL states that it will export the LNG from the Sabine Pass LNG Terminal located in Cameron Parish, Louisiana, to any country with the capacity to import LNG via ocean-going carrier and with which trade is not prohibited by U.S. law or policy. This includes both countries with which the United States has entered into a free trade agreement (FTA) requiring national treatment for trade in natural gas (FTA countries) and all other countries (non-FTA countries). This Notice applies only to the portion of the Application requesting authority to export the LNG to non-FTA countries pursuant to section 3(a) of the NGA, 15 U.S.C. 717b(a). SPL states that its existing blanket re-export authorization, set forth in DOE/FECM Order No. 4838 (Docket No. 22-19-LNG), is scheduled to expire on June 6, 2024. SPL further

states that it does not seek authorization to export domestically produced natural gas or LNG.

SPL requests this authorization on its own behalf and as agent for other parties that hold title to the LNG at the time of export. Additional details can be found in SPL's Application, posted on the DOE website at: <https://www.energy.gov/fecm/articles/sabine-pass-liquefaction-llc-docket-no-24-28-lng>.

DOE Evaluation

In reviewing SPL's Application, DOE will consider any issues required by law or policy. DOE will consider domestic need for the natural gas, as well as any other issues determined to be appropriate, including whether the arrangement is consistent with DOE's policy of promoting competition in the marketplace by allowing commercial parties to freely negotiate their own trade arrangements. Parties that may oppose this application should comment in their responses on these issues.

The National Environmental Policy Act (NEPA), 42 U.S.C. 4321 *et seq.*, requires DOE to give appropriate consideration to the environmental effects of its proposed decisions. No final decision will be issued in this proceeding until DOE has met its NEPA responsibilities.

Interested parties will be provided 30 days from the date of publication of this Notice in which to submit comments, protests, motions to intervene, or notices of intervention.

Any person wishing to become a party to the proceeding must file a motion to intervene or notice of intervention. The filing of comments or a protest with respect to the Application will not serve to make the commenter or protestant a party to this proceeding, although protests and comments received from persons who are not parties will be considered in determining the appropriate action to be taken on the Application. All protests, comments, motions to intervene, or notices of intervention must meet the requirements specified by the regulations in 10 CFR part 590, including the service requirements.

Please do not include any active hyperlinks or password protection in any of the documents or attachments related to the filing. All electronic filings submitted to DOE must follow these guidelines to ensure that all documents are filed in a timely manner.

The Application and any filed protests, motions to intervene, notices of intervention, and comments will be available electronically on the DOE website at www.energy.gov/fecm/regulation.

A decisional record on the Application will be developed through responses to this Notice by parties, including the parties' written comments and replies thereto. Additional procedures will be used as necessary to achieve a complete understanding of the facts and issues. If an additional procedure is scheduled, notice will be provided to all parties.
