## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

#### Notice of Staff Attendance at North American Electric Reliability Corporation Working Group and Standard Drafting Meetings

The Federal Energy Regulatory Commission hereby gives notice that members of the Commission and/or Commission staff may attend the following meetings:

North American Electric Reliability Corporation: System Planning Impacts from DER Working Group, WebEx

April 30, 2024 | 9:00 a.m.–5:00 p.m.  
Eastern

May 1, 2024 | 9:00 a.m.–5:00 p.m.  
Eastern

Further information regarding this meeting may be found at: [https://www.nerc.com/comm/RSTC/SPIDERWG/SPIDERWG\\_May\\_Agenda.pdf](https://www.nerc.com/comm/RSTC/SPIDERWG/SPIDERWG_May_Agenda.pdf).

North American Electric Reliability Corporation: Project 2022-02 Modifications to PRC-024 (Generator Ride-through) and Project 2023-02 Analysis and Mitigation of BES IBR Performance Issues Joint Drafting Team Meeting, Hybrid

May 7, 2023 | 8:30 a.m.–4:30 p.m.  
Eastern (Joint Meeting)

North American Electric Reliability Corporation: Project 2022-02 Modifications to PRC-024 (Generator Ride-through) Standard Drafting Team Meeting, Hybrid

May 8, 2023 | 8:30 a.m.–4:30 p.m.  
Eastern

May 9, 2023 | 8:30 a.m.–4:30 p.m.  
Eastern

North American Electric Reliability Corporation: Project 2023-02 Analysis and Mitigation of BES Inverter-Based Resource Performance Issues Standard Drafting Team Meeting, Hybrid

May 8, 2023 | 9:00 a.m.–5:00 p.m.

Eastern  
May 9, 2023 | 9:00 a.m.–5:00 p.m.  
Eastern

Further information regarding these meetings and how to join remotely may be found at: <http://www.nerc.com/Pages/Calendar.aspx>.

The discussions at the meetings, which are open to the public, may address matters at issue in the following Commission proceedings:

Docket No. RR24-2-000 North American Electric Reliability Corporation

For further information, please contact Leigh Anne Faugust (202) 502-6396 or [leigh.faugust@ferc.gov](mailto:leigh.faugust@ferc.gov).

Dated: April 22, 2024.

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Project Nos. 703-001, 20-117]

#### PacifiCorp; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission or FERC) regulations, 18 CFR part 380, Commission staff reviewed PacifiCorp's applications, filed with the Commission on March 16, 2023, to decommission project facilities and surrender the Paris Hydroelectric Project (P-703) conduit exemption, and to amend Article 408(b) of its license for the Bear River Hydroelectric Project (P-20) to adjust minimum instream flows in the Grace Development's bypass reach. Commission staff have prepared a single Environmental Assessment (EA) for the proposed surrender of conduit exemption and amendment of license given the inter-relatedness of the proposals. The Paris Hydroelectric Project is located on Paris Creek in Bear Lake County, Idaho and does not occupy Federal lands. The Bear River Hydroelectric Project is located on Bear River in Franklin and Caribou counties, Idaho and occupies Federal lands administered by the Bureau of Land Management.

The EA contains Commission staff's analysis of the potential environmental effects of the proposed surrender of conduit exemption and amendment of license, alternatives to the proposed action, and concludes that the proposed

surrender and amendment, with appropriate environmental protective measures, would not constitute a major Federal action that would significantly affect the quality of the human environment.

The EA may be viewed on the Commission's website at <http://www.ferc.gov> using the "elibrary" link. Enter the docket numbers (P-703-001 for the Paris Hydroelectric Project, or P-20-117 for the Bear River Hydroelectric Project) in the docket number field to access the document. For assistance, contact FERC Online Support at [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov) or toll-free at 1-866-208-3676, or for TTY, (202) 502-8659.

You may also register online at <http://www.ferc.gov/docs-filing/esubscription.asp> to be notified via email of new filings and issuances related to this or other pending projects. For assistance, contact FERC Online Support.

The Commission's Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings. OPP can help members of the public, including landowners, environmental justice communities, Tribal members and others, access publicly available information and navigate Commission processes. For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, the public is encouraged to contact OPP at (202) 502-6595 or [OPP@ferc.gov](mailto:OPP@ferc.gov).

For further information, contact Jennifer Ambler at 202-502-8586 or [jennifer.ambler@ferc.gov](mailto:jennifer.ambler@ferc.gov), or Holly Frank at 202-502-6833 or [holly.frank@ferc.gov](mailto:holly.frank@ferc.gov).

Dated: April 22, 2024.

**Debbie-Anne A. Reese,**  
Acting Secretary.

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Docket No. CP24-1-000]

#### Cameron Interstate Pipeline, LLC; Notice of Availability of the Environmental Assessment for the Proposed Holbrook Expansion Project

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) for the Holbrook Expansion Project, proposed by Cameron Interstate Pipeline, LLC

(CIP) in the above-referenced docket. CIP requests authorization to construct and operate two new natural gas compressor units (42,000 horsepower and 5,350 horsepower), associated aboveground facilities, 1,100 feet of 36-inch-diameter pipeline, and ancillary and auxiliary equipment at its existing Holbrook Compressor Station in Calcasieu Parish, Louisiana. CIP's stated purpose for this Project is to provide up to 1,079,000 dekatherms per day of firm natural gas transportation capacity to the CIP system. This capacity would supply feed gas to the Cameron LNG Terminal (in Cameron Parish, Louisiana) to meet shippers' incremental demand.

The EA assesses the potential environmental effects of the construction and operation of the Holbrook Expansion Project in accordance with the requirements of the National Environmental Policy Act (NEPA). The FERC staff concludes that approval of the proposed project, with appropriate mitigating measures, would not constitute a major Federal action significantly affecting the quality of the human environment.

The Commission mailed a copy of the *Notice of Availability* of the EA to Federal, State, and local government representatives and agencies; elected officials; environmental and public interest groups; potentially interested Native American Tribes; affected landowners; and newspapers and libraries in the Project area. The EA is only available in electronic format. It may be viewed and downloaded from the FERC's website ([www.ferc.gov](http://www.ferc.gov)), on the natural gas environmental documents page (<https://www.ferc.gov/industries-data/natural-gas/environment/environmental-documents>). In addition, the EA may be accessed by using the eLibrary link on the FERC's website. Click on the eLibrary link (<https://elibrary.ferc.gov/eLibrary/search>), select "General Search" and enter the docket number in the "Docket Number" field, excluding the last three digits (*i.e.*, CP24-1). Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at [FercOnlineSupport@ferc.gov](mailto:FercOnlineSupport@ferc.gov) or toll free at (866) 208-3676, or for TTY, contact (202) 502-8659.

The EA is not a decision document. It presents Commission staff's independent analysis of the environmental issues for the Commission to consider when addressing the merits of all issues in this proceeding. Any person wishing to comment on the EA may do so. Your comments should focus on the EA's

disclosure and discussion of potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts. The more specific your comments, the more useful they will be. To ensure that the Commission has the opportunity to consider your comments prior to making its decision on this project, it is important that we receive your comments in Washington, DC on or before 5 p.m. eastern time on May 20, 2024.

For your convenience, there are three methods you can use to file your comments to the Commission. The Commission encourages electronic filing of comments and has staff available to assist you at (866) 208-3676 or [FercOnlineSupport@ferc.gov](mailto:FercOnlineSupport@ferc.gov). Please carefully follow these instructions so that your comments are properly recorded.

(1) You can file your comments electronically using the eComment feature on the Commission's website ([www.ferc.gov](http://www.ferc.gov)) under the link to FERC Online. This is an easy method for submitting brief, text-only comments on a project;

(2) You can also file your comments electronically using the eFiling feature on the Commission's website ([www.ferc.gov](http://www.ferc.gov)) under the link to FERC Online. With eFiling, you can provide comments in a variety of formats by attaching them as a file with your submission. New eFiling users must first create an account by clicking on "eRegister." You must select the type of filing you are making. If you are filing a comment on a particular project, please select "Comment on a Filing"; or

(3) You can file a paper copy of your comments by mailing them to the Commission. Be sure to reference the project docket number (CP24-1-000) on your letter. Submissions sent via the U.S. Postal Service must be addressed to: Debbie-Anne A. Reese, Acting Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Room 1A, Washington, DC 20426.

Submissions sent via any other carrier must be addressed to: Debbie-Anne A. Reese, Acting Secretary, Federal Energy Regulatory Commission, 12225 Wilkins Avenue, Rockville, Maryland 20852.

Filing environmental comments will not give you intervenor status, but you do not need intervenor status to have your comments considered. Only intervenors have the right to seek rehearing or judicial review of the Commission's decision. At this point in this proceeding, the timeframe for filing timely intervention requests has expired. Any person seeking to become a party to the proceeding must file a

motion to intervene out-of-time pursuant to Rule 214(b)(3) and (d) of the Commission's Rules of Practice and Procedures (18 CFR 385.214(b)(3) and (d)) and show good cause why the time limitation should be waived. Motions to intervene are more fully described at <https://www.ferc.gov/how-intervene>.

Additional information about the project is available from the Commission's Office of External Affairs, at (866) 208-FERC, or on the FERC website ([www.ferc.gov](http://www.ferc.gov)) using the eLibrary link. The eLibrary link also provides access to the texts of all formal documents issued by the Commission, such as orders, notices, and rulemakings.

The Commission's Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings. OPP can help members of the public, including landowners, environmental justice communities, Tribal members and others, access publicly available information and navigate Commission processes. For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, the public is encouraged to contact OPP at (202) 502-6595 or [OPP@ferc.gov](mailto:OPP@ferc.gov).

In addition, the Commission offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to <https://www.ferc.gov/ferc-online/overview> to register for eSubscription.

Dated: April 19, 2024.
