

service (FSS) in the space-to-Earth direction on a co-primary basis with incumbent services and permit limited GSO FSS (space-to-Earth) use of the 17.7–17.8 GHz band on an unprotected basis with respect to fixed service operations. Specifically, the *17 GHz Report and Order* contains the following new or modified information collection requirements:

- Certification of frequency coordination with the operator of the co-frequency space station or submission of an interference analysis demonstrating the compatibility of the proposed system with the co-frequency space station;
- Information as to earth station antenna characteristics to ensure that antennas are properly aimed and configured and that their signals are not likely to interfere with other systems; and
- Information pertaining to implementation of interference detection and mitigation plans to prevent and resolve interference issues.

The changes adopted in the *17 GHz Report and Order* will result in a small net annualized increase in burden hours to certain applicants and licensees under part 25.

Finally, the Commission has updated the International Communications Filing System (ICFS)—which was formerly named the International Bureau Filing System, see 88 FR 21424—including updates to the Form 312, including Schedules A, B, and S, and Form 312–R. Applicants will be required to submit Form 312 (including Schedules A, B, and S) and Form 312–R through the updated, integrated web-based program. The updated version of Form 312 (including Schedules A, B, and S) and Form 312–R will include several minor changes to the information collection designed to provide clarity to applicants and Commission staff, reduce errors, and make overall improvements to the applicants' experience in completing the forms. Therefore, this supporting statement is being revised to reflect the new requirements, which include the addition of several questions designed to better convey the overall information being requested in the form.

The changes will result in a very small net annualized increase in burden hours to certain applicants under part 25.

Federal Communications Commission.

## FEDERAL RESERVE SYSTEM

### Agency Information Collection Activities: Announcement of Board Approval Under Delegated Authority and Submission to OMB

**AGENCY:** Board of Governors of the Federal Reserve System.

**SUMMARY:** The Board of Governors of the Federal Reserve System (Board) is

adopting a proposal to extend for three years, with revision, the reporting, recordkeeping, and disclosure requirements associated with the Market Risk Capital Rule (FR 4201; OMB No. 7100–0314).

**FOR FURTHER INFORMATION CONTACT:**

Federal Reserve Board Clearance Officer—Nuha Elmaghrabi—Office of the Chief Data Officer, Board of Governors of the Federal Reserve System, [nuha.elmaghrabi@frb.gov](mailto:nuha.elmaghrabi@frb.gov), (202) 452–3884.

Office of Management and Budget (OMB) Desk Officer for the Federal Reserve Board, Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Room 10235, 725 17th Street NW, Washington, DC 20503, or by fax to (202) 395–6974.

**SUPPLEMENTARY INFORMATION:** On June 15, 1984, OMB delegated to the Board authority under the Paperwork Reduction Act (PRA) to approve and assign OMB control numbers to collections of information conducted or sponsored by the Board. Board-approved collections of information are incorporated into the official OMB inventory of currently approved collections of information. The OMB inventory, as well as copies of the PRA Submission, supporting statements (which contain more detailed information about the information collections and burden estimates than this notice), and approved collection of information instrument(s) are available at <https://www.reginfo.gov/public/do/PRAMain>. These documents are also available on the Federal Reserve Board's public website at <https://www.federalreserve.gov/apps/reportingforms/review> or may be requested from the agency clearance officer, whose name appears above.

### Final Approval Under OMB Delegated Authority of the Extension for Three Years, With Revision, of the Following Information Collection

*Collection title:* Market Risk Capital Rule (see the *current actions* section for information about a change to the collection title and collection identifier).

*Collection identifier:* FR 4201.

*OMB control number:* 7100–0314.

*Dates:* The revisions are applicable as of April 26, 2024.

*General description of collection:* The market risk rule, which requires banking organizations to hold capital to cover their exposure to market risk, is a component of the Board's regulatory capital framework, Regulation Q—Capital Adequacy of Bank Holding

Companies, Savings and Loan Holding Companies, and State Member Banks (12 CFR part 217). The rule includes information collections that permit the Board to monitor the market risk profile of Board-regulated banking organizations that have significant market risk. These information collections provide current statistical data identifying market risk areas on which to focus onsite and offsite examinations. They also allow the Board to assess the levels and components of each reporting institution's risk-based capital requirements for market risk and the adequacy of the institution's capital under the market risk rule.

*Frequency:* Annual, quarterly, and on occasion.

*Respondents:* Bank holding companies, covered savings and loan holding companies,<sup>1</sup> U.S. intermediate holding companies of foreign banking organizations, and state member banks (collectively, banking organizations) that meet certain risk thresholds. The market risk rule applies to any such banking organization with aggregate trading assets and trading liabilities equal to (1) 10 percent or more of quarter-end total assets or (2) \$1 billion or more.

*Total estimated number of respondents:* 37.

*Total estimated change in burden:* 592.

*Total estimated annual burden hours:* 36,236.<sup>2</sup>

*Current actions:* On December 4, 2023, the Board published a notice in the **Federal Register** (88 FR 84141) requesting public comment for 60 days on the extension, with revision, of the FR 4201. The Board proposed revising the FR 4201 to account for a recordkeeping requirement in section 217.203(b)(2) of Regulation Q that had not been previously cleared by the Board. The comment period for this notice expired on February 2, 2024. The Board did not receive any comments. The revisions will be implemented as proposed. This information collection is currently titled "Market Risk Capital Rule" with a collection identifier of "FR 4201." As part of this clearance, the collection title will be changed to "Reporting, Recordkeeping, and

Disclosure Requirements Associated with Regulation Q (Market Risk Capital Rule)" and the collection identifier will be updated to "FR Q-2." The purpose of this non-substantive change is to implement consistent nomenclature for information collections contained within a rule. This change would not modify the reporting, recordkeeping, or disclosure requirements in any way.

Board of Governors of the Federal Reserve System, April 23, 2024.

**Michele Taylor Fennell,**

*Deputy Associate Secretary of the Board.*

### Final Approval Under OMB Delegated Authority of the Extension for Three Years, With Revision, of the Following Information Collection

*Collection title:* Reporting, Recordkeeping, and Disclosure Requirements Associated with Regulation WW.

*Collection identifier:* FR WW.

*OMB control number:* 7100-0367.

*Dates:* The revisions are applicable as of April 26, 2024.

*General description of collection:* The Board, Federal Deposit Insurance Corporation (FDIC), and Office of the Comptroller of the Currency (OCC) (collectively, the agencies) implemented a liquidity coverage ratio (LCR) requirement and a net stable funding ratio (NSFR) requirement, consistent with the international liquidity standards published by the Basel Committee on Banking Supervision (BCBS), for large and internationally active banking organizations. For the Board, these standards are implemented through Regulation WW—Liquidity Risk Measurement, Standards, and Monitoring (12 CFR part 249). The NSFR and LCR requirements in Regulation WW apply to certain large state member banks, covered depository institution holding companies, and U.S. intermediate holding companies of foreign banking organizations, as well as covered nonbank companies (together, covered companies). The reporting, recordkeeping, and disclosure requirements contained in FR WW are used to monitor covered companies' compliance with the LCR and NSFR.

*Frequency:* The reporting requirements of the FR WW information collection are submitted on an event-generated basis. The recordkeeping requirements of the FR WW information collection are both event-generated and ongoing. The disclosure requirements of the FR WW information collection must be met on a quarterly basis (relating to the LCR) as well as every second and fourth calendar quarter (relating to the NSFR) and must remain publicly available for at least five years after the initial disclosure date.

*Respondents:* The FR WW panel comprises covered companies, as defined above. Certain requirements apply only to covered holding and nonbank companies.

<sup>1</sup> For the definition of "covered savings and loan holding company," see 12 CFR 217.2.

<sup>2</sup> More detailed information regarding this collection, including more detailed burden estimates, can be found in the OMB Supporting Statement posted at <https://www.federalreserve.gov/apps/reportingforms/review>.
