

service (FSS) in the space-to-Earth direction on a co-primary basis with incumbent services and permit limited GSO FSS (space-to-Earth) use of the 17.7–17.8 GHz band on an unprotected basis with respect to fixed service operations. Specifically, the *17 GHz Report and Order* contains the following new or modified information collection requirements:

- Certification of frequency coordination with the operator of the co-frequency space station or submission of an interference analysis demonstrating the compatibility of the proposed system with the co-frequency space station;
- Information as to earth station antenna characteristics to ensure that antennas are properly aimed and configured and that their signals are not likely to interfere with other systems; and
- Information pertaining to implementation of interference detection and mitigation plans to prevent and resolve interference issues.

The changes adopted in the *17 GHz Report and Order* will result in a small net annualized increase in burden hours to certain applicants and licensees under part 25.

Finally, the Commission has updated the International Communications Filing System (ICFS)—which was formerly named the International Bureau Filing System, see 88 FR 21424—including updates to the Form 312, including Schedules A, B, and S, and Form 312–R. Applicants will be required to submit Form 312 (including Schedules A, B, and S) and Form 312–R through the updated, integrated web-based program. The updated version of Form 312 (including Schedules A, B, and S) and Form 312–R will include several minor changes to the information collection designed to provide clarity to applicants and Commission staff, reduce errors, and make overall improvements to the applicants' experience in completing the forms. Therefore, this supporting statement is being revised to reflect the new requirements, which are include the addition of several questions designed to better convey the overall information being requested in the form.

The changes will result in a very small net annualized increase in burden hours to certain applicants under part 25.

Federal Communications Commission.

Marlene Dortch,

Secretary, Office of the Secretary.
