Overview of This Information Collection

1. Type of Information Collection: Revision and Extension of a previously approved collection.
2. Title of the Form/Collection: FOIAExpress/FOIA Public Access Link.
3. Agency form number, if any, and the applicable component of the Department of Justice sponsoring the collection: EOIR does not maintain an agency-specific form number for this collection.
4. Affected public who will be asked or required to respond, as well as a brief abstract: Affected Public: Individuals and households.

Abstract: This information collection is optional and voluntary. FOIAExpress is a software program that provides the EOIR Freedom of Information Act (FOIA) Program with a single, unified application for managing the entire lifecycle of FOIA requests and appeals. The Public Access Link (PAL) is a secure web-based application that provides an online platform for the public to file a FOIA request with EOIR.

The PAL is integrated directly with FOIAExpress and offers a centralized location for EOIR to receive online FOIA requests, deliver responsive records, communicate with requesters, collect fees, if applicable, and provide access to released documents in a public reading room in accordance with agency proactive disclosure guidelines.

EOIR has developed several changes to the PAL platform to improve the Agency's FOIA request and response process and to reduce the burden on members of the public that submit FOIA requests to EOIR. These developments include the following substantive changes: modifying the request form to display only those data fields relevant to the type of FOIA request selected by the requestor; changing the date range field from voluntary to mandatory; prompting an individual that requests a Record of Proceeding (ROP) to provide on a voluntary basis the charging document date and a record subject's alias, parents' names, port and date of entry, and place and date of proceeding; and removing data fields that EOIR determined were no longer necessary for the Agency to fulfill a FOIA request. In addition, EOIR has identified the following non-substantive changes: modifying the appearance and formatting of the PAL request form; updating links to web pages and resources embedded throughout the form; revising existing form instructions for clarity; and reorganizing some data fields under different sections of the PAL form. EOIR intends these developments to reduce the public's burden in completing the PAL form and to improve the Agency's FOIA request and response process, and the public's experience with that process. These enhancements include: assisting requestors in making the most appropriate selection for the type of FOIA request; enhancing the logical direction with which a requestor completes the form; and tailoring the information solicited from the requestor to generate more precise requests, thereby reducing processing time.

5. Obligation to Respond: Voluntary.
6. Total Estimated Number of Respondents: 24,804.
7. Estimated Time per Respondent: 3 minutes.
8. Frequency: Once annually.
9. Total Estimated Annual Time Burden: 1,240 hours.
10. Total Estimated Annual Other Costs Burden: \$0.
