

conversion to a new term, including perpetuity, if applicable.

The land identified is not needed for any Federal purpose. The proposed change of authorized use for lease and/or conveyance is consistent with the BLM Las Vegas Resource Management Plan dated October 5, 1998, and would be in the public interest. Clark County Real Property Management has not applied for more than the 640-acre annual limitation for public purpose uses and has submitted a statement that their application is for a definite project as required by regulations at 43 CFR 2741.4(b).

The change of authorized use for lease and/or conveyance, when issued, will be subject to the provisions of the R&PP Act and applicable regulations of the Secretary of the Interior, and any patent issued will contain the following reservations to the United States:

1. A right-of-way thereon for ditches or canals constructed by the authority of the United States, Act of August 30, 1890 (43 U.S.C. 945); and

2. All minerals shall be reserved to the United States, together with the right to prospect for, mine, and remove such deposits for the same under applicable law and such regulations as the Secretary of the Interior may prescribe; and

3. Any lease and conveyance will also be subject to valid existing rights, will contain any terms or conditions required by law (including, but not limited to, any terms or conditions required by 43 CFR 2741.4), and will contain an appropriate indemnification clause protecting the United States from claims arising out of the lessee's/patentee's use, occupancy, or operations on the leased/patented lands. It will also contain any other terms and conditions deemed necessary and appropriate by the Authorized Officer; and

4. Any other reservations that the authorized officer determines appropriate to ensure public access and proper management of Federal lands and interests therein.

The subject public lands described above were previously withdrawn from location and entry under the U.S. mining laws and from operation of the mineral and geothermal leasing laws by the Southern Nevada Public Land Management Act of 1998 (Pub. L. 105-263), as amended. Upon publication of this notice in the **Federal Register**, the land described above will be further segregated from all other forms of appropriation under the public land laws, except for lease and conveyance under the R&PP Act.

Interested parties may also submit written comments regarding the specific

use proposed in the application and plan of development, and whether the BLM followed proper administrative procedures in reaching the decision to lease and convey under the R&PP Act. Comments on the change of authorized use are restricted to whether the land is physically suited for the proposal, whether the use will maximize the future use or uses of the land, whether the use is consistent with local planning and zoning, or if the use is consistent with state and Federal programs.

Before including your address, phone number, email, address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. Only written comments submitted to the Assistant Field Manager, BLM Las Vegas Field Office, will be considered properly filed. Any adverse comments on the change of authorized use will be reviewed as protests by the BLM Nevada State Director, who may sustain, vacate, or modify this realty action. In the absence of any adverse comments, the decision will become effective on June 28, 2024.

Authority: 43 CFR 2741.5.

Bruce Sillitoe,

Field Manager, Las Vegas Field Office.
