DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA-2010-0034]

Port Authority Trans-Hudson's Request To Amend Its Positive Train Control Safety Plan and Positive Train Control System

AGENCY: Federal Railroad Administration (FRA), Department of Transportation (DOT).

ACTION: Notice of availability and request for comments.

SUMMARY: This document provides the public with notice that, on April 19, 2024, Port Authority Trans-Hudson (PATH) submitted a request for amendment (RFA) to its FRA-approved Positive Train Control Safety Plan (PTCSP). As this RFA may involve a request for FRA's approval of proposed material modifications to an FRA-certified positive train control (PTC) system, FRA is publishing this notice and inviting public comment on the railroad's RFA to its PTCSP.

DATES: FRA will consider comments received by May 20, 2024. FRA may consider comments received after that date to the extent practicable and without delaying implementation of

valuable or necessary modifications to a PTC system.

ADDRESSES:

Comments: Comments may be submitted by going to <https://www.regulations.gov> and following the online instructions for submitting comments.

Instructions: All submissions must include the agency name and the applicable docket number. The relevant PTC docket number for this host railroad is Docket No. FRA-2010-0034. For convenience, all active PTC dockets are hyperlinked on FRA's website at <https://railroads.dot.gov/research-development/program-areas/train-control/ptc/railroads-ptc-dockets>. All comments received will be posted without change to <https://www.regulations.gov>; this includes any personal information.

FOR FURTHER INFORMATION CONTACT:

Gabe Neal, Staff Director, Signal, Train Control, and Crossings Division, telephone: 816-516-7168, email: Gabe.Neal@dot.gov.

SUPPLEMENTARY INFORMATION: In general, title 49 United States Code (U.S.C.) section 20157(h) requires FRA to certify that a host railroad's PTC system complies with title 49 Code of Federal Regulations (CFR) part 236, subpart I, before the technology may be operated in revenue service. Before making certain changes to an FRA-certified PTC system or the associated FRA-approved PTCSP, a host railroad must submit, and obtain FRA's approval of, an RFA to its PTCSP under 49 CFR 236.1021.

Under 49 CFR 236.1021(e), FRA's regulations provide that FRA will publish a notice in the **Federal Register** and invite public comment in accordance with 49 CFR part 211, if an RFA includes a request for approval of a material modification of a signal or train control system. Accordingly, this notice informs the public that, on April 19, 2024, PATH submitted an RFA to its PTCSP for its Communication Based Train Control (CBTC), which seeks FRA's approval to deploy new software, including "the release from Mid-A car function," and resolve known software issues identified through previous revenue service to improve CBTC system performance. That RFA is available in Docket No. FRA-2010-0034.

Interested parties are invited to comment on PATH's RFA to its PTCSP by submitting written comments or data. During FRA's review of this railroad's RFA, FRA will consider any comments or data submitted within the timeline specified in this notice and to the extent practicable, without delaying

implementation of valuable or necessary modifications to a PTC system. See 49 CFR 236.1021; see also 49 CFR 236.1011(e). Under 49 CFR 236.1021, FRA maintains the authority to approve, approve with conditions, or deny a railroad's RFA to its PTCSP at FRA's sole discretion.

BILLING CODE 4910-06-P

DEPARTMENT OF TRANSPORTATION

Maritime Administration

Extended Application Period; Solicitation of Application for the Award of One Tanker Security Program Operating Agreement

AGENCY: Maritime Administration, Department of Transportation.

ACTION: Notice of application period for the Tanker Security Program (TSP).

SUMMARY: On March 1, 2024, the Maritime Administration published a notice in the **Federal Register** providing how to apply to MARAD's Tanker Security Program (TSP). By this follow-on notice, MARAD is extending the application period for eligible candidates for one TSP Operating Agreement and is republishing the same information soliciting applications. The FY21 NDAA authorized the Secretary of Transportation to establish a fleet of active, commercially viable, militarily useful, privately owned product tank vessels of the United States. The fleet will meet national defense and other

security requirements and maintain a United States presence in international commercial shipping. The FY22 NDAA made minor adjustments related to the participation of long-term charters in the TSP. This request for applications provides, among other things, application criteria and a deadline for submitting applications for the enrollment of one vessel in the TSP.

DATES: Applications for enrollment must be received no later than May 30, 2024. Applications should be submitted to the address listed in the **ADDRESSES** section below.

ADDRESSES: Applications may be submitted electronically to sealiftsupport@dot.gov or in hard copy to the Tanker Security Program, Maritime Administration, U.S. Department of Transportation, 1200 New Jersey Avenue SE, Washington, DC 20590. Application forms are available upon request or may be downloaded from MARAD's website.

FOR FURTHER INFORMATION CONTACT: David Hatcher, Director, Office of Sealift Support, Maritime Administration, Telephone (202) 366-0688. For legal questions, call Joseph Click, Office of Chief Counsel, Division of Maritime Programs, Maritime Administration, (202) 366-5882.

SUPPLEMENTARY INFORMATION: Section 53402(a) of Title 46, United States Code, requires that the Secretary of Transportation (Secretary), in consultation with the Secretary of Defense (SecDef), establish a fleet of active, commercially viable, militarily useful, privately-owned product tank vessels to meet national defense and other security requirements. The TSP will provide a stipend to tanker operators of U.S.-flagged vessels that meet certain qualifications.

Congress appropriated \$60,000,000 for the TSP in the Consolidated Appropriations Act of 2022, Public Law 117-269, to remain available until expended. Authorized payments to participating operators are limited to \$6 million per ship, per fiscal year and are subject to annual appropriations. Participating operators will be required to make their commercial transportation resources available upon request of the SecDef during times of war or national emergency.

Application Criteria

Section 53403(b)(2)(A) of Title 46, United States Code directs the Secretary in consultation with the SecDef to consider applicant vessel qualifications as they relate to 46 CFR 294.9 and give priority to applications based on the following criteria:

(1) Vessel capabilities, as established by SecDef;

(2) Applicant's record of vessel ownership and operation of tanker vessels; and

(3) Applicant's citizenship, with preference for Section 50501 Citizens.

Vessel Requirements

Acceptable vessels for a TSP Operating Agreement must meet the requirements of 46 U.S.C. 53402(b) and 46 CFR 294.9. The Commander, USTRANSCOM, has provided vessel suitability standards for eligible TSP vessels for use during the application selection process. The following suitability standards, consistent with the requirements of 46 U.S.C. 53402(b)(5), will apply to vessel applications:

- Medium Range (MR) tankers between 30,000–60,000 deadweight tons, with fuel cargo capacity of 230,000 barrels or greater.
- Deck space and size to accept installation of Consolidation (CONSOL) stations, two on each side for a total of four stations.
- Ability to accommodate up to an additional 12 crew for CONSOL, security, and communication crew augmentation.
- Communication facilities capable of integrating secure communications equipment.
- Does not engage in commerce or acquire any supplies or services if any proclamation, Executive order, or statute administered by Office of Foreign Assets Control (OFAC), or if OFAC's implementing regulations at 31 CFR Chapter V, would prohibit such a transaction by a person subject to the jurisdiction of the United States, except as authorized by the OFAC in the Department of the Treasury.
- Operate in the Indo-Pacific region.
- Maximum draft of no more than 44 feet. Preference will be given to vessels that can transport the most fuel at the shallowest draft.
- Sustained service speed of at least 14 knots, with higher speeds preferred.
- Carry only clean refined products.
- Capable of carrying more than two separated grades of refined petroleum products with double valve protection between tanks. Additionally, the vessel must meet the standards of 46 U.S.C. 53401(4).

National Security Requirements

The applicant chosen to receive a TSP Operating Agreement will be required to enter into an Emergency Preparedness Agreement (EPA) under 46 U.S.C. 53407, or such other agreement as may be approved by the Secretaries. The

current EPA approved by the Secretary and SecDef is the Voluntary Tanker Agreement (VTA), publicly available for review at 87 FR 67119 (November 7, 2022).

Documentation

A vessel chosen to receive the TSP Operating Agreement must be documented as a U.S.-flag vessel under 46 U.S.C. chapter 121 to operate under the Operating Agreement. An applicant proposing a vessel registered under the laws of a foreign country at the time of application must demonstrate the vessel owner's intent to have the vessel documented under United States law and must demonstrate that the vessel is U.S. registered by the time the applicant enters into a TSP Operating Agreement for the vessel. Proof of U.S. Coast Guard vessel documentation and inspection and all relevant charter and management agreements for a chosen vessel must be approved by MARAD before the vessel will be eligible to operate under a TSP Operating Agreement and receive TSP payments.

Vessel Operation

A vessel selected for award of a TSP Operating Agreement must be operated in foreign commerce, in mixed foreign commerce and domestic trade of the United States permitted under a registry endorsement issued under 46 U.S.C. 12111, or between U.S. ports and those points identified in 46 U.S.C. 55101(b), or in foreign-to-foreign commerce, and must not otherwise operate in the coastwise trade of the United States. Further, in accordance with the FY22 NDAA, no vessel may operate under a TSP Operating Agreement while it is also operating under charter to the United States Government for a period that, together with options, exceeds 180 continuous days.

Protection of Confidential Commercial or Financial Information

If the application includes information that the applicant considers to be a trade secret or confidential commercial or financial information, the applicant should do the following: (1) Note on the front cover that the submission "Contains Confidential Commercial or Financial Information (CCFI)"; (2) mark each affected page "CCFI"; and (3) highlight or otherwise denote the CCFI portions. MARAD will protect such information from disclosure to the extent allowed under applicable law. In the event MARAD receives a Freedom of Information Act (FOIA) request for the information, procedures described in the Department's FOIA regulation at 49 CFR

7.29 will be followed. Only information that is ultimately determined to be confidential under that procedure will be exempt from disclosure under FOIA.

Award of Operating Agreements

MARAD will make every effort to expedite the review of applications and an award of a TSP Operating Agreement. MARAD, however, does not guarantee the award of an TSP Operating Agreement in response to applications submitted under this Notice. If no awards are made, or an application is not selected for an award, the applicant will be provided with a written reason why the application was denied, consistent with the requirements of 46 U.S.C. 53403.

(Authority: 46 U.S.C. chapter 534, 49 CFR 1.92 and 1.93, 46 CFR 294)

By order of the Maritime Administrator.

T. Mitchell Hudson, Jr.

Secretary, Maritime Administration.
