Notice of Inventory Completion: William S. Webb Museum of Anthropology, University of Kentucky, Lexington, KY

AGENCY: National Park Service, Interior.

ACTION: Notice.

SUMMARY: In accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), the William S. Webb Museum of Anthropology, University of Kentucky (WSWM) has completed an inventory of human remains and associated funerary objects and has determined that there is a cultural affiliation between the human remains and associated funerary objects and Indian Tribes or Native Hawaiian organizations in this notice.

DATES: Repatriation of the human remains and associated funerary objects in this notice may occur on or after May 31, 2024.

ADDRESSES: Celise Chilcote-Fricker, William S. Webb Museum of Anthropology, University of Kentucky, 1020 Export Street, Lexington, KY 40504, telephone (859) 257–5124, email celise.fricker@uky.edu.

SUPPLEMENTARY INFORMATION: This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA. The determinations in this notice are the sole responsibility of the WSWM, and additional information on the determinations in this notice, including the results of consultation, can be found in the inventory or related records. The National Park Service is not responsible for the determinations in this notice.

Abstract of Information Available

Based on the information available, human remains representing, at least, 10 individuals have been reasonably identified. The 48 associated funerary objects are one lot ceramic sherds, one lot lithic, one lot faunal, one lot shell, one soil sample, 35 shell beads, one ceramic gorget, four shell gorgets, and three stone celts. These remains and funerary objects were removed from an unknown site in Perry County, KY, at an

unknown time and donated to the Bobby Davis Museum in Hazard, Kentucky. After the dissolution of the museum, the remains and associated artifacts were donated to the WSWM for the purpose of pursuing repatriation.

Cultural Affiliation

Based on the information available and the results of consultation, cultural affiliation is reasonably identified by the geographical location and acquisition history of the human remains and associated funerary objects described in this notice.

Determinations

The WSWM has determined that:

- The human remains described in this notice represent the physical remains of 10 individuals of Native American ancestry.
- The 48 objects described in this notice are reasonably believed to have been placed intentionally with or near individual human remains at the time of death or later as part of the death rite or ceremony.
- There is a reasonable connection between the human remains and associated funerary objects described in this notice and the Absentee-Shawnee Tribe of Indians of Oklahoma; Cherokee Nation; Eastern Band of Cherokee Indians; Eastern Shawnee Tribe of Oklahoma; Shawnee Tribe; and the United Keetoowah Band of Cherokee Indians in Oklahoma.

Requests for Repatriation

Written requests for repatriation of the human remains and associated funerary objects in this notice must be sent to the authorized representative identified in this notice under **ADDRESSES**. Requests for repatriation may be submitted by:

1. Any one or more of the Indian Tribes or Native Hawaiian organizations identified in this notice.
2. Any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or a culturally affiliated Indian Tribe or Native Hawaiian organization.

Repatriation of the human remains and associated funerary objects in this notice to a requestor may occur on or after May 31, 2024. If competing requests for repatriation are received, the WSWM must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the human remains and associated funerary objects are considered a single request and not competing requests. The WSWM is responsible for sending a copy of this

notice to the Indian Tribes and Native Hawaiian organizations identified in this notice.

Authority: Native American Graves Protection and Repatriation Act, 25 U.S.C. 3003, and the implementing regulations, 43 CFR 10.10.

Dated: April 23, 2024.

Melanie O'Brien,

Manager, National NAGPRA Program.

Notice of Inventory Completion: Longyear Museum of Anthropology, Colgate University, Hamilton, NY

AGENCY: National Park Service, Interior.

ACTION: Notice.

SUMMARY: In accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), the Longyear Museum of Anthropology (LMA) has completed an inventory of associated funerary objects and has determined that there is a cultural affiliation between the associated funerary objects and Indian Tribes or Native Hawaiian organizations in this notice.

DATES: Repatriation of the associated funerary objects in this notice may occur on or after May 31, 2024.

ADDRESSES: Kelsey Olney-Wall, Repatriation Manager, University Museums, Colgate University, 13 Oak Drive, Hamilton, NY 13346, telephone (315) 228–7677, email kolneywall@colgate.edu.

SUPPLEMENTARY INFORMATION: This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA. The determinations in this notice are the sole responsibility of the LMA, and additional information on the determinations in this notice, including the results of consultation, can be found in the inventory or related records. The National Park Service is not responsible for the determinations in this notice.

Abstract of Information Available

Based on the information available, the associated funerary objects are six shell beads. The six shell beads (Catalog number A234), were gathered by Mortimer Cooley Howe while he was a student at Colgate and the University of Michigan. The Howe collection was

donated to Colgate University, posthumously, by his father Burton Howe in 1947. The handwritten tag on the shell beads connects them to one individual removed from an unknown location in Arkansas, previously reported in a Notice of Inventory Completion published in the **Federal Register** on August 8, 2011 (76 FR 48178–48179). The LMA established the beads are associated with the human remains repatriated to the Osage Nation in 2017.

Cultural Affiliation

Based on the information available and the results of consultation, cultural affiliation is clearly identified by the information available about the associated funerary objects described in this notice.

Determinations

The LMA has determined that:

- The six objects described in this notice are reasonably believed to have been placed intentionally with or near individual human remains at the time of death or later as part of the death rite or ceremony.
- There is a reasonable connection between the associated funerary objects described in this notice and The Osage Nation.

Requests for Repatriation

Written requests for repatriation of the associated funerary objects in this notice must be sent to the authorized representative identified in this notice under **ADDRESSES**. Requests for repatriation may be submitted by:

1. Any one or more of the Indian Tribes or Native Hawaiian organizations identified in this notice.
2. Any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or a culturally affiliated Indian Tribe or Native Hawaiian organization.

Repatriation of the associated funerary objects in this notice to a requestor may occur on or after May 31, 2024. If competing requests for repatriation are received, the LMA must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the associated funerary objects are considered a single request and not competing requests. The LMA is responsible for sending a copy of this notice to the Indian Tribes and Native Hawaiian organizations identified in this notice.

Authority: Native American Graves Protection and Repatriation Act, 25

U.S.C. 3003, and the implementing regulations, 43 CFR 10.10.

Dated: April 23, 2024.

Notice of Inventory Completion: University of Wisconsin Oshkosh, Oshkosh, WI

AGENCY: National Park Service, Interior.

ACTION: Notice.

SUMMARY: In accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), the University of Wisconsin Oshkosh has completed an inventory of human remains and associated funerary objects and has determined that there is a cultural affiliation between the human remains and associated funerary objects and Indian Tribes or Native Hawaiian organizations in this notice.

DATES: Repatriation of the human remains and associated funerary objects in this notice may occur on or after May 31, 2024.

ADDRESSES: Adrienne Frie, University of Wisconsin Oshkosh, 800 Algoma Boulevard, Oshkosh, WI 54901, telephone (920) 424–1365, email friea@uwosh.edu.

SUPPLEMENTARY INFORMATION: This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA. The determinations in this notice are the sole responsibility of the University of Wisconsin Oshkosh, and additional information on the determinations in this notice, including the results of consultation, can be found in the inventory or related records. The National Park Service is not responsible for the determinations in this notice.

Abstract of Information Available

Based on the information available, human remains representing, at least, one individual (UnprovBurial1_UNKNO) have been reasonably identified. The individual was removed from an unknown geographic location in Wisconsin. There are no records indicating when or how this individual came into the possession of the Archaeology Collection at the University of Wisconsin Oshkosh. The

outside of the original storage box was labeled “human burial, Wisconsin (?),” according to the University of Oshkosh Culturally Unidentifiable NAGPRA Inventory, which was submitted in 1995. A note in the box reads “Femur found in trunk at Doty Cabin—no other prov. Deer bone found under driveway in my neighbor’s yard.” The deer bone does not seem to have been originally associated with the human remains. There are no records of this acquisition from the Doty Cabin Museum. No associated funerary objects are present.

Based on the information available, human remains representing, at least, 13 individuals (UnprovBurial2_UNKNO) have been reasonably identified. The individuals were removed from an unknown geographic location, WI. There is no known collection history for these individuals, however, they were described as “Unprovenanced Burial #2” in the University of Wisconsin Oshkosh Culturally Unidentifiable NAGPRA Inventory, which was submitted in 1995. According to this Inventory, the outside of the original storage box had been labeled “human burial, Wisconsin (?)”. The six associated funerary objects are one deer antler; one fragment of an ungulate metapodial; one snake vertebra; one rodent incisor; one lot of gastropod shells and shell fragments; and one lot of soil matrix.

Based on the information available, human remains representing, at least, three individuals (UnprovBurial3_UNKNO) have been reasonably identified. The individuals were removed from an unknown geographic location in Wisconsin. No information was found regarding the provenience of this burial. Jeff Behm, an archaeologist with the University of Wisconsin Oshkosh, noted that the human remains were housed at the University for as long as he’d been employed (since 1985). The box label and the history of the collections at the University of Wisconsin Oshkosh provides a preponderance of evidence that this individual was removed from somewhere in the state of Wisconsin. No associated funerary objects are present.

Based on the information available, human remains representing, at least, one individual (Unprov004_REHWIN) have been reasonably identified. The individual was removed from an unknown geographic location in Wisconsin. On February 16, 1976, the individual was donated to the University of Wisconsin Oshkosh by John Rehwinkel, according to writing present on the individual. Based on Rehwinkel’s residence and avocational
