

# Proposed Rules

Federal Register

Vol. 89, No. 87

Friday, May 3, 2024

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

## OFFICE OF PERSONNEL MANAGEMENT

### 5 CFR Part 532

[Docket ID: OPM–2024–0010]

RIN 3206–AO67

### Prevailing Rate Systems; Redefinition of the Arapahoe-Denver, Colorado, Nonappropriated Fund Federal Wage System Wage Area

**AGENCY:** Office of Personnel Management.

**ACTION:** Proposed rule.

**SUMMARY:** The Office of Personnel Management (OPM) is proposing a rule to remove Denver County, CO, from the Arapahoe-Denver, CO, nonappropriated fund (NAF) Federal Wage System (FWS) wage area. In addition, OPM proposes to change the name of the Arapahoe-Denver NAF FWS wage area to Arapahoe. These changes are necessary because no NAF FWS employment has been reported in Denver County since 2018.

**DATES:** Send comments on or before June 3, 2024.

**ADDRESSES:** You may submit comments, identified by docket number and/or Regulatory Information Number (RIN) and title, by the following method:

- *Federal eRulemaking Portal:* <https://www.regulations.gov>. Follow the instructions for submitting comments.

All submissions received must include the agency name and docket number or RIN for this document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing at <https://www.regulations.gov> without change, including any personal identifiers or contact information.

**FOR FURTHER INFORMATION CONTACT:** Ana Paunoiu, by telephone at (202) 606–2858 or by email at [paypolicy@opm.gov](mailto:paypolicy@opm.gov).

**SUPPLEMENTARY INFORMATION:** Under 5 CFR 532.219, OPM may establish an NAF wage area when there are a

minimum of 26 NAF wage employees in the survey area, a local activity has the capability to host annual local wage surveys, and the survey area has at least 1,800 private enterprise employees in establishments within survey specifications. The Arapahoe-Denver, CO, NAF wage area is presently composed of two survey area counties, Arapahoe and Denver Counties, CO, and one area of application county, Mesa County, CO. The Department of Defense (DOD) notified OPM that the Defense Finance Cafeteria that was located in Denver County closed in 2010 and the Denver Outpatient Clinic moved to Arapahoe County in 2018. This leaves no NAF FWS employment in Denver County. Under 5 U.S.C. 5343(a)(1)(B)(i), NAF wage areas “shall not extend beyond the immediate locality in which the particular prevailing rate employees are employed.” Therefore, Denver County should not be defined as part of an NAF wage area.

With the removal of Denver County, the renamed Arapahoe wage area would consist of one survey county, Arapahoe County, CO, and one area of application county, Mesa County, CO. DOD indicates that there are about 65 NAF FWS employees working in the survey area, and the area has a local activity, Buckley Space Force Base, capable of hosting the wage survey. There are also 4 NAF FWS employees in Mesa County.

The Federal Prevailing Rate Advisory Committee, the national labor-management committee responsible for advising OPM on matters concerning the pay of FWS employees, recommended these changes by consensus. These changes would be effective on the first day of the first applicable pay period beginning on or after 30 days following publication of the final regulations.

### Expected Impact of This Proposed Rule

Under 5 U.S.C. 5343, OPM has the authority and responsibility to define the boundaries of NAF FWS wage areas. Any changes in wage area definitions can have the long-term effect of increasing pay for Federal employees in affected locations. OPM expects this proposed rule will have no impact on approximately 69 NAF FWS employees. OPM does not anticipate this proposed rule will substantially impact local economies or have a large impact in local labor markets. However, OPM is

requesting comment in this proposed rule regarding the impact. As this and future wage area changes may impact higher volumes of employees in geographical areas and could rise to the level of impacting local labor markets, OPM will continue to study the implications of such impacts in this or future rules as needed.

### Regulatory Review

OPM has examined the impact of this rulemaking as required by Executive Orders 12866, 13563, and 14094, which direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). OMB has determined that this rulemaking is not a “significant regulatory action” under section 3(f) of Executive Order 12866, as amended by Executive Order 14094.

### Regulatory Flexibility Act

The Director of OPM certifies that this rulemaking will not have a significant economic impact on a substantial number of small entities.

### Federalism

OPM has examined this rulemaking in accordance with Executive Order 13132, Federalism, and has determined that this proposed rule will not have any negative impact on the rights, roles and responsibilities of state, local, or tribal governments.

### Civil Justice Reform

This rulemaking meets the applicable standard set forth in Executive Order 12988.

### Unfunded Mandates Act of 1995

This rulemaking will not result in the expenditure by state, local, and tribal governments, in the aggregate, or by the private sector, of \$100 million or more in any year, and it will not significantly or uniquely affect small governments. Therefore, no actions were deemed necessary under the provisions of the Unfunded Mandates Reform Act of 1995.

**Paperwork Reduction Act of 1995**

This rulemaking does not impose any reporting or recordkeeping requirements subject to the Paperwork Reduction Act.

**List of Subjects in 5 CFR Part 532**

**BILLING CODE 6325–39–P**

**DEPARTMENT OF THE TREASURY**

**United States Mint**

**31 CFR Part 100**

**Exchange of Coin**

**AGENCY:** United States Mint, Department of the Treasury.

**ACTION:** Notice of proposed rulemaking; withdrawal of proposed rule.

**SUMMARY:** The United States Mint proposes to remove its regulations relating to the exchange of bent and partial coin. The proposed removal will end the exchange program for bent and partial coin. This document also withdraws the notice of proposed rulemaking relating to these same regulations that was published in the *Federal Register* for May 5, 2021.

**DATES:**

*Comment due date:* July 2, 2024.

*Withdrawal:* As of May 3, 2024 the proposed rule published May 5, 2021, at 86 FR 23877 is withdrawn.

**ADDRESSES:** The United States Mint invites comments on all aspects of this proposed revision. You may send comments by any of the following methods:

- *Federal eRulemaking Portal:* [www.regulations.gov](http://www.regulations.gov). Follow the instructions for sending comments.

- *Mail:* Submit all written comments to Mutilated Coin Redemption Program; Manufacturing Directorate; United States Mint; 801 9th Street NW; Washington, DC 20220.

- *Hand Delivery/Courier:* Same as mail address.

*Instructions:* All submissions received must include the agency name for this rulemaking. All comments received will be posted without change to [regulations.gov](http://regulations.gov), including any personal information provided.

**FOR FURTHER INFORMATION CONTACT:**

Apryl Whitaker, Senior Legal Counsel, Office of the Chief Counsel, United States Mint, at (202) 354–7938 or [rulemaking@usmint.treas.gov](mailto:rulemaking@usmint.treas.gov).

**SUPPLEMENTARY INFORMATION:**

**I. Background**

The Treasury regulations appearing at 31 CFR 100.11, are promulgated under 31 U.S.C. 5120, and relate to the exchange of bent and partial coin. The last amendment to 31 CFR part 100, subpart C, was on December 20, 2017. On May 5, 2021, the United States Mint issued a notice of proposed rulemaking, proposing certain revisions to these regulations (86 FR 23877). Since then, the United States Mint has decided to

close the bent and partial coin exchange program.

**II. This Proposed Rule**

For many years, the United States Mint has redeemed bent and partial coins for full face value. However, in recent years, the volume of coins submitted for possible redemption has greatly increased, and there is no practical way for the United States Mint to expand the resources devoted to the program to meet the full level of demand. This is particularly true where submissions must be carefully evaluated to ensure that counterfeit coins are not accepted to the program and where the condition of many coins, particularly large volumes of coins damaged by recycling or industrial processes, makes authentication difficult and time-consuming. An increasing number of counterfeits has been identified in imported coins intercepted by law enforcement in recent years, as well in as several large submissions to the Mutilated Coin Redemption Program. The United States Mint Philadelphia facility’s capacity to process mutilated coins is limited by physical storage capacity, caseload complexity, and workload. Authentication procedures require extensive time and resources. The United States Mint has dedicated substantial time and resources to the bent and partial coin exchange program, in addition to operating the program at a loss by paying out face value for redemptions. With the closure of the exchange program, these resources could instead be redirected toward the United States Mint’s core mission of manufacturing and distributing circulating, precious metal, and collectible coins and national medals, and providing security over assets entrusted to the United States Mint.

The melting of dimes, quarters, half-dollar, and dollar coins is not regulated by the United States Mint. The public may melt and reuse certain coins consistent with 31 CFR part 82. While there is a prohibition against melting pennies and nickels, there is a specific exception at 31 CFR 82.2 for coins melted or treated incidental to recycling other materials if (1) the coins were not added to the other materials for their metallurgical value, (2) the volumes of the coins, relative to the volumes of the other materials recycled, makes it clear that the presence of such coins is merely incidental, and (3) the separation of the coins from the other materials would be impracticable or cost prohibitive. See 31 CFR 82.2(c). This exception extends to the melting of coins that become mutilated due to treatment that is itself within the scope of the exception. If an
