International Trade Administration

Environmental Technologies Trade Advisory Committee

AGENCY: International Trade Administration, U.S. Department of Commerce.

ACTION: Notice of an open meeting of a Federal advisory committee.

SUMMARY: The Environmental Technologies Trade Advisory Committee (ETTAC) will hold a hybrid meeting, accessible in-person and online, on Tuesday May 21, 2024 at the U.S. Department of Commerce in Washington, DC. The meeting is open to the public with registration instructions provided below. This notice sets forth the schedule and proposed topics for the meeting.

DATES: The meeting is scheduled for Tuesday, May 21, 2024 from 10:00 a.m. to 12:00 p.m. and 1:00 to 3:00 p.m. Eastern Standard Time (EST). The deadline for members of the public to register to participate, including requests to make comments during the meeting and for auxiliary aids, or to submit written comments for dissemination prior to the meeting, is 5:00 p.m. EST on Wednesday, May 15, 2024. Members of the public must register by that date to participate.

ADDRESSES: The meeting will be held virtually as well as in-person in the Commerce Research Library at the U.S. Department of Commerce Herbert Clark Hoover Building, 1401 Constitution Avenue NW, Washington, DC 20230. Requests to register to participate in-person or virtually (including to speak or for auxiliary aids) and any written comments should be submitted via email to Ms. Megan Hyndman, Office of Energy & Environmental Industries, International Trade Administration, at Megan.Hyndman@trade.gov. This meeting has a limited number of spaces for members of the public to attend in-person. Requests to participate in-person will be considered on a first-come, first-served basis.

FOR FURTHER INFORMATION CONTACT: Ms. Megan Hyndman, Office of Energy & Environmental Industries, International Trade Administration (Phone: 202-823-1839; email: Megan.Hyndman@trade.gov).

SUPPLEMENTARY INFORMATION: The ETTAC is mandated by section 2313(c) of the Export Enhancement Act of 1988, as amended, 15 U.S.C. 4728(c), to advise the Environmental Trade Working Group of the Trade Promotion

Coordinating Committee, through the Secretary of Commerce, on the development and administration of programs to expand U.S. exports of environmental technologies, goods, services, and products. The ETTAC was most recently re-chartered through August 16, 2024.

On Tuesday, May 21, 2024 from 10:00 a.m. to 12:00 p.m. and 1:00 to 3:00 p.m. EST, the ETTAC will hold the eighth meeting of its current charter term. During the meeting, committee members will discuss issues of interest to specific environmental technology sectors, deliberate on potential recommendation topics, and hear briefings from the U.S. government related to tax incentives for carbon management projects, among other topics. An agenda will be made available one week prior to the meeting upon request to Megan Hyndman.

The meeting will be open to the public and time will be permitted for public comment before the close of the meeting. Members of the public seeking to attend the meeting are required to register by Wednesday, May 15, at 5:00 p.m. EST, via the contact information provided above. This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to OEEI at Megan.Hyndman@trade.gov or (202) 823-1839 no less than one week prior to the meeting. Requests received after this date will not be accepted, but it may not be possible to accommodate them.

Written comments concerning ETTAC affairs are welcome any time before or after the meeting. To be considered during the meeting, written comments must be received by Wednesday, May 15, 2024, at 5:00 p.m. EST to ensure transmission to the members before the meeting. Draft minutes will be available within 30 days of this meeting.

Dated: April 30, 2024.

Man K. Cho,

Deputy Director, Office of Energy and Environmental Industries.

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Northeast Region Observer Providers Requirements

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on January 31, 2024, during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic & Atmospheric Administration (NOAA), Commerce.

Title: Northeast Region Observer Providers Requirements.

OMB Control Number: 0648-0546.

Form Number(s): None.

Type of Request: Regular submission (extension and revision of a currently approved information collection).

Number of Respondents: 626.

Average Hours per Response: Response time varies between 10 minutes to 10 hours depending on the information collection.

Total Annual Burden Hours: 6,475.

Needs and Uses: Under the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), the Secretary of Commerce (Secretary) has the responsibility for the conservation and management of marine fishery resources. Much of this responsibility has been delegated to the NOAA/National Marine Fisheries Service (NMFS). Under this stewardship role, the Secretary was given certain regulatory authorities to ensure the most beneficial uses of these resources. One of the regulatory steps taken to carry out the conservation and management objectives is to collect data from users of the resource.

Regulations at 50 CFR 648.11(g) require observer service providers to comply with specific requirements in order to operate as an approved

provider in the Atlantic sea scallop (scallop) fishery. Observer service providers must comply with the following requirements: submit applications for approval as an observer service provider; formally request observer training by the Northeast Fisheries Observer Program (NEFOP); submit observer deployment reports and biological samples; give notification of whether a vessel must carry an observer within 24 hours of the vessel owner's notification of a prospective trip; maintain an updated contact list of all observers that includes the observer identification number; observer's name mailing address, email address, phone numbers, homeports or fisheries/trip types assigned, and whether or not the observer is "in service." The regulations also require observer service providers submit any outreach materials, such as informational pamphlets, payment notification, and descriptions of observer duties as well as all contracts between the service provider and entities requiring observer services for review to NMFS/NEFOP. Observer service providers also have the option to respond to application denials, and submit a rebuttal in response to a pending removal from the list of approved observer providers. During the 60-day comment period for this renewal NMFS approved an additional observer service provider, increasing the number of providers from three to four. The additional burden hours necessary to accommodate the additional provider are reflected in the updated total burden hours.

Regulations at § 648.11(k)(2) require that limited access, limited access general category individual fishing quota, and Northern Gulf of Maine scallop vessels notify NMFS prior to the beginning of a scallop trip to facilitate the deployment of at-sea observers. Previously, vessels either called or emailed to notify NMFS of an upcoming scallop trip. NMFS has added a new method for notification called the Pre-Trip Notification System (PTNS). The integration of the scallop notification requirement into the PTNS helps standardize observer operations between fisheries and modernize reporting systems. The PTNS is a mobile-friendly website that is more sophisticated and flexible than the aging interactive voice response technology. The change to the PTNS does not affect determination of scallop coverage rates or the compensation analysis. There are no changes to the requirements vessels must abide by if selected to carry an observer, such as equal accommodations, a harassment-free
