

services from the Indian Health Service and enrollment in health care benefits provided by the Veterans Affairs. OPM is requesting this information because it is necessary to determine Program eligibility for these individuals.

In addition, the Forms have been updated to improve clarity and ease of use. OPM consulted with Agency Benefit Officers, Federal benefit electronic enrollment systems, FEHB insurance carriers and conducted several employee focus groups to determine proposed changes. Some changes to instructions for the SF–2809 form have not been made to the OPM–2809 form to accommodate a larger use of paper forms by the annuitant population.

Finally, as part of the release of the new PSHB Program, OPM will be offering the use of a new online enrollment system. The information collected using the system will be identical to the paper and electronic PDF versions of the SF–2809 and OPM–2809 forms; however, users will be able to enter the information using a series of prompts that provide additional instructions and guidance.

The information collection for form SF–2809 (OMB Control Number 3206–0160) is currently approved with an estimated public burden of 9,000 hours for 18,000 responses. The information collection (OMB Control number 3206–0141) associated with that form is currently approved with an estimated public burden of 11,667 hours for 30,000 responses. As OPM is proposing to combine these information collections, the estimated public burden for the revised information collection is 20,667 hours for 48,000 responses.

The Standard Form 2809 and OPM Form 2809 reflect the minimal critical elements collected across the Federal government to begin an application for enrollment under the FEHB Program (including the PSHB Program) under the authority of 5 U.S.C. chapter 89.

We invite comments that:

1. Evaluate the utility of the changes made to the forms;
2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
3. Suggest ways to enhance the quality, utility, and clarity of the information to be collected; and
4. Suggest ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information

technology, *e.g.*, permitting electronic submissions of responses.

In particular, OPM requests comment on (a) the proposed changes to form SF–2809, (b) the proposed changes to form OPM–2809, (c) OPM's proposal to collect the SF–2809 and OPM–2809 information for PSHB via the new electronic system, and (d) OPM's proposal to combine the two information collections into a single collection.
