

Coordinating Committee, through the Secretary of Commerce, on the development and administration of programs to expand U.S. exports of environmental technologies, goods, services, and products. The ETTAC was most recently re-chartered through August 16, 2024.

On Tuesday, May 21, 2024 from 10:00 a.m. to 12:00 p.m. and 1:00 to 3:00 p.m. EST, the ETTAC will hold the eighth meeting of its current charter term. During the meeting, committee members will discuss issues of interest to specific environmental technology sectors, deliberate on potential recommendation topics, and hear briefings from the U.S. government related to tax incentives for carbon management projects, among other topics. An agenda will be made available one week prior to the meeting upon request to Megan Hyndman.

The meeting will be open to the public and time will be permitted for public comment before the close of the meeting. Members of the public seeking to attend the meeting are required to register by Wednesday, May 15, at 5:00 p.m. EST, via the contact information provided above. This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to OEEL at Megan.Hyndman@trade.gov or (202) 823-1839 no less than one week prior to the meeting. Requests received after this date will be accepted, but it may not be possible to accommodate them.

Written comments concerning ETTAC affairs are welcome any time before or after the meeting. To be considered during the meeting, written comments must be received by Wednesday, May 15, 2024, at 5:00 p.m. EST to ensure transmission to the members before the meeting. Draft minutes will be available within 30 days of this meeting.

Dated: April 30, 2024.

Man K. Cho,

Deputy Director, Office of Energy and Environmental Industries.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Northeast Region Observer Providers Requirements

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on January 31, 2024, during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic & Atmospheric Administration (NOAA), Commerce.

Title: Northeast Region Observer Providers Requirements.

OMB Control Number: 0648-0546.

Form Number(s): None.

Type of Request: Regular submission (extension and revision of a currently approved information collection).

Number of Respondents: 626.

Average Hours per Response: Response time varies between 10 minutes to 10 hours depending on the information collection.

Total Annual Burden Hours: 6,475.

Needs and Uses: Under the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), the Secretary of Commerce (Secretary) has the responsibility for the conservation and management of marine fishery resources. Much of this responsibility has been delegated to the NOAA/National Marine Fisheries Service (NMFS). Under this stewardship role, the Secretary was given certain regulatory authorities to ensure the most beneficial uses of these resources. One of the regulatory steps taken to carry out the conservation and management objectives is to collect data from users of the resource.

Regulations at 50 CFR 648.11(g) require observer service providers to comply with specific requirements in order to operate as an approved

provider in the Atlantic sea scallop (scallop) fishery. Observer service providers must comply with the following requirements: submit applications for approval as an observer service provider; formally request observer training by the Northeast Fisheries Observer Program (NEFOP); submit observer deployment reports and biological samples; give notification of whether a vessel must carry an observer within 24 hours of the vessel owner's notification of a prospective trip; maintain an updated contact list of all observers that includes the observer identification number; observer's name mailing address, email address, phone numbers, homeports or fisheries/trip types assigned, and whether or not the observer is "in service." The regulations also require observer service providers submit any outreach materials, such as informational pamphlets, payment notification, and descriptions of observer duties as well as all contracts between the service provider and entities requiring observer services for review to NMFS/NEFOP. Observer service providers also have the option to respond to application denials, and submit a rebuttal in response to a pending removal from the list of approved observer providers. During the 60-day comment period for this renewal NMFS approved an additional observer service provider, increasing the number of providers from three to four. The additional burden hours necessary to accommodate the additional provider are reflected in the updated total burden hours.

Regulations at § 648.11(k)(2) require that limited access, limited access general category individual fishing quota, and Northern Gulf of Maine scallop vessels notify NMFS prior to the beginning of a scallop trip to facilitate the deployment of at-sea observers. Previously, vessels either called or emailed to notify NMFS of an upcoming scallop trip. NMFS has added a new method for notification called the Pre-Trip Notification System (PTNS). The integration of the scallop notification requirement into the PTNS helps standardize observer operations between fisheries and modernize reporting systems. The PTNS is a mobile-friendly website that is more sophisticated and flexible than the aging interactive voice response technology. The change to the PTNS does not affect determination of scallop coverage rates or the compensation analysis. There are no changes to the requirements vessels must abide by if selected to carry an observer, such as equal accommodations, a harassment-free

environment, and other safety requirements. This change is not expected to impact the burden response time, but NOAA will continue to monitor use of this new tool, and will update the collection if it results in any burden changes at our next renewal. There will still be an email and a phone option for vessels to notify. These requirements allow NMFS/NEFOP to effectively administer the scallop observer program.

Affected Public: Business or other for-profit organization.

Frequency: Weekly

Respondent's Obligation: Required to Obtain Benefits.

Legal Authority: Magnuson-Steven Act

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function and entering either the title of the collection or the OMB Control Number 0648–0546.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Under Secretary for Economic Affairs, Commerce Department.

BILLING CODE 3510–22–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[RTID 0648–XD924]

Mid-Atlantic Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; public meeting.

SUMMARY: A sub-panel of the Mid-Atlantic and New England Fishery Management Councils' Scientific and Statistical Committees (SSC) and the Atlantic States Marine Fisheries Commission (ASMFC) Assessment Science Committee will hold a meeting.

DATES: The meeting will be held on Wednesday, May 22, 2024, starting at

9:30 a.m. and continue through 12:30 p.m. on Friday, May 24, 2024. See **SUPPLEMENTARY INFORMATION** for agenda details.

ADDRESSES: This will be an in-person meeting with a virtual option. Participants and members of the public will have the option to participate in person at the Northeast Fisheries Science Center Narragansett Lab, 28 Tarzwell Drive, Narragansett, RI, or virtually via webinar. Webinar connection instructions and briefing materials will be available at: www.mafmc.org.

Council address: Mid-Atlantic Fishery Management Council, 800 N State Street, Suite 201, Dover, DE 19901; telephone: (302) 674–2331; website: www.mafmc.org.

FOR FURTHER INFORMATION CONTACT:

Christopher M. Moore, Ph.D., Executive Director, Mid-Atlantic Fishery Management Council, telephone: (302) 526–5255.

SUPPLEMENTARY INFORMATION: The joint sub-panel, consisting of Mid-Atlantic and New England SSC members and ASMFC Assessment Science Committee members, will meet to review and provide input on the Northeast Fisheries Science Center (NEFSC) draft survey mitigation plans relative to offshore wind development. NOAA Fisheries and the Bureau of Ocean Energy Management (BOEM) developed the Federal Survey Mitigation Strategy (Strategy) which describes the impacts of wind energy development on fisheries-independent surveys and outlines the goals, objectives, and actions to guide the development and implementation of a program to mitigate the impacts on fisheries-independent surveys. To address the actions outlined in the Strategy, the NEFSC developed the Northeast Survey Mitigation Program and survey-specific mitigation plans to ensure NEFSC can continue to provide equal or higher quality science for each of the long-term, recurring surveys conducted by NEFSC that will be impacted by offshore wind development. The survey mitigation plans include descriptions of the impacted survey, specific stakeholders for the data collected, impacts of offshore wind development, and planned mitigation measures to address the impacts of wind energy development on scientific surveys.

To ensure the survey mitigation plans represent the best science available, the joint sub-panel will peer review the draft survey mitigation plans prepared by the NEFSC for eight existing fishery-independent surveys and three new supplemental surveys. The sub-panel

will evaluate the detail and scientific soundness of the mitigation approaches described in each plan, following a set of Terms of Reference. The NEFSC will consider the feedback received from the sub-panel and will address and/or incorporate into revised survey mitigation plans as appropriate.

A detailed agenda and background documents will be made available on the Council's website (www.mafmc.org) prior to the meeting.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aid should be directed to Shelley Spedden, (302) 526–5251, at least 5 days prior to the meeting date.

Authority: 16 U.S.C 1801 *et seq.*

Dated: May 1, 2024.

Rey Israel Marquez,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Fisheries of the South Atlantic; Southeast Data, Assessment, and Review (SEDAR); Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of SEDAR 92 Atlantic Blueline Tilefish Landings Stream Topical Working Group (LS–TWG) Webinar I.

SUMMARY: The SEDAR 92 assessment of the Atlantic stock of blueline tilefish will consist of a series of assessment webinars. SEDAR 92 Webinar I is scheduled for May 22, 2024. See **SUPPLEMENTARY INFORMATION**.

DATES: The SEDAR 92 Atlantic Blueline Tilefish LS–TWG Webinar I is scheduled for May 22, 2024, from 1 p.m. to 3 p.m., eastern. The established times may be adjusted as necessary to accommodate the timely completion of discussion relevant to the assessment process. Such adjustments may result in the meeting being extended from or completed prior to the time established by this notice.

ADDRESSES: The meeting will be held via webinar. The webinar is open to
