#### SUPPLEMENTARY INFORMATION:

##### I. What information is EPA particularly interested in?

Pursuant to PRA section 3506(c)(2)(A) (44 U.S.C. 3506(c)(2)(A)), EPA specifically solicits comments and information to enable it to:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility.
2. Evaluate the accuracy of the Agency's estimates of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.
3. Enhance the quality, utility, and clarity of the information to be collected.
4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of

specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

##### II. What information collection activity or ICR does this action apply to?

*Title:* EPA's Safer Choice Program Product and Partner Recognition Activities (Consolidation).

*EPA ICR No.:* 2692.02.

*OMB Control No.:* 2070–0221.

*ICR status:* This ICR is currently approved through May 31, 2025. Under the PRA, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the Code of Federal Regulations (CFR), after appearing in the **Federal Register** when approved, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers for certain EPA regulations is consolidated in 40 CFR 9.

*Abstract:* This ICR renewal covers the information collection activities associated with the reporting and recordkeeping requirements for individuals, businesses, organizations, and government entities participating in or collaborating with EPA's Safer Choice and Design for the Environment (DfE) programs (referred to collectively as "the Safer Choice program" in this document unless otherwise indicated). This ICR also includes additional sections for the Safer Choice cleaning service certification and third-party profiler (TPP) solicitations. These components are designed to:

- Improve data efficiency by electronic data collection via a cloud-based Salesforce system called the Safer Choice Community;
- Monitor the public's awareness of the Safer Choice program and the Safer Choice label and DfE logo;
- Clarify the Safer Choice Partner of the Year Awards application process and form;
- Describe information collected through the new Safer Choice cleaning service certification program; and,
- Clarify the TPP application process and form.

*Burden statement:* The annual public reporting and recordkeeping burden for this collection of information is estimated to average of 17 to 58 hours per response. Burden is defined in 5 CFR 1320.3(b).

The ICR, which is available in the docket along with other related

materials, provides a detailed explanation of the collection activities and the burden estimate that is only briefly summarized here:

*Respondents/affected entities:* Entities potentially affected are those that involve a wide range of sectors that participation in the Safer Choice Program including chemical manufactures, paint and coating manufacturing, merchant wholesalers, janitorial services, and environmental consulting firms. The ICR includes a list of potentially affected entities with North American Industrial Classification System (NAICS) codes provided to assist in determining potential applicability.

*Respondent's obligation to respond:* Voluntary.

*EPA Form Numbers:* 9600–017, 9600–018, 9600–019, 9600–020, 9600–021, 9600–022, 9600–023, 9600–058, 9600–059, 9600–60, 9600–061.

*Frequency of response:* On occasion.

*Total estimated number of potential respondents:* 4,539.

*Total estimated average number of responses for each respondent:* 1.

*Total estimated annual burden hours:* 4,511 hours.

*Total estimated annual respondent costs:* \$854,358, which includes an estimated cost of \$0 for capital investment or maintenance and operational costs.

##### III. Are there changes in the estimates from the last approval?

There is an increase of 1,279 hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB. This change reflects increase in annual consumer online surveys, which increased from 2,000 to 4,000 annually, the inclusion of a new program, the "Safer Choice Cleaning Service Certification," and the inclusion of the TPP solicitation process. These changes qualify as a program change.

##### IV. What is the next step in the process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** document pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the person listed under **FOR FURTHER INFORMATION CONTACT**.

### Issuance of Outer Continental Shelf Air Permit for Empire Offshore Wind, LLC; Notice of Final Action

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of final action.

**SUMMARY:** This notice announces that the EPA issued a final Outer Continental Shelf (OCS) air permit decision under section 328 of the Clean Air Act (CAA) and the implementing Outer Continental Shelf (OCS) air regulations of the Code of Federal Regulations (CFR) for Empire Offshore Wind, LLC to construct and operate an offshore wind farm. This final permit is for the construction and operation of the Empire Wind Project, an offshore wind farm located on the OCS within Renewable Energy Lease Area OCS–A 0512 about 12 nautical miles south of Long Island, New York, and 17 nautical miles east of Long Branch, New Jersey.

**DATES:** The EPA issued OCS air permit No. OCS–EPA–R2 NY 01 to Empire Offshore Wind, LLC on February 15, 2024. The permit became effective on March 16, 2024.

**FOR FURTHER INFORMATION CONTACT:** Viorica Petriman, Environmental Engineer, Air and Radiation Division, EPA, Region 2, at (212) 637–4021 or at [petriman.viorica@epa.gov](mailto:petriman.viorica@epa.gov).

**SUPPLEMENTARY INFORMATION:** Throughout this document whenever “we”, “us”, or “our” is used, we mean EPA. This **SUPPLEMENTARY INFORMATION** section is arranged as follows:

#### I. How can I get copies of this document and other related information?

*Docket.* The EPA has established a docket for this action under Docket ID Number EPA–R02–OAR–2023–0522. Publicly available docket materials, including the final OCS air permit, the EPA’s response to comments and all additional related information, are available electronically in the docket at <https://www.regulations.gov>.

## II. Background

On December 1, 2023, the EPA Region 2 proposed a draft OCS air permit (draft permit) to Empire Offshore Wind, LLC, to construct and operate an offshore wind farm on Renewable Energy Lease Area OCS–A 0512 and requested public comment on the draft permit. During the public comment period, which ended on January 5, 2024, we received only one comment letter, from Empire Offshore Wind, LLC. The letter’s comments addressed only very specific permit conditions and did not raise any substantial questions. The EPA carefully reviewed the comments from Empire Offshore Wind, LLC and made only minor revisions and/or updates to a limited number of the draft permit conditions, and on February 15, 2024, issued the final OCS air permit in accordance with 40 CFR part 55. The EPA provided to the commenter and all attendees at the January 3, 2024 public hearing, among others, notice of this final permit issuance and information regarding the opportunity to appeal the final OCS air permit administratively by filing a petition with the Environmental Appeals Board (EAB) within thirty (30) days of the EPA’s notice of the final permit decision, consistent with 40 CFR 124.19.

40 CFR 124.19(l)(3)(ii) requires that the EPA provide notice in the **Federal Register** of any final agency action regarding OCS Air Permits issued pursuant to 40 CFR part 55.

Section 307(b)(1) of the CAA provides for judicial review of the final agency action within sixty (60) days from the date on which notice of the action appears in the **Federal Register**. A petition to the EAB for administrative review is a prerequisite to seeking judicial review. 40 CFR 124.19(l). Since no such petitions for administrative review were submitted for the Empire Offshore Wind final OCS air permit, no judicial review for this final OCS air permit may be sought. Under section 307(b)(2) of the CAA, this determination to issue a final OCS air permit shall not be subject to later judicial review in civil or criminal proceedings for enforcement.

#### III. Effect of This Action

Since changes were made from draft to the final permit, but no petition for review was filed with the EAB, the final OCS air permit became effective on March 16, 2024, consistent with 40 CFR 124.15(b). This final OCS air permit will expire as provided within its permit conditions.
