

reject factual submissions in any proceeding segments if the submitting party does not comply with applicable certification requirements.

Extension of Time Limits Regulation

Parties may request an extension of time limits before a time limit established under Part 351 expires, or as otherwise specified by Commerce.¹¹ In general, an extension request will be considered untimely if it is filed after the time limit established under Part 351 expires. For submissions which are due from multiple parties simultaneously, an extension request will be considered untimely if it is filed after 10:00 a.m. on the due date.

Examples include, but are not limited to: (1) case and rebuttal briefs, filed pursuant to 19 CFR 351.309; (2) factual information to value factors under 19 CFR 351.408(c), or to measure the adequacy of remuneration under 19 CFR 351.511(a)(2), filed pursuant to 19 CFR 351.301(c)(3) and rebuttal, clarification and correction filed pursuant to 19 CFR 351.301(c)(3)(iv); (3) comments concerning the selection of a surrogate country and surrogate values and rebuttal; (4) comments concerning CBP data; and (5) Q&V questionnaires. Under certain circumstances, Commerce may elect to specify a different time limit by which extension requests will be considered untimely for submissions which are due from multiple parties simultaneously. In such a case, Commerce will inform parties in the letter or memorandum setting forth the deadline (including a specified time) by which extension requests must be filed to be considered timely. This policy also requires that an extension request must be made in a separate, stand-alone submission, and clarifies the circumstances under which Commerce will grant untimely-filed requests for the extension of time limits. Please review the *Final Rule*, available at <https://www.gpo.gov/fdsys/pkg/FR-2013-09-20/html/2013-22853.htm>, prior to submitting factual information in these segments.

These initiations and this notice are in accordance with section 751(a) of the Act (19 U.S.C. 1675(a)) and 19 CFR 351.221(c)(1)(i).

Endangered and Threatened Species; Notice of Initiation of a 5-Year Review for the Non-U.S. Distinct Population Segment of Smalltooth Sawfish (*Pristis pectinata*)

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of initiation; request for information.

SUMMARY: NMFS announces the initiation of a 5-year review for the non-U.S. distinct population segment (DPS) of smalltooth sawfish (*Pristis pectinata*). NMFS is required by the Endangered Species Act (ESA) to conduct 5-year reviews to ensure that the listing classifications of species are accurate. The 5-year review must be based on the best scientific and commercial data available at the time of the review. We request submission of any such information on the non-U.S. DPS of smalltooth sawfish, particularly information on the status, threats, and recovery of the species, that has become available since it was listed in 2015.

DATES: To allow us adequate time to conduct this review, we must receive your information no later than July 8, 2024.

ADDRESSES: You may submit information on this document, identified by NOAA-NMFS-2024-0062, by the following method:

- **Electronic Submission:** Submit electronic information via the Federal e-Rulemaking Portal. Go to <https://www.regulations.gov> and enter NOAA-NMFS-2024-0062 in the Search box. Click on the "Comment" icon, complete the required fields, and enter or attach your comments.

Instructions: Information sent by any other method, to any other address or individual, or received after the end of the specified period, may not be considered by NMFS. All information received is a part of the public record and will generally be posted for public viewing on <https://www.regulations.gov> without change. All personal identifying information (e.g., name, address, etc.), confidential business information, or otherwise sensitive or protected information submitted voluntarily by the sender will be publicly accessible. NMFS will accept anonymous submissions (enter "N/A" in the

required fields if you wish to remain anonymous).

FOR FURTHER INFORMATION CONTACT:

Adrienne Lohe, Office of Protected Resources, (301) 427-8442, Adrienne.Lohe@noaa.gov.

SUPPLEMENTARY INFORMATION: This notice announces our review of the non-U.S. DPS of smalltooth sawfish (*Pristis pectinata*) listed as endangered under the ESA. Section 4(c)(2)(A) of the ESA requires that we conduct a review of listed species at least once every 5 years. This will be the first review of this species since it was listed in 2015 under the ESA (79 FR 73977, December 12, 2014). The regulations in 50 CFR 424.21 require that we publish a notice in the **Federal Register** announcing species currently under active review. On the basis of such reviews under section 4(c)(2)(B), we determine whether any species should be removed from the list (i.e., delisted) or reclassified from endangered to threatened or from threatened to endangered (16 U.S.C. 1533(c)(2)(B)). As described by the regulations in 50 CFR 424.11(e), a species will be delisted if the Secretary determines, based on consideration of the factors and standards set forth in 50 CFR 424.11(c), that the best scientific and commercial data available substantiate that: (1) the species is extinct; (2) the species has recovered to the point at which it no longer meets the definition of an endangered species or a threatened species; (3) new information that has become available since the original listing decision shows the listed entity does not meet the definition of an endangered species or a threatened species; or (4) new information that has become available since the original listing decision shows the listed entity does not meet the definition of a species. Any change in Federal classification would require a separate rulemaking process.

Background information on the species is available on the NMFS website at: <https://www.fisheries.noaa.gov/species/smalltooth-sawfish>.

Public Solicitation of New Information

To ensure that the review is complete and based on the best available scientific and commercial information, we are soliciting new information from the public, governmental agencies, tribes, the scientific community, industry, environmental entities, and any other interested parties concerning the status of the DPS. Categories of requested information include: (1) species biology including, but not limited to, population trends,

distribution, abundance, demographics, and genetics; (2) habitat conditions including, but not limited to, amount, distribution, and important features for conservation; (3) status and trends of threats to the DPS and its habitats; (4) conservation measures that have been implemented that benefit the DPS, including monitoring data demonstrating effectiveness of such measures; and (5) other new information, data, or corrections including, but not limited to, taxonomic or nomenclatural changes and improved analytical methods for evaluating extinction risk.

If you wish to provide information for the review, you may submit your information and materials electronically (see **ADDRESSES** section). We request that all information be accompanied by supporting documentation such as maps, bibliographic references, or reprints of pertinent publications.

Pacific Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The Pacific Fishery Management Council's (Pacific Council) Ad Hoc Ecosystem Workgroup (EWG) will hold an online meeting, which is open to the public.

DATES: The online meeting will be held Friday, May 24, 2024, from 10 a.m. to 2 p.m. or until business for the day is completed.

ADDRESSES: This meeting will be held online. Specific meeting information, including directions on how to join the meeting and system requirements will be provided in the meeting announcement on the Pacific Council's website (see www.pcouncil.org). You may send an email to Mr. Kris Kleinschmidt (kris.kleinschmidt@noaa.gov) or contact him at (503) 820-2412 for technical assistance.

Council address: Pacific Fishery Management Council, 7700 NE Ambassador Place, Suite 101, Portland, OR 97220-1384.

FOR FURTHER INFORMATION CONTACT: Kit Dahl, Staff Officer, Pacific Council; telephone: (503) 820-2422.

SUPPLEMENTARY INFORMATION: During this meeting the EWG will (1) review progress on Fishery Ecosystem Plan Initiative 4 and (2) discuss the contents of reports on agenda items for the June 2024 Pacific Council meeting.

In March 2024, the Pacific Council provided guidance on the further development of risk assessment methodologies, as part of Initiative 4, to bring climate and ecosystem information into harvest specification processes. Proposed methodologies will be reviewed by the Scientific and Statistical Committee Ecosystem-Based Management Subcommittee on August 5, 2024, and considered by the Pacific Council at its September 2024 meeting.

At its June meeting, the Pacific Council will discuss and provide guidance on potential changes to Council operations. The EWG may provide recommendations on recommended changes and other agenda topics, as appropriate. Other matters related to the work of the EWG may also be discussed.

Although non-emergency issues not contained in the meeting agenda may be discussed, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this document and any issues arising after publication of this document that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

Requests for sign language interpretation or other auxiliary aids should be directed to Mr. Kris Kleinschmidt (kris.kleinschmidt@noaa.gov; (503) 820-2412) at least 10 days prior to the meeting date.
