

called “AISL-Annual Inquiry Service List.”⁸

Interested parties who wish to be added to the annual inquiry service list for an order must submit an entry of appearance in the annual inquiry service list segment in ACCESS for the order within 30 days after the date of publication of the order in the **Federal Register**. For ease of administration, Commerce requests that a law firm with more than one attorney representing an interested party in an order designate a lead attorney to be included on the annual inquiry service list. Commerce will finalize the annual inquiry service list within five business days thereafter. As mentioned in the *Procedural Guidance*, the new annual inquiry service list will be in place until the following year, when the *Opportunity Notice* for the anniversary month of the order is published in the **Federal Register**.

Commerce may update an annual inquiry service list at any time, as needed, based on interested parties’ amendments to their entries of appearance to remove, or otherwise modify, their list of members and representatives, or to update contact information. Changes or announcements pertaining to these procedures will be posted to the ACCESS website at <https://access.trade.gov>.

Special Instructions for Petitioners and Foreign Governments

In the *Final Rule*, Commerce stated that, “after an initial request and placement on the annual inquiry service list, both petitioners and foreign governments will automatically be placed on the annual inquiry service list in the years that follow.”⁹ Accordingly, as stated above, the petitioners and foreign governments should submit their initial entry of appearance after publication of this notice in the **Federal Register** in order to appear in the first annual inquiry service list for those orders for which they qualify as an interested party. Pursuant to 19 CFR 351.225(n)(3), the petitioners and foreign governments will not need to resubmit their entries of appearance

⁸ This segment will be combined with the ACCESS Segment Specific Information (SSI) field which will display the month in which the notice of the order or suspended investigation was published in the **Federal Register**, also known as the anniversary month. For example, for an order under case number A-000-000 that was published in the **Federal Register** in January, the relevant segment and SSI combination will appear in ACCESS as “AISL-January Anniversary.” Note that there will be only one annual inquiry service list segment per case number, and the anniversary month will be pre-populated in ACCESS.

⁹ See *Final Rule*, 86 FR 52335.

each year to continue to be included on the annual inquiry service list. However, the petitioners and foreign governments are responsible for making amendments to their entries of appearance during the annual update to the annual inquiry service list in accordance with the procedures described above.

SUPPLEMENTARY INFORMATION:

I. Abstract

NMFS proposes to extend the information collection under OMB Control Number 0648–0358 without change. The NMFS Southeast Region

manages domestic fisheries in the U.S. exclusive economic zone of the Caribbean, Gulf of Mexico, and South Atlantic regions under multiple fishery management plans (FMPs). The regional fishery management councils prepared the FMPs pursuant to the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act). NMFS implements the FMPs through regulations located at 50 CFR part 622.

The regulations located at 50 CFR part 622 form the basis for the information collection requirements that are currently approved under OMB Control Number 0648–0358, Southeast Region Vessel and Gear Identification Requirements. NMFS has no immediate plans to change identification requirements for fishing vessels or gear in 50 CFR part 622.

Regulations at 50 CFR part 622 require that all federally permitted fishing vessels must be marked with some form of identification. A vessel’s official number, under most regulations, must be displayed on the port and starboard sides of the deckhouse or hull, and on the weather deck. In addition, regulations for certain fisheries also require the display of the assigned color code for the vessel. The official number and color code identify each vessel and
