SUPPLEMENTARY INFORMATION:

I. Background

BLM maintains the INTERIOR/BLM–16, Timber Sale Information System (TSIS), system of records to support the management and tracking of forest resources, including timber sale, accounting, management, and activity tracking; stewardship contract management and activity; and special consolidated reporting. Each of these modules provide direct support to the BLM mission goals related to managing the use of forest and woodland products in the Public Domain (PD) and in the Oregon and California Grant Lands (O&C).

DOI is publishing this revised notice to change the system name from INTERIOR/BLM–16, Timber Sale Information System (TSIS), to INTERIOR/BLM–16, Forest Resources Information System (FRIS), to provide organizational clarification for the overall forest resources program. DOI is also adding a new purpose section to describe the primary purpose of FRIS; updating the system location to reflect a move to a DOI data center and the cloud environment; updating the system manager section, authorities for maintenance of the system, and the records source categories section to provide additional clarification on individual sources of information; updating the policies and practices for retention of records section to clarify the records retention schedule; updating safeguards to protect records; and providing an updated description on the retrieval of records. DOI is further expanding the categories of individuals to provide clarification on the individuals covered by the system and the categories of records to reflect

additional types of records that are maintained in the system; and updating the records access, contesting record, and notification procedures to provide guidance on how individuals may submit requests under the Privacy Act. This notice also reorganizes the sections and updates section titles in accordance with OMB Circular A–108, *Federal Agency Responsibilities for Review, Reporting, and Publication under the Privacy Act*.

The existing routine uses are being updated from a numeric to alphabetic list and are being modified to provide clarity and transparency and reflect updates consistent with standard DOI routine uses. Additionally, DOI is proposing new routine uses to facilitate sharing of information with agencies and organizations to promote the integrity of the records in the system or carry out a statutory responsibility of the DOI or Federal government.

Routine use A was slightly modified to further clarify disclosures to the Department of Justice (DOJ) or other Federal agencies, when necessary, in relation to litigation or judicial hearings. Routine use B was modified to clarify disclosures to a congressional office to respond to or resolve an individual's request made to that office. Routine use H was slightly modified to include sharing of information with territorial government agencies in response to court orders or for discovery purposes related to litigation. Routine use I was modified to include grantees and shared service providers to facilitate sharing of information when authorized and necessary to perform services on DOI's behalf. Modified routine use J allows DOI and BLM to share information with appropriate Federal agencies or entities when reasonably necessary to respond to a breach of PII and to prevent, minimize, or remedy the risk of harm to individuals or the Federal government in accordance with OMB Memorandum M–17–12, *Preparing for and Responding to a Breach of Personally Identifiable Information*. Routine use N was modified to clarify sharing with the news media and the public where there is a legitimate public interest or in support of a legitimate law enforcement or public safety function.

Proposed routine use C facilitates sharing of information with the Executive Office of the President to resolve issues concerning individuals' records. BLM is removing the former routine use 13 for disclosure to consumer reporting agencies and has included that notice at the end of this section.

Pursuant to the Privacy Act, 5 U.S.C. 552a(b)(12), DOI may disclose

information from this system to consumer reporting agencies as defined in the Fair Credit Reporting Act (15 U.S.C. 1681a(f)) or the Federal Claims Collection Act of 1966 (31 U.S.C. 3701(a)(3)) to aid in the collection of outstanding debts owed to the Federal Government.

II. Privacy Act

The Privacy Act of 1974, as amended, embodies fair information practice principles in a statutory framework governing how Federal agencies collect, maintain, use, and disseminate individuals' records. The Privacy Act applies to records about individuals that are maintained in a "system of records." A "system of records" is a group of any records under the control of an agency from which information is retrieved by the name of an individual or by some identifying number, symbol, or other identifying information assigned to the individual. The Privacy Act defines an individual as a United States citizen or lawful permanent resident. Individuals may request access to their own records that are maintained in a system of records in the possession or under the control of DOI by complying with DOI Privacy Act regulations at 43 CFR part 2, subpart K, and following the procedures outlined in the Records Access, Contesting Record, and Notification Procedures sections of this notice.

The Privacy Act requires each agency to publish in the **Federal Register** a description denoting the existence and character of each system of records that the agency maintains, and the routine uses of each system. The INTERIOR/BLM-16, Forest Resources Information System (FRIS), SORN is published in its entirety below. In accordance with 5 U.S.C. 552a(r), DOI has provided a report of this system of records to the OMB and to Congress.

III. Public Participation

You should be aware your entire comment including your personally identifiable information, such as your address, phone number, email address, or any other personal information in your comment, may be made publicly available at any time. While you may request to withhold your personally identifiable information from public review, we cannot guarantee we will be able to do so.

DATES: Repatriation of the cultural items in this notice may occur on or after June 10, 2024.

ADDRESSES: Dr. Mark Wheeler, Senior Advisor to President Luke Wood, California State University, Sacramento, 6000 J Street Sacramento, CA 95819, telephone (916) 460-0490, email mark.wheeler@csus.edu.

Abstract of Information Available

A total of 311 cultural items have been requested for repatriation.

In 1964-71, Stephen Humphreys, a student at Sacramento State College, conducted extensive surveys and excavations in the region between Oroville and Paradise in Butte County, California. Humphreys surfaced collected from CA-BUT-60 (Vine Rockshelter), BUT-61 (Bow Shaft Rockshelter), BUT-303 (Gold Flat #1), and BUT-304 (Gold Flat #2). The 15 objects of cultural patrimony from BUT-60 are flaked stone tools and a steatite vessel. The three sacred objects are perishable botanical remains. The 69 objects of cultural patrimony from CA-BUT-61 are flaked and modified stone objects; the 53 sacred objects are pigment, worked wood and bone objects, glass and shell beads, crystals, and animal remains. The 171 objects of cultural patrimony from BUT-303/304 are modified stone, ground stone, flaked stone, unmodified stone, and animal remains. An unknown number of objects may be missing from the collection, and California State University, Sacramento continues to look for them.

Determinations

The California State University, Sacramento has determined that:

- The 56 sacred objects described in this notice are specific ceremonial objects needed by a traditional Native American religious leader for present-day adherents to practice traditional Native American religion, according to the Native American traditional knowledge of a lineal descendant, Indian Tribe, or Native Hawaiian organization.
- The 255 objects of cultural patrimony described in this notice have ongoing historical, traditional, or cultural importance central to the Native American group, including any constituent sub-group (such as a band, clan, lineage, ceremonial society, or other subdivision), according to the Native American traditional knowledge of an Indian Tribe or Native Hawaiian organization.
- There is a reasonable connection between the cultural items described in this notice and the Mechoopda Indian Tribe of Chico Rancheria, California.

Requests for Repatriation

Additional, written requests for repatriation of the cultural items in this
