BILLING CODE 6760–01–P

GENERAL SERVICES ADMINISTRATION

[Notice–IEB–2024–02; Docket No. 2024–0002; Sequence No. 20]

Privacy Act of 1974; System of Records

AGENCY: Office of IEB; General Services Administration (GSA).

ACTION: Notice of a modified system of records.

SUMMARY: Pursuant to the provisions of the Privacy Act of 1974, notice is given that the General Services Administration (GSA) proposes to modify an existing system of records, entitled *Login.gov* (GSA/TTS–1). GSA maintains this system of records to provide a secure sign-in service with the capability to authenticate and identify proof users before the user is granted access to participating government websites or applications.

DATES: Submit comments on or before June 12, 2024. Routine use “f.” will be effective June 12, 2024.

ADDRESSES: Comments may be submitted to the Federal eRulemaking Portal, <http://www.regulations.gov>. Submit comments by searching for GSA/TTS–1.

FOR FURTHER INFORMATION CONTACT: Call or email Richard Speidel, Chief Privacy Officer at 202–969–5830 and gsa.privacyact@gsa.gov.

SUPPLEMENTARY INFORMATION: GSA proposes to modify a system of records subject to the Privacy Act of 1974, 5 U.S.C. 552a. GSA is modifying the categories of records in the system, routine uses of records maintained in the system, and the policies and practices for retention and disposal of records. This modification is intended to revise and replace all notices previously describing this system of records.

GSA is also making technical changes to GSA/TTS–1 consistent with OMB Circular No. A–108. Accordingly, GSA has made technical corrections and non-substantive language revisions to the “Policies and Practices for Storage of Records” and “Contesting Record Procedures” sections.

SYSTEM NAME AND NUMBER:

Login.gov, GSA/TTS–1

SECURITY CLASSIFICATION:

Unclassified

SYSTEM LOCATION:

General Services Administration owns Login.gov, which is housed in secure data centers in the continental United States. Contact the System Manager listed below for additional information.

SYSTEM MANAGER(S):

Daniel Lopez-Braus, Director, *Login.gov*, TTS, Office of Solutions, General Services Administration, 1800 F Street NW, Washington, DC 20405. <https://www.login.gov>.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

E-Government Act of 2002 (Pub. L. 107–347, 44 U.S.C. 3501 note), 6 U.S.C. 1523 (b)(1)(A)–(E), and 40 U.S.C. 501.

PURPOSE(S) OF THE SYSTEM:

The purposes of the system are:

- to provide a secure sign-in service with the capability to authenticate and identify proof users before the user is granted access to participating government websites or applications;
- to prevent fraud and to protect the integrity of the *Login.gov* system; and
- to conduct studies into enhancements to the secure sign-in service, including demographic studies of the equitable performance of new technologies.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals covered by this system of records include members of the public seeking electronic access to a website or application from a Federal, State, or local agency that has integrated with *Login.gov* (“partner agency”) and participants in studies commissioned by GSA to evaluate equitable performance of new identity verification and fraud prevention technologies.

CATEGORIES OF RECORDS IN THE SYSTEM:

The system contains information provided by individuals who create and use *Login.gov* accounts. There are two types of accounts in the *Login.gov* system: records related to the process of authenticating a *Login.gov* user’s account, and records related to the process in which an individual’s identity is verified.

For accounts for which *Login.gov* is authenticating the user, the system collects and mai

- email address,
- password,
- and phone number (optionally).ntains:

For remote (but not in-person) verification of accounts that require a verified identity, the system collects the following after each identity proofing transaction:

- photographs of their government-issued ID, to include all personal information and images on the ID; and
- a self-photograph of the user.

ID card images and data collected from government-issued IDs are assessed to determine the document’s authenticity as part of the identity verification process. Self-photographs of the user are only collected when partner agencies require verification by biometric comparison, a process that involves comparing the user’s self-photograph to the portrait on their government-issued ID.

For all accounts that require a verified identity, the system collects and maintains:

- Social Security Number (SSN); and
 - phone number or postal address.
- Each third-party identity proofing service will send information back to *Login.gov* about its attempt to identify proof the user, including:
- Transaction ID;
 - pass/fail indicator;
 - date/time of transaction; and
 - status codes associated with the transaction data.

Each partner agency whose services the user accesses via *Login.gov* may add its own unique identifier to that user’s account information.

To protect the public and the integrity of the system, *Login.gov* needs to detect and prevent fraud while providing redress to users who were unable to complete identity verification. To that end, *Login.gov* will also obtain a collection of information about the device (a “Device ID”) including, for example browser type and internet protocol (IP) address, and usage patterns (e.g., keyboard, mouse, or touchscreen behavior) used to access their *Login.gov* account. The Device ID and usage patterns are assessed by a third-party fraud prevention service along with the other information collected by *Login.gov*. The third-party fraud prevention services provide *Login.gov* risk scores for all of the information assessed, and also provide other identifying attributes that have been associated with that same Device ID in the past. Those identifying attributes include, but are not limited to, names, addresses, phone numbers, and SSNs that have been associated with the Device ID.

Separate from *Login.gov*’s active sign-on service, GSA may also conduct studies in which it temporarily collects information from voluntary participants
