SUPPLEMENTARY INFORMATION: The National Longitudinal Survey of Youth 1979 (NLSY79) is a representative national sample of persons who were born in the years 1957 to 1964 and lived in the U.S. in 1979. The BLS contributes to this goal by gathering information about the labor force and labor market and disseminating it to policymakers and the public so that participants in those markets can make more informed, and thus more efficient, choices. Research based on the NLSY79 contributes to the formation of national policy in the areas of education, training, employment programs, and school-to-work transitions.
