DEPARTMENT OF LABOR

Agency Information Collection Activities; Submission for OMB Review; Comment Request; Powered Industrial Trucks Standard

ACTION: Notice of availability; request for comments.

SUMMARY: The Department of Labor (DOL) is submitting this Occupational Safety & Health Administration (OSHA)-sponsored information collection request (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 (PRA). Public comments on the ICR are invited.

DATES: The OMB will consider all written comments that the agency receives on or before June 17, 2024.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT: Nicole Bouchet by telephone at 202–693–0213, or by email at DOL_PRA_PUBLIC@dol.gov.

SUPPLEMENTARY INFORMATION: The Powered Industrial Trucks Standard contains several information collection requirements addressing truck design, construction, and modification, as well as certification of training and evaluation for truck operators. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on February 23, 2024 (89 FR 13752).

Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (2) the accuracy of the agency’s estimates of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6.

DEPARTMENT OF LABOR

Agency Information Collection Activities; Submission for OMB Review; Cognitive and Psychological Research

ACTION: Notice of availability; request for comments.

SUMMARY: The Department of Labor (DOL) is submitting this Bureau of Labor Statistics (BLS)-sponsored information collection request (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 (PRA). Public comments on the ICR are invited.

DATES: The OMB will consider all written comments that the agency receives on or before June 17, 2024.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. FOR FURTHER INFORMATION CONTACT:

Nicole Bouchet by telephone at 202–693–0213, or by email at DOL_PRA_PUBLIC@dol.gov.

SUPPLEMENTARY INFORMATION: The Bureau of Labor Statistics’ Behavioral Science Research Center (BSRC) conducts psychological research focusing on the design and execution of the data collection process in order to improve the quality of data collected by the Bureau. The BSRC conducts

research aimed at improving data collection quality by assessing questionnaire/form management and administration, as well as issues which relate to interviewer training and interaction with respondents in the interview process. BSRC staff work closely with economists and/or program specialists responsible for defining the concepts to be measured by the Bureau of Labor Statistics' collection programs. The proposed laboratory research will be conducted from Fiscal Year (FY) 2024 through FY 2027 to enhance data quality in the Bureau of Labor Statistics' surveys. Improvements will be made by examining psychological and cognitive aspects of BLS's data collection procedures, including questionnaire design, interviewing procedures, collection modalities, and administrative technology. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on December 14, 2023 (88 FRN 86681).

NATIONAL SCIENCE FOUNDATION

Agency Information Collection Activities: Comment Request

AGENCY: National Science Foundation.

ACTION: Submission for OMB review; comment request.

SUMMARY: The National Science Foundation (NSF) has submitted the following information collection requirement to OMB for review and clearance under the Paperwork Reduction Act of 1995. This is the second notice for public comment; the first was published in the **Federal Register**, and no comments were received. NSF is forwarding the proposed submission to the Office of Management and Budget (OMB) for clearance simultaneously with the publication of this second notice.

DATES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT: Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 2415 Eisenhower Avenue, Alexandria, VA 22314, or send email to splimpto@nsf.gov, or by telephone to 703–292–7556. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8339, which is accessible 24 hours a day, 7 days a week, 365 days a year (including Federal holidays).

SUPPLEMENTARY INFORMATION: NSF may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Comments regarding (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of

information technology should be addressed to the points of contact in the **FOR FURTHER INFORMATION CONTACT** section. Request for public comment was previously published March 13, 2024 at 89 FR 18442.

Title of Collection: Grantee Reporting Requirements for NSF SBIR/STTR Program.

OMB Number: 3145–0252.

Type of Request: Reinstatement and request for Office of Management and Budget (OMB) approval of an information collection.

Abstract:

Proposed Project:

This request is for reinstating interim reporting requirements for the NSF Small Business Innovation Research (SBIR)/Small Business Technology Transfer Research (STTR) programs.

The NSF SBIR/STTR programs focus on transforming scientific discovery into products and services with commercial potential and/or societal benefit. Unlike fundamental or basic research activities that focus on scientific and engineering discoveries, the NSF SBIR/STTR programs support the creation of opportunities to move fundamental science and engineering out of the lab and into the market at scale, through startups and small businesses representing deep technology ventures.

The NSF SBIR/STTR programs have two phases: Phase I and Phase II (with an optional Phase IIB as matching supplements). SBIR/STTR Phase I is a 6–12 month experimental or theoretical investigation that allows the awardees to determine the scientific and technical feasibility, as well as the commercial merit of the idea or concept. Phase II further develops the proposed concept, building on the feasibility project undertaken in Phase I, and accelerate the Phase I project to the commercialization stage and enhance the overall strength of the commercial potential. As such, Phase II SBIR/STTR awards have a longer expected period of performance of 24 months.

The NSF SBIR/STTR programs request approval from OMB on the reinstatement of the NSF SBIR/STTR Phase II interim/progress report data collection.

The interim/progress report will be required every six months for the life of the Phase II award. The report collects information on the technical progress of the funded NSF work, which allows managing Program Directors to monitor the project and ensure that the award is in good standing.

The report is divided into 6 sections: (1) Basic Reporting Data, (2) Level of Effort, (3) SBIR-wide Certifications, (4) Cooperative Agreement (NSF-specific
