II. Legal Basis

FMCSA has authority under 49 U.S.C. 31136(e) and 31315(b) to grant exemptions from Federal Motor Carrier Safety Regulations (FMCSRs). FMCSA must publish a notice of each exemption request in the **Federal Register** (49 CFR 381.315(a)). The Agency must provide the public an opportunity to inspect the information relevant to the application, including the applicant’s safety analyses. The Agency must provide an opportunity for public comment on the request.

The Agency reviews safety analyses and public comments submitted and determines whether granting the exemption would likely maintain a level of safety equivalent to, or greater than, the level that would be achieved by the current regulation (49 CFR 381.305(a)). The Agency must publish its decision in the **Federal Register** (49 CFR 381.315(b)). If granted, the notice will identify the regulatory provision(s) from which the applicant will be exempt, the effective period, and all terms and conditions of the exemption (49 CFR 381.315(c)(1)). If the exemption is denied, the notice will explain the reasons for the denial (49 CFR 381.315(c)(2)).

III. Applicant’s Request

CHS seeks an exemption from 49 CFR 383.25(a)(4), which requires a CLP holder to be 18 years of age or older. CHS explains that it is a public high school located in Connell, WA, serving over 600 students in the 9th through 12th grades. CHS further states that its enrollment is 70% minority and 70% economically disadvantaged students. According to CHS, the school district serves a primarily agricultural community across four small rural towns, with a decreasing workforce but with an increasing agriculture and transportation demand.

CHS believes that granting the exemption will allow students to obtain a CDL at 18 years of age and, upon graduation from CHS, immediately enter the local workforce with stable, well-paying employment. CHS also believes that the exemption could have a positive impact on the local communities and alleviate the current commercial driver shortage. The applicant states that a similar program exists in the state of Maine and is

offered by public institutions and allows students as young as 16 years of age to obtain a CLP. CHS believes its robust CDL preparatory program will ensure CHS achieves a level of safety that is equivalent to, or greater than, the level of safety that would be obtained by complying with the regulation.

The applicant further states that, if granted, the exemption would allow students participating in the CHS CDL Training Program to obtain a CLP at the age of 17 and allow the program to span two semesters (one full school year) and provide 180 hours of classroom, field, and drive time instruction. CHS requests a five-year exemption.

A copy of the CHS's application for exemption is available for review in the docket for this notice.

IV. Request for Comments

In accordance with 49 U.S.C. 31315(b), FMCSA requests public comment from all interested persons on CHS's request for an exemption to change the CLP age requirement from 18 years of age to 17 years of age for CHS students enrolled in its CDL program, beginning in September 2024. All comments received before the close of business on the comment closing date indicated at the beginning of this notice will be considered and will be available for examination in the docket at the location listed under the **ADDRESSES** section of this notice. Comments received after the comment closing date will be filed in the public docket and will be considered to the extent practicable. In addition to late comments, FMCSA will also continue to file, in the public docket, relevant information that becomes available after the comment closing date. Interested persons should continue to examine the public docket for new material.

Larry W. Minor,

Associate Administrator for Policy.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501 *et seq.*), before an agency submits a proposed collection of information to OMB for approval, it must first publish a document in the **Federal Register** providing a 60-day comment period and otherwise consult with members of the public and affected agencies concerning each proposed collection of information. The OMB has promulgated regulations describing what must be included in such a document. Under OMB's regulation (at 5 CFR 1320.8(d)), an agency must ask for public comment on the following: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) how to enhance the quality, utility, and clarity of the information to be collected; and (d) how to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. In compliance with these requirements, NHTSA asks for public comments on the following proposed collection of information for which the agency is seeking approval from OMB.
