SUPPLEMENTARY INFORMATION: This information collection is needed to pay participants and beneficiaries who may be entitled to pension benefits from plans that have terminated. Participants and beneficiaries are asked to provide information in connection with an application for benefits. This includes requests to individuals to provide identifying information so that PBGC may determine whether the individuals are entitled to benefits. All requested information is needed so that PBGC may determine benefit entitlements and make appropriate payments.

This information collection includes My Pension Benefit Account (MyPBA), an application on PBGC's website, www.pbgc.gov, through which plan participants and beneficiaries may conduct electronic transactions with PBGC, including applying for pension benefits, designating a beneficiary, changing contact information, and applying for or changing electronic direct deposit.

PBGC is proposing the addition of two new forms: Form 713RBD, and Form 714RBD. Form 713RBD and Form 714RBD relate to elections to withdraw employee contributions for participants and beneficiaries who are at or beyond their Required Beginning Dates. PBGC is proposing to remove Form 718, "Installment Payment Agreement," because PBGC no longer administers installment agreements for benefit overpayments. PBGC is proposing to remove Form 719 for electing or changing tax withholding from annuity benefit payments since participants are using Internal Revenue Service (IRS) Form W-4P, "Withholding Certificate for Periodic Pension or Annuity Payments." PBGC is also making other clarifying, editorial, and formatting changes.

The existing collection of information was approved through August 31, 2024, under OMB control number 1212-0055. On February 8, 2024, PBGC published in the **Federal Register** (at 89 FR 8725) a notice informing the public of its intent to request an extension of this collection of information. No comments

were received. PBGC is requesting that OMB extend its approval (with modifications) for three years. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

PBGC estimates that it will receive a combined 136,081 benefit applications and information forms annually. The total annual burden associated with this collection of information is estimated to be 101,703 hours and an estimated \$60,742 (the estimated cost of notary services for signatures (including spousal consents) required on applicable forms).

Issued in Washington, DC.

Deputy Assistant General Counsel for Regulatory Affairs, Pension Benefit Guaranty Corporation.

I. Introduction

The Commission gives notice that the Postal Service filed request(s) for the

Commission to consider matters related to negotiated service agreement(s). The request(s) may propose the addition or removal of a negotiated service agreement from the Market Dominant or the Competitive product list, or the modification of an existing product currently appearing on the Market Dominant or the Competitive product list.

Section II identifies the docket number(s) associated with each Postal Service request, the title of each Postal Service request, the request's acceptance date, and the authority cited by the Postal Service for each request. For each request, the Commission appoints an officer of the Commission to represent the interests of the general public in the proceeding, pursuant to 39 U.S.C. 505 (Public Representative). Section II also establishes comment deadline(s) pertaining to each request.

The public portions of the Postal Service's request(s) can be accessed via the Commission's website (<http://www.prc.gov>). Non-public portions of the Postal Service's request(s), if any, can be accessed through compliance with the requirements of 39 CFR 3011.301.¹

The Commission invites comments on whether the Postal Service's request(s) in the captioned docket(s) are consistent with the policies of title 39. For request(s) that the Postal Service states concern Market Dominant product(s), applicable statutory and regulatory requirements include 39 U.S.C. 3622, 39 U.S.C. 3642, 39 CFR part 3030, and 39 CFR part 3040, subpart B. For request(s) that the Postal Service states concern Competitive product(s), applicable statutory and regulatory requirements include 39 U.S.C. 3632, 39 U.S.C. 3633, 39 U.S.C. 3642, 39 CFR part 3035, and 39 CFR part 3040, subpart B. Comment deadline(s) for each request appear in section II.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–100143; File No. SR–NYSEAMER–2024–28]

Self-Regulatory Organizations; NYSE American LLC; Notice of Filing and Immediate Effectiveness of Proposed Change To Amend the Connectivity Fee Schedule

May 14, 2024.

Pursuant to Section 19(b)(1)¹ of the Securities Exchange Act of 1934

(“Act”)² and Rule 19b–4 thereunder,³ notice is hereby given that, on May 1, 2024, NYSE American LLC (“NYSE American” or the “Exchange”) filed with the Securities and Exchange Commission (the “Commission”) the proposed rule change as described in Items I and II below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend the Connectivity Fee Schedule to add wireless connectivity services that transport market data to Toronto, Canada. The proposed rule change is available on the Exchange’s website at www.nyse.com, at the principal office of the Exchange, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend the Connectivity Fee Schedule to add wireless connectivity services that transport market data to Toronto, Canada.

The Exchange expects that the proposed rule change would become operative no later than June 30, 2024. It will announce the proposed change to all Fixed Income and Data Services (“FIDS”) customers in the TR2 third

party data center in Toronto, Canada (“TR2”).

The Exchange proposes to add market data connections to a selection of symbols of the NYSE Integrated Feed (“NYSE IF”) and to a selection of symbols of the NYSE Arca Integrated Feed (“NYSE Arca IF”) and together with the NYSE IF, the “Integrated Feeds”) in TR2 (“TR2 Market Data Connections”). As is true for the existing market data connections to the Markham, Canada third party access center (such access center, “Markham”, and such connections “Markham Market Data Connections”),⁴ the TR2 Market Data Connections would not include the Integrated Feeds themselves, just the connections to them.

As there would be limited bandwidth available on the wireless network to TR2, the Exchange proposes that, as with the Markham Market Data Connection, the TR2 Market Data Connection would not transport information for all the symbols included in the NYSE IF and NYSE Arca IF. Rather, FIDS would provide connectivity to the same selection of symbols from the Integrated Feeds that it includes in the Markham Market Data Connections, which include those symbols for which there is demand (the “Proposed Market Data”).⁵

The charges for a TR2 Market Data Connection would be the same as for the Markham Market Data Connection: a non-recurring initial charge of \$5,000 and a \$6,500 monthly fee for the service of transporting the Proposed Market Data. The proposal would waive the first month’s MRC, to allow customers to test a new TR2 Market Data Connection for a month before incurring any MRC.

In order to implement the proposed change, the Exchange proposes to add the following items to the Connectivity Fee Schedule under “C. Wireless Connectivity to Market Data”:

customer would then determine the symbols for which it would receive data. The Exchange would not have visibility into which portions of the Proposed Market Data a given customer chooses to receive.
