

manufacturing considerations, standards, best practices, bill of materials, etc.)?” would use that same text as a heading in the public comments followed by the commenter’s specific comments in this area. The Department encourages the use of an Executive Summary at the beginning of all comments and information so it can review the submitted documents more efficiently. All inputs are welcome. Respondents do not need to reply to every question.

#### Requirements for Written Comments

The <http://www.regulations.gov> website allows users to provide comments by filling in a “Type Comment” field, or by attaching a document using an “Upload File” field. The DoD prefers that comments be provided in an attached document. The Department prefers submissions in Microsoft Word (.doc files) or Adobe Acrobat (.pdf files). If the submission is provided in a format other than Microsoft Word or Adobe Acrobat, please indicate the name of the application in the “Type Comment” field. Please do not attach separate cover letters to electronic submissions; rather, include any information that might appear in a cover letter within the comments. Similarly, to the extent possible, please include any exhibits, annexes, or other attachments in the same file, so the submission consists of one file instead of multiple files. Responses must not exceed 12 pages in 12-point or larger font, with a page number provided on each page. Comments will be placed in the docket and open to public inspection. Comments may be viewed on <http://www.regulations.gov> by entering docket number DoD–2024–OS–0058 in the search field on the home page.

All filers should name their files using the name of the person or entity submitting the comments. Responses should include the name of the person(s) or organization(s) filing the comment, as well as the respondent type (e.g., academic institution, advocacy group, professional society, industry, member of the public, government agency, other). Respondent’s role in the organization is also requested to be provided (e.g., researcher, faculty, student, administrator, program manager, journalist) on a voluntary basis. We will not make communications from United States Government agencies available for public inspection.

Anyone submitting business confidential information should clearly identify the business confidential portion at the time of submission, file a

statement justifying nondisclosure and referring to the specific legal authority claimed, and provide a non-confidential version of the submission. The non-confidential version of the submission will be placed in the public file on <http://www.regulations.gov>. For comments submitted electronically containing business confidential information, the file name of the business confidential version should begin with the characters “BC.” Any page containing business confidential information must be clearly marked “BUSINESS CONFIDENTIAL” on the top of that page. The non-confidential version must be clearly marked “PUBLIC.” The file name of the non-confidential version should begin with the character “P.” The “BC” and “P” should be followed by the name of the person or entity submitting the comments or rebuttal comments.

If a public hearing is held in support of this assessment, a separate **Federal Register** notice will be published providing the date and information about the hearing. The Office of the Deputy Assistant Secretary of Defense (Industrial Base Resilience) does not maintain a separate public inspection facility. Requesters should first view the Department’s web page, which can be found at <https://open.defense.gov/> (see “Electronic FOIA” heading). The records related to this assessment are made accessible in accordance with the regulations published in part 4 of title 15 of the Code of Federal Regulations (15 CFR 4.1 through 4.11).

Dated: May 16, 2024.
