Animal and Plant Health Inspection Service

[Docket No. APHIS–2022–0058]

Addition of Aruba, Eritrea, Ethiopia, Hong Kong, Iran, Timor-Leste, and Yemen to the List of Regions Affected by Screwworm

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice.

SUMMARY: We are advising the public that we have added Aruba, Eritrea, Ethiopia, Hong Kong, Iran, Timor-Leste, and Yemen to the Animal and Plant Health Inspection Service (APHIS) list maintained on the APHIS website of regions considered affected with screwworm. We took this action because of the confirmation of screwworm in these regions.

DATES: Aruba, Eritrea, Ethiopia, Hong Kong, Iran, Timor-Leste, and Yemen were added to the list of regions considered affected with screwworm effective June 8, 2022.

FOR FURTHER INFORMATION CONTACT: Dr. Ingrid Kotowski, APHIS Veterinary Services, Regionalization Evaluation Services, 920 Main Campus Drive, Suite 200, Raleigh, NC 27606; telephone: (919) 855–7732; email: AskRegionalization@usda.gov.

SUPPLEMENTARY INFORMATION: The regulations in 9 CFR part 93 (referred to below as the regulations) prohibit or restrict the importation of certain animals into the United States to prevent the introduction of communicable diseases and pests of livestock. Subparts C, D, E, and F of the regulations govern the importation of horses, ruminants, swine, and dogs, respectively.

Horses, ruminants, swine, and dogs may be imported into the United States from the regions where screwworm is

considered to exist only if they are inspected and, if necessary, treated for screwworm according to the conditions outlined in the regulations for each type of animal. The requirements for horses are set out in § 93.308(a)(3) and include not only pre-embarkation and post-arrival inspection and treatment requirements, but also quarantine in the United States for 7 days after arrival, and examination by a veterinarian before release from quarantine. The requirements for ruminants and swine are set out in §§ 93.405(a)(3) and 93.505(b) and are the same as for horses, other than the 7-day quarantine and final examination of the animal. The requirements for dogs are set out in § 93.600 and require that all dogs from affected regions be inspected and, if necessary, treated before importation.

The Animal and Plant Health Inspection Service (APHIS) maintains a list of regions APHIS considers affected with screwworm on its website at <https://www.aphis.usda.gov/aphis/ourfocus/animalhealth/animal-and-animal-product-import-information/animal-health-status-of-regions/>. APHIS will add a region to the list upon determining that screwworm exists in the region based on reports we receive of detections of the pest from veterinary officials of the exporting country, from the World Organization for Animal Health (WOAH), or from other sources the Administrator determines to be reliable.

Screwworm is reported on the WOAH website as having occurred in Aruba, Eritrea, Ethiopia, Hong Kong, Iran, Timor-Leste, and Yemen in at least one biannual WOAH reporting period since at least 2005, and APHIS has not confirmed that screwworm was subsequently eradicated from any of these regions. Accordingly, on June 8, 2022, APHIS added Aruba, Eritrea, Ethiopia, Hong Kong, Iran, Timor-Leste, and Yemen to the list of regions APHIS considers affected with screwworm. As a result, horses, ruminants, swine, and dogs from these regions are subject to APHIS import restrictions designed to mitigate risk of screwworm introduction into the United States.

Authority: 7 U.S.C. 1622 and 8301–8317; 21 U.S.C. 136 and 136a; 31 U.S.C. 9701; 7 CFR 2.22, 2.80, and 371.4.

Done in Washington, DC, this 17th day of May 2024.

Michael Watson,

Administrator, Animal and Plant Health Inspection Service.

Food Safety and Inspection Service

[Docket No. FSIS–2020–0030]

Availability of FSIS Guideline To Assist With the Donation of Eligible Meat, Poultry and Egg Products to Non-Profit Organizations

AGENCY: Food Safety and Inspection Service (FSIS), U.S. Department of Agriculture (USDA).

ACTION: Notice of availability and response to comments.

SUMMARY: On December 21, 2020, FSIS published and requested comments on a guideline addressing the donation of meat and poultry products from official establishments to non-profit organizations. FSIS is announcing updates to this guideline and responding to comments received on the previous version of the guideline.

ADDRESSES: A downloadable version of the guideline is available to view and print at <https://www.fsis.usda.gov/policy/fsis-guidelines>.

FOR FURTHER INFORMATION CONTACT: Rachel Edelstein, Assistant Administrator, Office of Policy and Program Development by telephone at (202) 205–0495.

SUPPLEMENTARY INFORMATION:

Background

On December 21, 2020, FSIS announced in the **Federal Register** the availability of the *FSIS Guideline to Assist with the Donation of Eligible Meat and Poultry Products to Non-Profit Organizations* (85 FR 83029). FSIS published the guideline to address food donation questions from meat and poultry establishments and non-profit organizations. The guideline explained inspection, labeling, shipping requirements, and exemptions. FSIS requested comments on the guideline.

After review and consideration of all comments, FSIS has made changes to and clarified certain aspects of the
