SUPPLEMENTARY INFORMATION:

Background

The DLT program is authorized under 7 U.S.C. 950aaa and implemented by 7 CFR part 1734. Applicants must adhere to the requirements contained in the program regulation, 7 CFR 1734. Important terms related to the program are identified in 7 CFR 1734.3.

The purpose of the DLT grant program is to encourage and improve telemedicine services and distance learning services in rural areas through the use of telecommunications, computer networks, and related advanced technologies by students, teachers, medical professionals, and rural residents. These grants are intended to increase rural access to education, training, and health care resources that are otherwise unavailable or limited in scope. The DLT program

is currently a grant only program and the grant funds are awarded through a nationally competitive process.
