Sexual assault, sexual harassment, and gender discrimination remain a major concern across the DoD and for members of Congress. In February 2004, the Under Secretary of Defense for Personnel and Readiness (USD(P&R)) testified before the Senate Armed Services Committee on the prevalence of sexual assault in the DoD and the programs and policies planned to address the issues. In accordance with legislative requirements, the USD(P&R) issued memoranda to the Services that provides DoD policy guidance on sexual assault that included a new standard definition, response capability, training requirements, response actions, and reporting guidance throughout the Department. The Sexual Assault and Prevention Response Office supported implementation of the new policy and requires data to assess the prevalence of sexual assault in the Department and the effectiveness of the programs they have implemented.

The WGR surveys will assess the attitudes and opinions of military members on issues relating to sexual harassment, gender discrimination, and sexual assault, as well as the culture and climate of the units/organizations in which individuals serve. It will provide the policy offices of the USD(P&R) with current data on (1) the positive and negative trends for professional and personal relationships between Service members; (2) the specific types of assault that have occurred and the number of times in the preceding year; (3) the effectiveness of DoD policies designed to improve professional relationships between male and female Service members; (4) the effectiveness of current processes for complaints, reports, and investigations; and, (5) specific issues related to sexual harassment, sexual assault, and gender discrimination that may inform the Department's prevention and response efforts.
