SUPPLEMENTARY INFORMATION:

Title: Risk-Based Asset Management Plans.

Background: Under 23 U.S.C. 119(e) and implementing regulations at 23 CFR part 515, State Departments of Transportation (DOT) are required to develop Risked-Based Asset Management Plans (AMP) for the National Highway System (NHS) to improve or preserve the condition of the assets on and the performance of the NHS. Each State DOT must also annually demonstrate to FHWA that it has implemented an AMP that meets the requirements of 23 U.S.C. 119(e) and 23 CFR part 515 (23 CFR 515.13(b)(2)), and each State DOT must submit its processes for the development of its AMP to FHWA for certification and recertification every four years following the year of initial certification (23 U.S.C. 119(e)(6)). Section 11105(3) of the Bipartisan Infrastructure Law (BIL) (Pub. L. 117-58) added the requirement in 23 U.S.C. 119(e)(4)(D) that risk management and lifecycle cost analyses in AMPs discuss extreme weather and resilience.

Respondents: There are 52 State Departments of Transportation (State DOT) that are required to submit information (State DOTs).¹ Of these, 17

¹ The District of Columbia and Puerto Rico are considered States for the purposes of the Federal-aid highway program. See 23 U.S.C. 101(a)(28).

State DOTs already conduct extreme weather and resilience analyses.

Frequency: Annually (to demonstrate implementation of an AMP) and every 4 years (when submitting processes for the development of an AMP for recertification).

Estimated Average Burden per Response: Per State DOT, the estimated annual burden is 884 hours for the general AMP preparation, plus an additional 1,560 burden hours per State DOT that does not already perform extreme weather and resilience analyses.

Estimated Total Annual Burden Hours: Total estimated average annual burden is 100,568 hours.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for the FHWA's performance; (2) the accuracy of the estimated burdens; (3) ways for the FHWA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized, including the use of electronic technology, without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. chapter 35, as amended; and 49 CFR 1.48.

Issued on May 24, 2024.

Jazmyne Lewis,

Information Collection Officer.
