**Notice of Intent To Exempt Copayments for the First Three Mental Health Care Outpatient Visits Annually**

**AGENCY:** Department of Veterans Affairs.

**ACTION:** Notice.

**SUMMARY:** VA intends to implement a new law that prohibits the collection of copayments for the first three mental health care outpatient visits of a Veteran in a calendar year for which the Veteran would otherwise be required to pay a copayment. VA’s current regulations regarding copayments do not include an exemption for this purpose, but VA will revise them soon to align with the law. In April 2024, VA was able to modify its systems and processes to comply with the law for qualifying appointments that occurred on or after June 27, 2023. By law, the exemption will expire on December 29, 2027.

**DATES:** Implementation will be applicable upon publication in the **Federal Register**.

**FOR FURTHER INFORMATION CONTACT:** Ms. Tamara Wagner, Office of Finance, Revenue Operations, (104RO2), Veterans Health Administration, Department of Veterans Affairs, 128 Bingham Road, Suite 1000, Asheville, NC 28806; 970–242–0731, extension 2219. (This is not a toll-free number.)

**SUPPLEMENTARY INFORMATION:** The primary purpose of this notice is to inform the public of VA’s intent to modify its systems and processes to comply with new statutory requirements while rulemaking proceeds to modify existing regulations. On December 29, 2022, the Joseph Maxwell Cleland and Robert Joseph Dole Memorial Veterans Benefits and Health Care Improvement Act of 2022 (the Act; Pub. L. 117–328, Division U), added a new section 1722C to title 38, U.S.C., that generally prohibits VA from imposing or collecting a copayment for the first three mental health care outpatient visits of a Veteran in a calendar year for which the Veteran would otherwise be required to pay a copayment to VA. The Act defines a

mental health care outpatient visit to mean an outpatient visit with a qualified mental health professional for the primary purpose of seeking either mental health care, or treatment for substance abuse disorder. The copayment exemption for the first three outpatient mental health care visits includes appointments completed in VA clinics as well as those conducted by community care providers.

VA will modify its regulations regarding copayments for outpatient mental health care, set forth at 38 CFR 17.108, to reflect this authority. Mental health care outpatient visits are defined in law to mean an outpatient visit with a qualified mental health professional for the primary purpose of seeking either mental health care or treatment for substance abuse disorder.

The determination of the first three mental health visits is expected to be complex due to a variety of issues, including the need to consider whether care is service-connected or otherwise exempt, how to handle Veterans with multiple appointments in the same day, and administrative requirements (such as establishing a tool to count the number of appointments a Veteran has had in a calendar year). To ensure the most effective application of this benefit and exempt copayments as applicable under the statute, VA will determine if a visit qualifies for a copayment exemption using the following process.

First, VA will evaluate the clinic where the appointment occurred. If the clinic is a mental health, psychiatry, psychology, or substance abuse clinic, VA will exempt the copayment, if applicable, if the appointment is one of the first three qualifying visits in a calendar year. Second, if the visit was not performed in such a clinic, VA will review what provider completed the appointment to determine if the visit applies for a copayment exemption. If the provider is a psychiatrist, psychologist, licensed professional mental health counselor, marriage or family therapist, or social worker, and if the medical service provided is classified as an evaluation and management visit, mental health visit, group therapy visit, or psychiatric diagnostic assessment, VA will exempt the copayment, if applicable, provided the appointment is one of the first three qualifying visits in a calendar year. Veterans that are otherwise copayment exempt based on Priority Group or service connection should see no difference in their copayment status as the copayment would already be exempt for other reasons. If a Veteran has multiple appointments in one day, including a visit that would qualify for
