**Abstract:** This ICR covers the information collection activities associated with the reporting and recordkeeping requirements under section 12(b) of the Toxic Substances Control Act (TSCA) which requires any person who exports or intends to export to a foreign country a chemical substance or mixture for which submission of information is required under TSCA sections 4 or 5(b), or for which a rule, action or order has been proposed or promulgated under TSCA sections 5, 6, or 7, shall notify EPA of such export or intent to export. The Agency must, in turn, notify the government of the importing country of the notice and of EPA's regulatory action with respect to the substance.

In implementing TSCA section 12(b), EPA described the notification requirements applicable to persons exporting chemicals, including frequency of notification, covered chemicals, and content of the notification. See 40 CFR part 707, subpart D. In summary, the export notice must include five easily ascertainable items: (1) The name and address of the exporter; (2) The name of the chemical; (3) The country of import, (4) The date of export or intended export; and (5) The section of TSCA under which EPA has taken action (*i.e.*, TSCA sections 4, 5, 6 or 7). There are currently over 1,000 substances or categories of substances that have been regulated or proposed to be regulated
