of WIOA. The WIAC is a Federal advisory committee of workforce and labor market information experts representing a broad range of national, State, and local data and information users and producers. The WIAC was established in accordance with provisions of the Federal Advisory Committee Act (FACA), as amended (5 U.S.C. app.) and will act in accordance with the applicable provisions of FACA and its implementing regulation at 41 CFR 102-3. The purpose of the WIAC is to provide recommendations to the Secretary of Labor (Secretary), working jointly through the Assistant Secretary for Employment and Training and the Commissioner of Labor Statistics, to address: (1) the evaluation and improvement of the nationwide workforce and labor market information (WLMI) system and statewide systems that comprise the nationwide system; and (2) how the Department and the States will cooperate in the management of those systems. These systems include programs to produce employment-related statistics and State and local workforce and labor market information.

The Department of Labor anticipates the WIAC will accomplish its objectives by: (1) studying workforce and labor market information issues; (2) seeking and sharing information on innovative approaches, new technologies, and data to inform employment, skills training, and workforce and economic development decision making and policy; and (3) advising the Secretary on how the workforce and labor market information system can best support workforce development, planning, and program development. Purpose: The WIAC is continually identifying and reviewing issues and aspects of the WLMI system and statewide systems that comprise the nationwide system and how the Department and the States will cooperate in the management of those systems. As part of this process, the Advisory Council meets to gather information and to engage in deliberative and planning activities to facilitate the development and provision of its recommendations to the Secretary in a timely manner.

Agenda: The agenda topics for the meeting are: (1) Using data more effectively to advance key policy goals; (2) Identifying opportunities for and overcoming barriers to increased data sharing; (3) Improving access to and presentation of data for customers; and (4) Expanding and improving the currency and relevance of data on skills. Additionally, sub-committees will

provide updates on progress toward developing recommendations for the Advisory Council's consideration, and the Advisory Council will discuss agenda items for a fall 2024 meeting. A detailed agenda will be available at www.dol.gov/agencies/eta/wioa/wiac/meetings shortly before the meetings commence.
