Foreign-Trade Zones Board

[B–28–2024]

Foreign-Trade Zone (FTZ) 75, Notification of Proposed Production Activity; Lucid Motors USA, Inc.; (Lithium-Ion Batteries), Casa Grande and Tempe, Arizona

Lucid Motors USA, Inc. (Lucid) submitted a notification of proposed production activity to the FTZ Board (the Board) for its facilities located in Casa Grande and Tempe, Arizona within Subzone 75N. The notification conforming to the requirements of the Board's regulations (15 CFR 400.22) was received on May 22, 2024.

Pursuant to 15 CFR 400.14(b), FTZ production activity would be limited to the specific foreign-status material(s)/ component(s) and specific finished product(s) described in the submitted notification (summarized below) and subsequently authorized by the Board. The benefits that may stem from conducting production activity under FTZ procedures are explained in the background section of the Board's website—accessible via www.trade.gov/

ftz. The proposed finished product(s) and material(s)/component(s) would be added to the production authority that the Board previously approved for the operation, as reflected on the Board's website.

The proposed foreign-status materials/components include: lithium-ion battery cells and finished lithium-ion batteries (duty rate of 3.4%). The request indicates that certain materials/components may be subject to duties under section 301 of the Trade Act of 1974 (section 301), depending on the country of origin. The applicable section 301 decisions require subject merchandise to be admitted to FTZs in privileged foreign status (19 CFR 146.41). Lucid's original request for production authority (B–37–2020) sought to admit the foreign-status components described in this notification in PF status. This request would remove the PF status limitation.

Public comment is invited from interested parties. Submissions shall be addressed to the Board's Executive Secretary and sent to: ftz@trade.gov. The closing period for their receipt is July 10, 2024.

A copy of the notification will be available for public inspection in the "Online FTZ Information System" section of the Board's website.
