BILLING CODE 4164-01-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

Statement of Organization, Functions, and Delegations of Authority

AGENCY: Food and Drug Administration, Department of Health and Human Services.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA), Office of the Commissioner, Headquarters organizations, and Centers have modified their organizational structure

DATES: This organization was approved by the Secretary of Health and Human

Services on March 5, 2024, and became effective on May 13, 2024.

FOR FURTHER INFORMATION CONTACT:

Yashika Rahaman, Director, Office of Planning, Evaluation, and Risk Management, Office of the Finance, Budget, Acquisitions and Planning, Food and Drug Administration, 10903 New Hampshire Avenue, WO32, Room 4216, Silver Spring, MD 20993, 301-796-4710.

SUPPLEMENTARY INFORMATION: Part D, Chapter D-B, (Food and Drug Administration), the Statement of Organization, Functions, and Delegations of Authority for the Department of Health and Human Services (35 FR 3685, February 25, 1970; 60 FR 56606, November 9, 1995, 64 FR 36361, July 6, 1999, 72 FR 50112, August 30, 2007; 74 FR 41713, August 18, 2009, 76 FR 45270, July 28, 2011, and 84 FR 22854, May 20, 2019) is amended to reflect the approved Food and Drug Administration's Human Foods reorganization.

The Food and Drug Administration (FDA) is focused on transforming its organization structure to be more efficient, nimble, and ready for the future with the ever-changing and complex industries we regulate, including the emergence of new food and medical product technologies, the impacts of globalization, climate change and other factors that require FDA to quickly adapt to a consistently evolving world.

FDA carefully reviewed the findings and recommendations of the Reagan-Udall Foundation evaluation, an internal review of FDA's infant formula response and feedback from external and internal stakeholders during events such as listening sessions with FDA employees. The approved changes in the Human Foods Program (HFP) would allow us to fully realize the preventive vision laid out in the FDA Food Safety Modernization Act, elevate the importance of nutrition, strengthen local, state, and international partnerships, position the FDA to regulate innovative food and agricultural products more effectively, and uphold safety of the nation's food supply. The organizational changes impact other products that FDA regulates, such as medical products and cosmetics, by promoting more streamlined, efficient decision-making and strengthening the enterprise-wide structure to enhance collaboration across FDA.

The intent is to have a modernized FDA that optimizes resources to help the agency meet its public health mission; provide employees with clearer priorities and more career opportunities; and comply with recent legislation such as the Food and Drug Omnibus Reform Act of 2022 (FDORA) mandating the establishment of the Office of Critical Foods, and the Modernization of Cosmetics Regulation Act of 2022 (MoCRA) to ensure the safety of cosmetics products.

The reorganization establishes the HFP by realigning the functions of the Center for Food Safety and Applied Nutrition (CFSAN), Office of Food Policy and Response, as well as key functions from the Office of Regulatory Affairs (ORA) including human foods compliance, Human and Animal Food Laboratories, and State Partnerships to this new organization. The reorganization will also:

Realign ORA's compliance functions to Center for Biologics Evaluation and Research's Office of Compliance and Biologics Quality, Center for Devices and Radiological Health's Office of Product Evaluation and Quality, Center for Drug Evaluation and Research's

Office of Compliance and its substructure organizations, and the Center for Veterinary Medicine's Office of Surveillance and Compliance.

Realign ORA's laboratory safety functions and resources as well as the Medical Product and Specialty Laboratories safety functions and resources to the Office of the Chief Scientist.

Retitle ORA to the Office of Inspections and Investigations (OII) and establish new inspection and investigation offices to focus on inspections, investigations, and imports as its core mission.

Realign emergency response functions and resources from the Office of Operations' Office of Security and Emergency Management to OII.

Realign select functions to strengthen the Office of the Commissioner (OC) and headquarter organizations, including:

Establish, within OC immediate organization, the Office of Enterprise Transformation to focus on key information technology transformation projects across FDA.

Realign the Office of Planning, Evaluation and Risk Management, within OC immediate organization, to focus on strategic initiatives for FDA.

Retitle the Office of Clinical Policy and Programs and realign functions to form the Office of the Chief Medical Officer.

Retitle the Office of External Affairs' Stakeholder Engagement Staff to Public Engagement Staff.

Realign select functions to strengthen the Office of Operations (OO) and substructure organizations, including:

Realign the Office of Executive Secretariat's Freedom of Information Staff functions and resources from the OC's Immediate Office to OO's Office of Enterprise Management Services (OEMS) to consolidate and streamline information disclosure operations.

Retitle OO's OEMS to the Office of Management and Enterprise Services (OMES). Restructure the organization by establishing two office level organizations: the Office of Disclosure, Information Governance, and Accessibility (ODIGA) and the Office of Management (OM) and substructure organizational components within OMES.

Retitle OO's Office of Security and Emergency Management (OSEM) to the Office of Security and Passport Operations (OSPO). Abolish the substructure organizations, and establish the Division of Personnel Security and Credentialing, the Division of Physical Security and Integration, and the Division of Resource Integration and Passport Operations.

Retitle OO's Office of Finance, Budget, Acquisitions and Planning (OFBAP) to the Office of Finance, Budget, and Acquisitions (OFBA).

Realign travel functions and resources from ORA to the Office of Financial Management within OFBA.

Abolish OO's Office of Facilities Engineering and Mission Support Services' (OFEMS) Employee Safety and Occupational Health Staff (ESOHS) and realign emergency safety and occupational health functions from OFEMS to the Office of the Chief Scientist (OCS).

Realign select functions to strengthen the OCS and substructure organizations, as follows:

Establish an Administrative Staff organizational component and realign functions and resources from within the immediate organization into this new component.

Realign the Informatics and Business Operations Staff from the ORA Office of Regulatory Science to the OCS immediate organization.

Merge the Office of Counter-Terrorism and Emerging Threats, and the Office of Regulatory Science and Innovation, to form the Office of Regulatory and Emerging Science. Establish the Communications and Outreach Staff, the Preparedness Research Staff and the Regulatory Science Staff to this new organization.

Merge the Office of Laboratory Safety and OO's ESOH within OFEMS to the organization titled as the Office of Occupational Safety and Health (OOSH). Within the OOSH, merge the functions of the former OO ESOH with those of the OCS Office of Laboratory Safety, and establish the Occupational Safety Staff and the Occupational Health Services Staff to this new organizational component.

Realign the Office of Cosmetics and Colors organization, including its Divisions and Branches, functions and resources, from CFSAN to OCS.

Establish the Office of Analytical and Regulatory Laboratories and realign resources from the ORA Office of Medical Products Laboratory Operations and substructure organizations, and realign functions from within the CFSAN Office of Regulatory Science to this new organization which will be a direct report to OCS.

Establish the Office of Specialty Laboratories and Enforcement Support and realign functions from the ORA's Office of Medical Products Laboratory Operations within the Office of Regulatory Science to this new organization which will be a direct report to OCS.

Establish the Office of Science and Laboratory Advancement and realign functions from ORA's Office of Safety within the Office of Regulatory Science to this new organization which will be a direct report to OCS.

DCA. ORGANIZATION. To reflect these changes, Part D, Section D–B, is replaced with the following:

The Office of the Commissioner is headed by the Commissioner of Food and Drugs, and includes the following organizational units:

Office of the Commissioner (DCA)
Office of the Chief Counsel (DCAA)
Office of the Executive Secretariat (DCAB)
Office of the Counselor to the Commissioner (DCAC)
Office of Digital Transformation (DCAD) Strategy and Operations Staff (DCAD1)
Office of Information Management and Technology (DCADA)
Office of Technology and Delivery (DCADAA)
Delivery Management Support Staff (DCADAA1)
Division of Infrastructure Operations (DCADAAA)
Infrastructure Management Services Staff (DCADAAA1)
Implementation Branch (DCADAAA2)
Infrastructure Engineering Branch (DCADAAA3)
Systems Monitoring and Response Branch (DCADAAA4)
Systems Operations Branch (DCADAAA5)
Network and Communications Operations Branch (DCADAAA6)
Division of Application Services (DCADAAB)
Application Management Services Staff (DCADAAB1)
Data Management and Operations Branch (DCADAAB2)
Medical Products Branch (DCADAAB3)
OC, CVM, CTP Branch (DCADAAB4)
ORA, CFSAN Branch (DCADAAB5)
Enterprise Application Branch (DCADAAB6)
Office of Business and Customer Assurance (DCADAB)
Division of Business Partnership and Support (DCADABA)
Internet and Intranet Branch (DCADABA1)
Call Center Branch (DCADABA2)

Strategic Planning and Change Management Staff (DCAG2)
Evaluation and Analytics Staff (DCAG3)
Enterprise Risk Management Staff (DCAG4)
Performance Management Staff (DCAG5)

DCBC. ORGANIZATION. The Office of Compliance and Biologics Quality within the Center for Biologics Evaluation and Research is headed by the Director for Compliance and Biologics Quality and includes the following organizational units:

Office of Compliance and Biologics Quality (DCBC)
Division of Case Management (DCBCA) Blood and Tissue Compliance Branch (DCBCA1)
Advertising and Promotional Labeling Branch (DCBCA2)
Biological Drug and Device Compliance Branch 1 (DCBCA3)
Biological Drug and Device Compliance Branch 2 (DCBCA4)
Division of Inspections and Surveillance (DCBCB)
Program Surveillance Branch (DCBCB1)
Bioresearch Monitoring Branch (DCBCB2)
Field Surveillance Branch (DCBCB3)
Division of Manufacturing and Product Quality (DCBCC)
Product Release Branch (DCBCC1)
Manufacturing Review Branch 1 (DCBCC2)
Manufacturing Review Branch 2 (DCBCC3)
Manufacturing Review Branch 3 (DCBCC4)
Applications Review Branch (DCBCC5)
Division of Biological Standards and Quality Control (DCBCD)
Quality Assurance Branch (DCBCD2)
Laboratory of Microbiology, In-Vivo Testing and Standards Branch (DCBCD3)
Laboratory of Analytical Chemistry (DCBCD4)
Laboratory of Biochemistry, Virology, and Immunochemistry Branch (DCBCD5)
Laboratory of Blood Related Products Branch (DCBCD6)

DCDF. ORGANIZATION. The Office of Compliance within the Center for Drug Evaluation and Research is headed

by the Director for Compliance and includes the following organization units:

Office of Compliance (DCDF)
Program Management and Analysis Staff (DCDF1)
Office of Manufacturing Quality (DCDFA)
Manufacturing Guidance and Policy Staff (DCDFA1)
Regulatory Compliance and Analysis Staff (DCDFA2)
Division of Drug Quality I (DCDFAA)
Division of Drug Quality II (DCDFAB)
Division of Drug Quality III (DCDFD)
Office of Unapproved Drugs and Labeling Compliance (DCDFB)
Division of Unapproved New Drugs and Labeling (DCDFBB)
Fraud Drugs Branch (DCDFBB2)
Prescription Drugs Branch (DCDFBB3)
Division of Labeling, Regulation, Regulation and Unapproved Drugs (DCDFBC)

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. FDA-2023-N-5345]

Michael Terry Little: Final Debarment Order

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is issuing an order under the Federal Food, Drug, and Cosmetic Act (FD&C Act) debaring Michael Terry Little for a period of 5 years from importing or offering for import any drug into the United States. FDA bases this order on a finding that Mr. Little was convicted of one felony count under Federal law for introduction of unapproved new drugs in interstate commerce. The factual basis supporting Mr. Little's conviction, as described below, is conduct relating to the importation into the United States of a drug or controlled substance. Mr. Little was given notice of the proposed debarment and was given an opportunity to request a hearing to show why he should not be debarred. As of March 13, 2024 (30 days after receipt of the notice), Mr. Little had not responded. Mr. Little's failure to respond and request a hearing constitutes a waiver of his right to a hearing concerning this matter.

DATES: This order is applicable June 3, 2024.

ADDRESSES: Any application by Mr. Little for termination of debarment under section 306(d)(1) of the FD&C Act (21 U.S.C. 335a(d)(1)) may be submitted at any time as follows:
