

Upon selection and agreement to serve on the HSRP, members become Special Government Employees (SGEs) of the United States Government. An SGE, as defined in 18 U.S.C. 202(a), is an officer or employee of an agency who is retained, designated, appointed, or employed to perform temporary duties, with or without compensation, not to exceed 130 days during any period of 365 consecutive days, either on a full time or intermittent basis. After the selection process is complete, applicants selected to serve on the HSRP must complete the following actions before they can be appointed as an HSRP member:

(a) Security Clearance (online Background Security Check process and fingerprinting conducted through NOAA's Office of Security and Office of Human Capital Services); and

(b) Confidential Financial Disclosure Report—SGEs are required to file a Confidential Financial Disclosure Report to avoid involvement in a real or apparent conflict of interest. You may find information on the Confidential Financial Disclosure Report: <https://www.oge.gov/Web/oge.nsf/Resources/OGE+Form+450>.

In accordance with the Federal Advisory Committee Act (FACA), as amended (5 U.S.C. app.), and the pertinent FACA Implementing Regulations (41 CFR 102–3.30(c)), NOAA seeks a balanced HSRP membership. Subject matter expertise, with subjects as specified in the HSIA, is the primary criterion considered in the evaluation process. Professional sector representation (academia, industry, research, scientific institution, State and local government, Tribal interests, consultant, non-governmental organization, etc.), geographic expertise, experience working productively with committees and working groups, and leadership with navigation, observations, and positioning are other criteria that will be considered. The diverse membership of the HSRP ensures expertise reflecting the full breadth of the HSRP's responsibilities.

NOAA requests nominations from individuals meeting the criteria above. Nominees are required to submit four items; the nomination package should include all components, be submitted in Microsoft Word and/or PDF, and be no longer than eight pages. The four required items are,

1. A cover letter that responds to the Five Short Response Questions noted below and serves as a statement of interest to serve on the HSRP. Please highlight the nominee's specific area(s) of expertise related to the disciplines

and fields described in 33 U.S.C. 892c(c).

2. A short biography of 300–400 words.

3. A resume of 3 pages maximum.

4. The nominee's full work and home contact information including: full name, work title, institutional affiliation, work and home mailing addresses, email address(es), phone number(s), and fax number. Please note preferred email, phone number and mailing address.

Five Short Response Questions for the Cover Letter

1. List your area(s) of expertise from the following list: Hydrographic data and services (e.g., tides, currents, geodetic, and geospatial measurements), marine transportation, port administration, vessel pilotage, coastal and fishery management, and other disciplines in the oceanographic or marine science areas.

2. List the geographic region(s) of the country with which you primarily associate your expertise from the following list: Northeast, Mid-Atlantic, Southeast, Gulf of Mexico, Pacific Northwest, California, Hawaii, Pacific Islands, Alaska, Arctic, Great Lakes, Caribbean, National, and/or International.

3. Describe your leadership or professional experiences that you believe will contribute to the HSRP.

4. Describe your familiarity and experience with NOAA navigation, observations and positioning data, products, and services.

5. Generally describe the breadth and scope of your knowledge of stakeholders, users, or other groups who interact with NOAA and whose views and input you believe you can share with the HSRP.

Additional HSRP information, including past HSRP public meeting summary reports, agendas, presentations, transcripts, webinars, and other information is available online at <https://www.nauticalcharts.noaa.gov/hsrp/>.

[Project No. 15353–000]

Hybrid Renewables LLC; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On May 13, 2024, Hybrid Renewables LLC, filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of a hydropower project to be located at the U.S. Army Corps of Engineers' (Corps) Oologah Lake Dam near the Town of Oologah, in Rogers County, Oklahoma. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed Oologah Lake Dam Hydroelectric Project would consist of the following: (1) an steel extension to the existing dam's left outlet conduit that would house a control valve and connect to; (2) a 19-foot-diameter, 228-foot-long steel penstock; (3) the penstock would split into two 16.5-foot-diameter, 58-foot-long and 49-foot-long penstocks before entering; (4) an 80-foot-long, 19-foot-wide, powerhouse containing two turbine-generator units with a total capacity of 24.0 megawatts; (5) a 100-foot-long, 63-foot-wide concrete tailrace; and (6) a .37-mile-long, 138 kilovolt transmission line with a new substation at its end. The proposed project would have an estimated annual generation of 64,600 megawatt-hours.

Deadline for filing comments, motions to intervene, competing applications (without notices of intent), or notices of intent to file competing applications: 60 days from the issuance of this notice. Competing applications and notices of intent must meet the requirements of 18 CFR 4.36.

The Commission's Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings. OPP can help

members of the public, including landowners, environmental justice communities, Tribal members and others, access publicly available information and navigate Commission processes. For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, the public is encouraged to contact OPP at (202) 502-6595 or *OPP@ferc.gov*.

The Commission strongly encourages electronic filing. Please file comments, motions to intervene, notices of intent, and competing applications using the Commission's eFiling system at <https://ferconline.ferc.gov/eFiling.aspx>. Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at <https://ferconline.ferc.gov/QuickComment.aspx>. For assistance, please contact FERC Online Support at *FERCOnlineSupport@ferc.gov*, (866) 208-3676 (toll free), or (202) 502-8659 (TTY). In lieu of electronic filing, you may submit a paper copy. Submissions sent via the U.S. Postal Service must be addressed to: Debbie-Anne A. Reese, Acting Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Room 1A, Washington, DC 20426. Submissions sent via any other carrier must be addressed to: Debbie-Anne A. Reese, Acting Secretary, Federal Energy Regulatory Commission, 12225 Wilkins Avenue, Rockville, Maryland 20852. The first page of any filing should include docket number P-15353-000.

More information about this project, including a copy of the application, can be viewed or printed on the "eLibrary" link of the Commission's website at <https://elibrary.ferc.gov/eLibrary/search>.
