Title: FERC-566: Annual Report of a Utility's 20 Largest Purchasers.

OMB Control No.: 1902-0114.

Type of Request: Three-year extension of the FERC-566 information collection requirements with no revisions to the current requirements.

Abstract: Section 305(c) of the Federal Power Act (FPA),¹ mandates federal oversight and approval of certain electric corporate activities to ensure that neither public nor private interests are adversely affected. The FPA prescribes information filing requirements to achieve this goal. These filing requirements are found at 18 CFR 46.3, and serve as the basis for FERC-566.

FERC-566 implements FPA requirements that each public utility annually publishes a list of the 20 purchasers which purchased the largest annual amounts of electric energy sold by such public utility during any of the three previous calendar years. The public disclosure of this information provides the information necessary to determine whether an interlocked position is with any of the 20 largest purchasers of electric energy.

Type of Respondents: Public utilities.

Estimate of Annual Burden: The Commission estimates 371 responses annually, and 4 hours and \$400 per response. The total estimated burdens per year are 1,484 hours and \$148,400. These burdens are itemized in the following table:

Number of respondents	Annual number of responses per respondent	Total number of responses (Column A × Column B)	Average burden & cost per response ²	Total annual burden hours & total annual cost (Column C × Column D)	Cost per respondent (\$) (Column E ÷ Column A)
A.	B.	C.	D.	E.	F.
371	1	371	4 hrs.; \$400	1,484 hrs.; \$148,400	\$400

¹ 16 U.S.C. 825d.

Comments: Please submit comments on (1) whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

SUPPLEMENTARY INFORMATION:

Title: FERC-65 (Notice of Holding Company Status), FERC-65A (Exemption Notification of Holding Company Status), and FERC-65B (Waiver Notification of Holding Company Status).

OMB Control No.: 1902-0218.

Type of Request: Three-year extension of the FERC-65, FERC-65A and FERC-65B information collection requirements with no changes to the current reporting requirements.

Abstract:

FERC-65 (Notice of Holding Company Status)

Pursuant to section 366.4 of the Commission's rules and regulations, persons who meet the definition of a holding company shall provide the Commission notification of holding company status. The FERC-65 is a one-time informational filing. The FERC-65 must be submitted within 30 days of becoming a holding company¹. While the Commission does not require the information to be reported in a specific format, the filing needs to consist of the

¹ Persons that meet the definition of a holding company as provided by 366.1 as of February 8, 2006 shall notify the Commission of their status as a holding company no later than June 15, 2006. Holding companies formed after February 8, 2006 shall notify the Commission of their status as a holding company, no later than the latter of June 15, 2006 or 30 days after they become holding companies.

name of the holding company, the name of public utilities, the name of natural gas companies in the holding company system, and the names of service companies. In addition, the Commission requires the filing to include the names of special-purpose subsidiaries (which provide non-power goods and services) and the names of all affiliates and subsidiaries (and their corporate interrelationship) to each other. Filings may be submitted in hardcopy or electronically through the Commission's eFiling system.

FERC-65A (Exemption Notification of Holding Company Status)

While noting the previously outlined requirements of the FERC-65, the Commission has allowed for an exemption from the requirement of providing the Commission with a FERC-65 if the books, accounts, memoranda, and other records of any person are not relevant to the jurisdictional rates of a public utility or natural gas company; or if any class of transactions is not relevant to the jurisdictional rates of a public utility or natural gas company. Persons seeking this exemption file the FERC-65A, which must include a form of notice suitable for publication in the **Federal Register**. Those who file a FERC-65A in good faith will have a temporary exemption upon filing. After 60 days if the Commission has taken no action, the exemption will be deemed granted. Commission regulations within 18 CFR 366.3 describe the criteria in more specificity.

FERC-65B (Waiver Notification of Holding Company Status)

If an entity meets the requirements in 18 CFR 366.3(c), they may file a FERC-65B waiver notification pursuant to the procedures outlined in 18 CFR 366.4. Specifically, the Commission waives the requirement of providing it with a FERC-65 for any holding company with respect to one or more of the following: (1) single-state holding company systems; (2) holding companies that own generating facilities that total 100 MW or less in size and are used fundamentally for their own load or for sales to affiliated end-users; or (3) investors in independent transmission-only companies. Filings may be made in hardcopy or electronically through the Commission's website.

Type of Respondent: Public utility companies, natural gas companies, electric wholesale generators, foreign utility holding companies.
