National Park Service

36 CFR Part 7

[NPS-CAHA-NPS37329; Docket No. NPS-2023-0003; 233P103601-PPSECAHASO-PPMPSPD1Z.YM0000]

RIN 1024-AE83

Cape Hatteras National Seashore; Bicycling

AGENCY: National Park Service, Interior.

ACTION: Final rule.

SUMMARY: The National Park Service amends the special regulations for Cape Hatteras National Seashore to allow for bicycle use on an approximately 1.6-mile multi-use pathway in the Hatteras Island District of the Seashore.

DATES: This rule is effective July 5, 2024.

ADDRESSES:

Docket: The comments received on the proposed rule and an economic analysis are available on www.regulations.gov in Docket No. NPS-2023-0003.

Document Availability: The Construct Multi-use Pathway in Hatteras Island District Environmental Assessment (EA), Finding of No Significant Impact (FONSI), and related project documents provide information and context for this rulemaking and are available online at <https://parkplanning.nps.gov/caha> by clicking the link entitled “Construct Multi-Use Pathway in Hatteras Island District” and then clicking the link entitled “Document List.”

FOR FURTHER INFORMATION CONTACT:

David Hallac, Superintendent, Cape Hatteras National Seashore; (252) 473-2111; david_hallac@nps.gov. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered

within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION:

Background

Purpose and Significance of Cape Hatteras National Seashore

In 1937, Congress authorized the establishment of Cape Hatteras National Seashore. Located in the Outer Banks in Dare County, North Carolina, the Seashore consists of more than 30,000 acres distributed along approximately 75 miles of ocean-facing shoreline. The purpose of the Seashore is to permanently preserve the wild and primitive character of the ever-changing barrier islands, protect the diverse plant and animal communities sustained by coastal island processes, and provide for recreational use and enjoyment that is compatible with preserving the distinctive natural and cultural resources of the Nation’s first national seashore.

Located within a day’s drive of several urban centers, the Seashore is a popular vacation destination that receives approximately three million visitors each year. Stretching about 75 miles from north to south, the Seashore encompasses Bodie, Hatteras, and Ocracoke islands, which are linked by North Carolina Highway 12 (NC12) and the Hatteras Inlet Ferry. Nine villages, including Nags Head, Rodanthe, Waves, Salvo, Avon, Buxton, Frisco, Hatteras, and Ocracoke, are located adjacent to or within the Seashore. Popular visitor activities include beachcombing, swimming, fishing, hiking, camping, and learning about the history and natural features of the unique barrier islands. Visitors can access the northern entrance via roadways and the southern entrance by ferry or air travel. The Seashore encompasses a mix of land uses with villages, residences, commercial uses, tourist attractions, and nationally important resources within and adjacent to NPS-managed areas.

Bicycle Use in the Seashore

Bicycle use has occurred in the Seashore for several decades. Bicycles are allowed on roads and in parking areas that are open to public motor

vehicle traffic. Bicycle use is not allowed on any trails or pathways within the Seashore. Public roads and parking areas that are open to traditional bicycles are open to electric bicycles, which are defined in NPS regulations as two- or three-wheeled cycles with fully operable pedals and electric motors of not more than 750 watts that meet the requirements of one of three classes. See the definition of “electric bicycle” in 36 CFR 1.4(a).

New Multi-Use Pathway

Connectivity within and near the Seashore is important for realizing one purpose of the Seashore to provide access and opportunities for the benefit and enjoyment of visitors. The Seashore’s 1984 General Management Plan (GMP) recognized the need for a “bikeway” within the Seashore and identified the area adjacent to Lighthouse Road as an appropriate location that would provide access from NC12 and the village of Buxton to popular visitor use areas within the Cape Hatteras Lighthouse District. Multiple modes of transportation use the Lighthouse Road corridor. These include passenger, recreational, and camping vehicles, as well as pedestrians and bicyclists, who either share the paved road with motor vehicles or use the grassy shoulders along the road. Although the shoulders are wide enough to physically accommodate pedestrians and bicyclists for most of Lighthouse Road, there is no designated and safe pathway for these groups of visitors.

In May 2022 the NPS initiated a 30-day public scoping process to inform the development of plans to construct a multi-use, paved pathway adjacent to Lighthouse Road, consistent with the recommendation in the GMP. Following the public scoping period, in February 2023 the NPS published the EA to analyze the potential environmental consequences of no-action and action alternatives. Under the action alternative, which is the NPS’s preferred alternative, the NPS would construct a 10–12-foot-wide paved multi-use pathway in two phases. The pathway would be physically separated from but adjacent to Lighthouse Road, and then extend away from the road to the

Trailhead at Cape Hatteras Lighthouse in one direction, and to the Trailhead at Buxton Beach Access in the other direction. The total length of the pathway would be approximately 1.6 miles. The project would include wayfinding signage, benches, bollards, and the reconfiguration of the Seashore entrance at the start of the pathway, including intersection improvements and connections to local sidewalks.

In addition to evaluating the potential consequences of constructing the pathway, the EA also evaluated the potential impacts of allowing bicycles and electric bicycles on the pathway. The EA evaluated the suitability of the trail surface and soil conditions for accommodating bicycle use; and life cycle maintenance costs, safety considerations, methods to prevent or minimize user conflict, and methods to protect natural and cultural resources and mitigate impacts associated with bicycle use.

The NPS accepted public comments on the EA for 30 days. In May 2023 following a recommendation by the Superintendent of the Seashore, the Regional Director for Interior Region 2, South Atlantic—Gulf, signed the FONSI identifying the action alternative in the EA as the selected alternative. As stated in the FONSI, the NPS believes the action alternative will greatly improve the quality of the experience for visitors travelling along Lighthouse Road by constructing a safe, resilient, and accessible off-road pathway for pedestrians and bicyclists. The NPS expects to complete construction of phase one of the pathway in the spring of 2024.

Summary of Public Comments

The NPS published a proposed rule in the **Federal Register** on October 19, 2023 (88 FR 72010). The NPS accepted public comments on the proposed rule for 60 days via the mail, hand delivery, and the Federal eRulemaking Portal at <https://www.regulations.gov>. Comments were accepted through December 18, 2023. The NPS received one comment on the proposed rule. The comment supported bicycle use on the new pathway. After considering the public comment and after additional review, the NPS did not make any changes in the final rule.

Final Rule

This rule implements part of the selected alternative in the FONSI by authorizing the Superintendent of the Seashore to allow bicycles on an approximately 1.6-mile multi-use pathway within the Hatteras Island District of the Seashore. This

rulemaking complies with NPS regulations at 36 CFR 4.30, which state that special regulations are required to designate new bicycle trails outside of developed areas. The rule adds a new paragraph (d) to 36 CFR 7.58, which contains existing special regulations for the Seashore. After the pathway is constructed, the Superintendent can designate the pathway for bicycle use by notifying the public through one or more of the methods listed in 36 CFR 1.7. The Superintendent will be required to list the pathway as open to bicycle use in the Superintendent's compendium, which is a written compilation of designations, closures, permit requirements and visitor use restrictions that is available on the Seashore's website (<https://www.nps.gov/caha>). Maps showing the pathway as open to bicycle use will be available at Seashore visitor centers and on the Seashore's website. Finally, the rule states that the Superintendent may limit, restrict, or impose conditions on bicycle use, or close any trail to bicycle use, or terminate such conditions, closures, limits, or restrictions. This can occur after the Superintendent considers public health and safety, resource protection, and other management activities and objectives, as stated in 36 CFR 4.30(f). This rulemaking will not affect the use of any existing trails or pathways in the Seashore, all of which will remain closed to bicycle use.

NPS regulations at 36 CFR 4.30(i) give superintendents the discretionary authority to allow electric bicycles on park roads, parking areas, and administrative roads and trails that are otherwise open to bicycles. After the pathway is constructed, the Superintendent may designate it open to traditional bicycles as explained above. At that time, the Superintendent also can designate the pathway as open to some or all classes of electric bicycles. If, in the future, the Superintendent determines that electric bicycles or certain classes of electric bicycles should no longer be allowed on the pathway, or that conditions for use should change, the Superintendent can make such changes by updating the Superintendent's compendium and providing adequate public notice under 36 CFR 1.7.

Compliance With Other Laws, Executive Orders and Department Policy

Regulatory Planning and Review (Executive Orders 12866 and 13563 and 14094)

Executive Order 12866, as amended by Executive Order 14094, provides that the Office of Information and Regulatory Affairs (OIRA) in the Office of Management and Budget will review all significant rules. OIRA has determined that the final rule is not significant.

Executive Order 14094 amends Executive Order 12866 and reaffirms the principles of Executive Order 12866 and Executive Order 13563 and states that regulatory analysis should facilitate agency efforts to develop regulations that serve the public interest, advance statutory objectives, and be consistent with Executive Order 12866, Executive Order 13563, and the Presidential Memorandum of January 20, 2021 (Modernizing Regulatory Review). Regulatory analysis, as practicable and appropriate, shall recognize distributive impacts and equity, to the extent permitted by law.

Executive Order 13563 reaffirms the principles of Executive Order 12866 while calling for improvements in the nation's regulatory system to promote predictability, to reduce uncertainty, and to use the best, most innovative, and least burdensome tools for achieving regulatory ends. Executive Order 13563 directs agencies to consider regulatory approaches that reduce burdens and maintain flexibility and freedom of choice for the public where these approaches are relevant, feasible, and consistent with regulatory objectives. Executive Order 13563 emphasizes further that regulations must be based on the best available science and that the rulemaking process must allow for public participation and an open exchange of ideas. The NPS has developed this final rule in a manner consistent with these requirements.

Regulatory Flexibility Act

This rulemaking would not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). This certification is based on information contained in the economic analyses found in the report entitled "Cost-Benefit and Regulatory Flexibility Threshold Analyses: Special Regulations to Designate a New Multi-Use Pathway for Bicycle Use at Cape Hatteras National Seashore." The report may be viewed on the seashore's planning website at the uniform

resource locator (URL) listed in **ADDRESSES**.

Congressional Review Act (CRA)

This rulemaking is not a major rule under 5 U.S.C. 804(2). This rulemaking:

(a) Does not have an annual effect on the economy of \$100 million or more.

(b) Will not cause a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions.

(c) Does not have significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of U.S.-based enterprises to compete with foreign-based enterprises.

Unfunded Mandates Reform Act

This rulemaking does not impose an unfunded mandate on State, local, or Tribal governments or the private sector of more than \$100 million per year. The rulemaking does not have a significant or unique effect on State, local or Tribal governments or the private sector. It addresses public use of national park lands and imposes no requirements on other agencies or governments. A statement containing the information required by the Unfunded Mandates Reform Act (2 U.S.C. 1531 *et seq.*) is not required.

Takings (Executive Order 12630)

This rulemaking does not effect a taking of private property or otherwise have takings implications under Executive Order 12630. A takings implication assessment is not required.

Federalism (Executive Order 13132)

Under the criteria in section 1 of Executive Order 13132, the rulemaking does not have sufficient federalism implications to warrant the preparation of a federalism summary impact statement. This rulemaking only affects use of federally administered lands and waters. It has no direct effects on other areas. A federalism summary impact statement is not required.

Civil Justice Reform (Executive Order 12988)

This rulemaking complies with the requirements of Executive Order 12988. This rulemaking:

(a) Meets the criteria of section 3(a) requiring that all regulations be reviewed to eliminate errors and ambiguity and be written to minimize litigation; and

(b) Meets the criteria of section 3(b)(2) requiring that all regulations be written in clear language and contain clear legal standards.

Consultation With Indian Tribes (Executive Order 13175 and Department Policy)

The Department of the Interior strives to strengthen its government-to-government relationship with Indian Tribes through a commitment to consultation with Indian Tribes and recognition of their right to self-governance and Tribal sovereignty. The NPS has evaluated this rulemaking under the criteria in Executive Order 13175 and under the Department's Tribal consultation policy and has determined that Tribal consultation is not required because the rulemaking will have no substantial direct effect on federally recognized Indian Tribes. Nevertheless, in support of the Department of the Interior's and the NPS's commitment to government-to-government consultation, during the EA process, the NPS sent early notification letters to Tribal partners to invite participation in the planning process. The Tribes are the Absentee Shawnee Tribe, the Catawba Indian Nation, the Eastern Shawnee Tribe, the Shawnee Tribe, and the United Keetoowah Band of Cherokee Indians. The NPS notified the Tribes of the project through correspondence dated May 20, 2022, and received a response from the Catawba Indian Nation in a letter dated July 7, 2022. The Catawba Indian Nation requested to be notified if Native American artifacts or human remains are located during the ground disturbance phase of the project.

Paperwork Reduction Act

This rulemaking does not contain information collection requirements, and a submission to the Office of Management and Budget under the Paperwork Reduction Act is not required. The NPS may not conduct or sponsor and you are not required to respond to a collection of information unless it displays a currently valid OMB control number.

National Environmental Policy Act

The NPS has prepared the EA to determine whether this rulemaking will have a significant impact on the quality of the human environment under the National Environmental Policy Act of 1969. This rulemaking would not constitute a major Federal action significantly affecting the quality of the human environment. A detailed statement under the NEPA is not required because of the FONSI. The EA contains a full description of the purpose and need for taking action, the alternatives considered, a map of the affected area, and the environmental

impacts associated with the project. A copy of the EA and FONSI can be found online at the URL listed in **ADDRESSES**.

Effects on the Energy Supply (Executive Order 13211)

This rulemaking is not a significant energy action under the definition in Executive Order 13211; the rulemaking is not likely to have a significant adverse effect on the supply, distribution, or use of energy, and the rulemaking has not otherwise been designated by the Administrator of OIRA as a significant energy action. A Statement of Energy Effects is not required.

List of Subjects in 36 CFR Part 7

National parks, Reporting and Recordkeeping requirements.

In consideration of the foregoing, the National Park Service amends 36 CFR part 7 as set forth below:

PART 7—SPECIAL REGULATIONS, AREAS OF THE NATIONAL PARK SYSTEM

■ 1. The authority citation for part 7 continues to read as follows:

Authority: 54 U.S.C. 100101, 100751, 320102; Sec. 7.96 also issued under D.C. Code 10–137 and D.C. Code 50–2201.07.

■ 2. Amend § 7.58 by adding paragraph (d) to read as follows:

§ 7.58 Cape Hatteras National Seashore.

* * * * *

(d) *Bicycle Use.* (1) The Superintendent may designate all or a portion of the following trails as open to bicycle use:

(i) Multi-use pathway in the Hatteras Island District (approximately 1.6 miles).

(ii) [Reserved]

(2) Maps showing the pathway as open to bicycle use will be available at Seashore visitor centers and posted on the Seashore website. The Superintendent will provide notice that the pathway is open to bicycle use in accordance with § 1.7 of this chapter, including in the superintendent's compendium (or written compilation) of discretionary actions referred to in 36 CFR 1.7(b).

(3) The Superintendent may limit, restrict, or impose conditions on bicycle use, or close any trail to bicycle use, or terminate such conditions, closures, limits, or restrictions in accordance with § 4.30 of this chapter. A violation of any

such limit, restriction, condition, or closure is prohibited.

Shannon A. Estenoz,

Assistant Secretary for Fish and Wildlife and Parks.

BILLING CODE 4312–52–P

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 9

[PS Docket Nos. 15–80, 13–75; ET Docket No. 04–35; FCC 22–88; FR ID 223373]

Disruptions to Communications; Improving 911 Reliability

AGENCY: Federal Communications Commission.

ACTION: Final rule; announcement of compliance date.

SUMMARY: In this document, the Commission announces that the Office of Management and Budget (OMB) has approved information collections for the requirement that covered 911 service providers notify the Commission no later than 60 days after they completely cease operations. This information collection requirement was adopted in the 2022 Second Report and Order, to assist the Commission in conserving resources, in that the Commission will not need to expend time investigating why a provider has failed to file its annual 911 reliability certification in a timely manner, when the reason is simply because the provider is no longer a provider. These rule changes resulted in modified information collection requirements under the Paperwork Reduction Act (PRA) that required OMB approval. The Commission also announces that compliance with the rules is now required. This document is consistent with the 2022 Second Report and Order, which states the Commission will publish a document in the **Federal Register** announcing a compliance date for the rule section and revise the rule accordingly.

DATES: *Compliance date:* Compliance with 47 CFR 9.19(d)(4), published at 88 FR 9765, on February 15, 2023, is required as of July 5, 2024.

FOR FURTHER INFORMATION CONTACT: Linda Pintro of the Public Safety and Homeland Security Bureau, Policy and Licensing Division, at (202) 418–7490 or Linda.Pintro@fcc.gov. For additional information concerning the Paperwork Reduction Act information collection requirements contained in this document, send an email to PRA@fcc.gov or contact Nicole Ongele, Office

of Managing Director, Performance Management, 202–418–2991, or by email to PRA@fcc.gov.

SUPPLEMENTARY INFORMATION: This document announces that OMB approved the information collection requirement in 47 CFR 9.19(d)(4) on November 15, 2023.

The Commission publishes this document as an announcement of the compliance date of the rule.

To request materials in accessible formats for people with disabilities (Braille, large print, electronic files, audio format), send an email to fcc504@fcc.gov or call the Consumer and Governmental Affairs Bureau at (202) 418–0530 (voice), (202) 418–0432 (TTY).

Synopsis

As required by the Paperwork Reduction Act of 1995 (44 U.S.C. 3507), the FCC is notifying the public that it received final OMB approval on November 15, 2023, for the information collection requirements contained in § 9.19(d)(4).

Under 5 CFR part 1320, an agency may not conduct or sponsor a collection of information unless it displays a current, valid OMB Control Number.

No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act that does not display a current, valid OMB Control Number.

The foregoing notification is required by the Paperwork Reduction Act of 1995, Public Law 104–13, October 1, 1995, and 44 U.S.C. 3507.

The total annual reporting burdens and costs for the respondents are as follows:

OMB Control Number: 3060–1202.

OMB Approval Date: November 15, 2023.

OMB Expiration Date: November 30, 2026.

Title: Improving 911 Reliability; Reliability and Continuity of Communications Including Networks, Broadband Technologies.

Form Number: N/A.

Respondents: Business or other for-profit entities, Not for profit institutions and State, local, or Tribal government.

Number of Respondents and Responses: 300 respondents; 305 responses.

Estimated Time per Response: 1 hour.

Frequency of Response: Annual reporting requirement and recordkeeping requirement.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this collection of information is contained in sections 1,

4(i), 4(j), 4(o), 201(b), 214(d), 218, 251(e)(3), 301, 303(b), 303(g), 303(r), 307, 309(a), 316, 332, 403, 615a–1, and 615c of the Communications Act of 1934, as amended, 47 U.S.C. 151, 154(i)–(j) & (o), 201(b), 214(d), 218, 251(e)(3), 301, 303(b), 303(g), 303(r), 307, 309(a), 316, 332, 403, 615a–1, and 615c.

Total Annual Burden: 168,651 hours.

Total Annual Cost: No Cost.

Needs and Uses: In 2022, the Commission adopted a new rule requiring covered 911 service providers to file notice with the Commission when they cease operating as a covered 911 service provider. The Commission adopted this measure to ensure that its staff does not expend time and resources to investigate why a covered 911 service provider failed to file its annual 911 reliability certification in a timely manner, when the reason is simply because the provider ceased operations.

Federal Communications Commission.

Marlene Dortch,

Secretary, Office of the Secretary.
