The target population for the MAI grantees will be at-risk minority adolescents and young adults. All MAI grantees are expected to report their monitoring data using SAMHSA’s Strategic Prevention Framework (SPF) to target minority populations, as well as other high-risk groups residing in communities of color with high prevalence of Substance Abuse and HIV/AIDS. The primary objectives of the monitoring tools include:

- Assess the success of the MAI in reducing risk factors and increasing protective factors associated with the transmission of the Human Immunodeficiency Virus (HIV), Hepatitis C Virus (HCV), and other sexually transmitted diseases (STD).
- Measure the effectiveness of evidence-based programs and infrastructure development activities such as: outreach and training, mobilization of key stakeholders, substance abuse and HIV/AIDS counseling and education, testing, referrals to appropriate medical treatment and/or other intervention

strategies (i.e., cultural enrichment activities, educational and vocational resources, social marketing campaigns, and computer-based curricula).

- Investigate intervention types and features that yield the best outcomes for specific population groups.
- Assess the extent to which access to health care was enhanced for population groups and individuals vulnerable to behavioral health disparities residing in communities targeted by funded interventions.
- Assess the process of adopting and implementing the SPF with the target populations.

SUPPLEMENTARY INFORMATION:

Background

Since 1997, U.S. immigration law has required certain intending immigrants to submit an Affidavit of Support Under Section 213A of the INA (Form I–864 or Form I–864EZ) executed by a sponsor pledging financial support for the intending immigrant to show that they have adequate means of financial support and are not likely to become a public charge. See INA sections 212(a)(4)(C) and (D). The Affidavit of Support Under Section 213A of the INA is a contract between a sponsor and the

U.S. government that imposes a legally enforceable obligation on the sponsor to support the sponsored immigrant until the obligation period ends.

Certain noncitizens are required by regulation to affirmatively request an exemption from filing an Affidavit of Support Under Section 213A of the INA. See 8 CFR 213a.2(a)(1)(i)(B). The Request for Exemption for Intending Immigrant's Affidavit of Support (Form I-864W) is the current mechanism used to affirmatively request the exemption.

However, USCIS is discontinuing the use of the Request for Exemption for Intending Immigrant's Affidavit of Support in its adjudications. Instead, a noncitizen who needs to affirmatively request the exemption from USCIS can request it on the form for their immigration benefit request by checking the appropriate box. For example, an adjustment of status applicant who needs to affirmatively request the exemption will do so on their Application to Register Permanent Residence or Adjust Status (Form I-485) and would not need to complete and submit a Request for Exemption for Intending Immigrant's Affidavit of Support.

- (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- (2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- (3) Enhance the quality, utility, and clarity of the information to be collected; and

Overview of This Information Collection

(1) *Type of Information Collection Request:* Revision of a Currently Approved Collection.

(2) *Title of the Form/Collection:* Affidavit of Support Under Section 213A of the INA; Contract Between Sponsor and Household Member; Affidavit of Support under Section 213A of the INA.

(3) *Agency form number, if any, and the applicable component of the DHS sponsoring the collection:* I-864; I-864A, I-864EZ; USCIS.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* Primary: Individuals or households. USCIS uses the data collected on Form I-864 to determine whether the sponsor has the ability to support the sponsored immigrant under section 213A of the Immigration and Nationality Act. This form standardizes evaluation of a sponsor's ability to support the sponsored immigrant and ensures that basic information required to assess eligibility is provided by sponsors.

Form I-864A is a contract between the sponsor and the sponsor's household members. It is only required if the sponsor used income of their household members to reach the required 125 percent of the Federal poverty guidelines. The contract holds these household members jointly and severally liable for the support of the sponsored immigrant. The information

collection required on Form I-864A is necessary for public benefit agencies to enforce the Affidavit of Support in the event the sponsor used income of their household members to reach the required income level and the public benefit agencies are requesting reimbursement from the sponsor.

USCIS uses Form I-864EZ in exactly the same way as Form I-864; however, USCIS collects less information from the sponsors as less information is needed from those who qualify in order to make a thorough adjudication.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* The estimated total number of respondents for the information collection I-864 is 453,345 and the estimated hour burden per response is 5.81 hours; the estimated total number of respondents for the information collection I-864A is 215,800 and the estimated hour burden per response is 1.5 hours; the estimated total number of respondents for the information collection I-864EZ is 100,000 and the estimated hour burden per response is 2.25 hours.

(6) *An estimate of the total public burden (in hours) associated with the collection:* The total estimated annual hour burden associated with this collection is 3,128,684 hours.

(7) *An estimate of the total public burden (in cost) associated with the collection:* The estimated total annual cost burden associated with this collection of information is \$135,569,525.
