SUPPLEMENTARY INFORMATION:

Title: CFAP 2.

OMB Control Number: 0560–0297.

Type of Request: Extension.

Abstract: This information collection is required to support CFAP 2 information collection activities to provide payments to eligible producers who, with respect to their agricultural commodities, have been impacted by the effects of the COVID–19 outbreak. The information collection is necessary to evaluate the application and other required paperwork for determining the producer's eligibility and assist in the producer's payment calculations. Producers must submit a completed CFAP 2 application and additional documentation for eligibility, such as certifications of compliance with adjusted gross income provisions and conservation compliance activities; those additional documents and forms must be submitted no later than 60 days from the date a producer signs the application. There are no changes to the burden hours since the last OMB submission, and FSA is requesting for 3-year approval for the collection.

For the following estimated total annual burden on respondents, the formula used to calculate the total burden hour is the estimated average time per response multiplied by the estimated total annual responses.

Estimate of Average Time to Respond: Public reporting burden for this information collection is estimated to average 0.694 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed and completing and reviewing the collections of information.

Type of Respondents: Producers or farmers.

Estimated Annual Number of Respondents: 957,127.

Estimated Number of Responses per Respondent: 1.41.

Estimated Total Annual Responses: 1,350,282.

Estimated Average Time per Response: 0.694 hours.

Estimated Total Annual Burden on Respondents: 937,640 hours.

FSA is requesting comments on all aspects of this information collection to help us to:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the FSA, including whether the information will have practical utility;

(2) Evaluate the accuracy of the FSA's estimate of burden including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All comments received in response to this document, including names and addresses when provided, will be a matter of public record. Comments will be summarized and included in the submission for Office of Management and Budget approval.
