

who are to respond, including through the use of appropriate forms of information technology. EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another **Federal Register** notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: The Natural Gas STAR Program and Methane Challenge Partnership (“Gas STAR Programs”) are voluntary programs sponsored by the U.S. Environmental Protection Agency (EPA) that have encouraged oil and natural gas companies to adopt cost effective technologies and practices that improve operational efficiency and reduce methane emissions. Methane is the primary component of natural gas and a potent greenhouse gas. The Programs have worked with oil and natural gas companies in the production, gathering & boosting, processing, transmission & storage, and distribution segments to remove barriers that inhibit the implementation of technologies and practices that reduce methane emissions. EPA has recently taken historic steps to tackle wasteful methane emissions from the oil and gas sector beyond voluntary action. The Inflation Reduction Act directed EPA to implement a suite of actions to swiftly reduce methane emissions through the creation of the Methane Emissions Reductions Program (MERP). On December 2, 2023, EPA announced final New Source Performance Standards and Emissions Guidelines (NSPS/EG) to regulate the oil and gas industry under the Clean Air Act, resulting in ambitious requirements to reduce methane from both new and existing sources. The Department of Transportation has also imposed requirements on the transmission segment including implementation of the PIPES Act of 2020. Based on the limited remaining potential for voluntary actions to reduce methane emissions, EPA will be sunsetting the Methane Challenge Partnership, and transitioning its outreach efforts to advance ambitious, sector-wide methane reductions through technical assistance and outreach under the Methane Emissions Reduction Program. This follows EPA’s sunsetting of the partnership agreements, implementation plans, and the reporting component of the Natural Gas STAR Program in 2022. Updating the ICR for the Methane Challenge Partnership and the Natural Gas STAR Program to reflect these programmatic changes is expected

to significantly decrease burden by removing all partner reporting and partnership related data sharing aspects. The sole programmatic element involving voluntary collection of information the EPA plans to retain is the Oil and Gas Equipment and Service Providers Directory. This directory’s purpose is to share information about service and technology providers that can facilitate methane emission reduction activities in the oil and gas sector.

Form Numbers: The Natural Gas STAR Program’s Oil and Gas Equipment and Service Providers Directory collects information via a webform, *Service Providers Directory*: EPA Form No. 5900–502; located at the following URL: <https://www.epa.gov/natural-gas-star-program/forms/join-oil-and-gas-equipment-and-service-providers-directory>.

Respondents/affected entities: The Natural Gas STAR Program’s Oil and Gas Equipment and Service Providers Directory is open to companies that offer services, technologies, and/or equipment that can help oil and gas operators reduce their methane emissions. EPA does not specifically endorse any product, technology, equipment, or service listed in the Program’s Directory.

Respondent’s obligation to respond: Voluntary.

Estimated number of respondents: 50 vendors (total).

Frequency of response: Semi-annual.

Total estimated burden: 13 hours (per year) for the Natural Gas STAR Program. Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$3,549 (per year) for the Natural Gas STAR Program. There are no capital/start-up costs or O&M costs associated with this information collection.

Changes in Estimates: EPA expects that the burden associated with the final ICR submission for the Natural Gas STAR Program will decrease significantly compared to its previous estimated burden due to modifying this ICR to remove all Methane Challenge partnership agreement forms, implementation plans, reporting forms, and fact sheets.

Director, Climate Change Division.

Administration for Children and Families

Submission for Office of Management and Budget (OMB) Review; Annual Report on Children in Foster Homes and Children in Families Receiving Payments in Excess of the Poverty Income Level From a State Program Funded Under Part A of Title IV of the Social Security Act (OMB #: 0970–0004)

AGENCY: Office of Family Assistance, Administration for Children and Families, U.S. Department of Health and Human Services.

ACTION: Request for public comments.

SUMMARY: The Office of Family Assistance (OFA), Administration for Children and Families (ACF) is requesting a three-year extension of the form ACF–4125: Annual Report on Children in Foster Homes and Children in Families Receiving Payment in Excess of the Poverty Income Level from

a State Program Funded Under Part A of Title IV of the Social Security Act (OMB #: 0970–0004, expiration 6/30/2024). There are no changes requested to the form.

DATES: *Comments due within 30 days of publication.* OMB must make a decision about the collection of information between 30 and 60 days after publication of this document in the **Federal Register**. Therefore, a comment is best assured of having its full effect if OMB receives it within 30 days of publication.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function. You can also obtain copies of the proposed collection of information by emailing infocollection@acf.hhs.gov. Identify all emailed requests by the title of the information collection.

SUPPLEMENTARY INFORMATION:

Description: The Elementary and Secondary Education Act of 1965 (ESEA), section 1124 of Title I, as amended by Public Law 114–95, requires the Secretary of Health and Human Services to determine the number of children aged 5 to 17, inclusive, that (1) are being supported in foster homes with public funds; or (2) are from families receiving assistance payments in excess of the current poverty income level for a family of four. The information gathered is to be passed on to the Secretary of Education for purposes of allocating grants authorized under this law. The statute requires that the formula to allocate these grants and distribute funds be based, in part, on October caseload data on the number of children in foster care or in families receiving payments from state programs funded under Title IV-a of the Social Security Act [Temporary Assistance for Needy Families (TANF)]. The purpose of this annual survey is to provide annually updated data so that funds may be allocated in accordance with the ESEA.

Respondents: State agencies (including the District of Columbia and Puerto Rico) administering child welfare and public assistance programs.
