SUPPLEMENTARY INFORMATION: The Department is especially interested in public comment addressing the following issues: (1) is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: National Assessment of Educational Progress (NAEP) 2025 Long-Term Trend (LTT) Revision.

OMB Control Number: 1850-0928.

Type of Review: A revision of a currently approved ICR.

Respondents/Affected Public: Individuals and Households *Total Estimated Number of Annual Responses:* 61,360.

Total Estimated Number of Annual Burden Hours: 21,536.

Abstract: The National Assessment of Educational Progress (NAEP), conducted by the National Center for Education Statistics (NCES), is a federally authorized survey of student achievement at grades 4, 8, and 12 in various subject areas, such as mathematics, reading, writing, science, U.S. history, civics, geography, economics, technology, and engineering literacy (TEL), and the arts. The National Assessment of Educational Progress Authorization Act (Public Law 107-279 Title III, section 303) requires

the assessment to collect data on specified student groups and characteristics, including information organized by race/ethnicity, gender, socio-economic status, disability, and limited English proficiency. It requires fair and accurate presentation of achievement data and permits the collection of background, noncognitive, or descriptive information that is related to academic achievement and aids in fair reporting of results. The intent of the law is to provide representative sample data on student achievement for the nation, the states, and subpopulations of students and to monitor progress over time. NAEP consists of two assessment programs: the NAEP long-term trend (LTT) assessment and the main NAEP assessment. The LTT assessments are given at the national level only and are administered to students at ages 9, 13, and 17 in a manner that is very different from that used for the main NAEP assessments. LTT reports mathematics and reading results that present trend data since the 1970s. In addition to the operational assessments, NAEP uses two other kinds of assessment activities: pilot assessments and special studies. Pilot assessments test items and procedures for future administrations of NAEP, while special studies (including the National Indian Education Study (NIES), the Middle School Transcript Study (MSTS), and the High School Transcript Study (HSTS)) are opportunities for NAEP to investigate particular aspects of the assessment without impacting the reporting of the NAEP results.

This Amendment to the NAEP 2025 Long-Term Trend Clearance package updates several documents since the approval of the primary package for NAEP 2025 LTT (OMB# 1850-0928 v.32) in April 2024: (1) updated committee members in Appendix A, (2) updated sampling design memo in Appendix C, (3) final communication materials in Appendix D, (4) updated Assessment Management Screens (AMS) in Appendix F1, and (5) small updates to Parts A and B. These changes required no changes to approved respondent burden but does require a small increase in the cost to the Federal Government.
