SUPPLEMENTARY INFORMATION:

Title: FERC-917, Electric Transmission Facilities and FERC-918, Standards for Business Practices and Communication Protocols for Public Utilities.

OMB Control No.: 1902-0233.

Type of Request: Three-year extension of the FERC-917 and FERC-918 information collection requirements with no changes to the reporting requirements.

Type of Respondents: Public utilities transmission providers.

Abstract: The information collection requirements in the FERC 917 and 918 include posting requirements in compliance with Federal Power Act sections 206. Furthermore, the requirements for posting are described in the Commission's pro forma Open Access Transmission Tariff (OATT) that is prescribed by 18 CFR 35.28 to ensure non-discriminatory practices in electric energy systems and markets. Additionally, the specifications to posting information and standards that must be followed are outlined in 18 CFR part 37 (Open Access Same Time Information System (OASIS)) and part 38 (Standards for Public Utility Business Operations and Communications) of the Commission's regulations.

The FERC 917 and 918 information collections specifically contain the burden related to gathering and posting information (on OASIS) as specified in the OATT¹ and the burden related to complying with standards that are described by the North American Energy Standards Board (NAESB).²

This notice and information collection request pertains to the extension of the existing requirements with no change to the reporting requirements.³

*Estimate of Annual Burden:*⁴ The Commission estimates the annual public reporting burden for the information collection to remain consistent with the

¹ The requirements for OASIS were established in FERC order 888 and 889. Later, in FERC Order 1000-A, the FERC Information Collection under OMB control no. 1902-0233 was created.

² 18 CFR part 38

³ There is a separate docket no. (RM21-17) that is revising the OATT at this time. To reduce confusion between the revision and the extension, the Commission is issuing this notice for the extension to requirements that are not being revised in the separate rulemaking effort.

⁴ Burden is defined as the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. For further explanation of what is included in the information collection burden, refer to 5 CFR part 1320.
