

- Settlement Cycle Report of Dealer Fails and Transaction Volumes: Class C (FR 2004FC), and
- Settlement Cycle Report of Dealer Fails and Transaction Volumes (FR 2004FM).

The Federal Reserve Bank of New York, on behalf of the Federal Reserve System, collects data from primary dealers in the U.S. Government securities market. Filing of these data is required to obtain the benefit of primary dealer status. The Federal Reserve uses these data to (1) monitor the condition of the U.S. Government securities market in its Treasury market surveillance and analysis of the market and (2) assist and support the U.S. Department of the Treasury (Treasury) in its role as fiscal agent for Treasury financing operations. In addition, these data are used in the analysis of broad financial conditions and a range of financial stability issues.

Frequency: Weekly, monthly, daily, and event-generated.

Respondents: Primary Government security dealers.

Total estimated number of respondents: 24.

Total estimated change in burden: 1,310.

Total estimated annual burden hours: 35,189.

Current actions: On January 29, 2024, the Board published a notice in the **Federal Register** (89 FR 5539) requesting public comment for 60 days on the extension, with revision, of the FR 2004. Since the last clearance, a new type of repo financing called “sponsored general collateral repo” has gained significant popularity among clients of primary dealers. Such type of financing is not separately listed in the current FR 2004C. To improve our ability to track the usage of this product by primary dealers, the Board proposed to revise the FR 2004C for each asset category by adding three columns to separately capture sponsored general collateral Triparty Repo financing by maturity tenors. The comment period for this notice expired on March 29, 2024. The Board received one comment from a financial services group. The commenter stated that the proposed June 5, 2024, implementation date conflicted with the T-1 go live and competed with limited IT resources. After consideration, the Board will extend the implementation date to July 3, 2024. Aside from the change discussed above, the Board adopted the extension, with revision, of the FR 2004 as originally proposed.

Board of Governors of the Federal Reserve System, June 4, 2024.

Deputy Secretary and Ombuds of the Board.
