Non-Refillable Steel Cylinders From India; Determinations

On the basis of the record¹ developed in the subject investigations, the United States International Trade Commission ("Commission") determines, pursuant to the Tariff Act of 1930 ("the Act"), that an industry in the United States is materially injured by reason of imports of non-refillable steel cylinders ("NRSC") from India, provided for in subheading 7311.00.00 of the Harmonized Tariff Schedule of the United States, that have been found by the U.S. Department of Commerce ("Commerce") to be sold in the United States at less than fair value ("LTFV"), and imports of the subject merchandise from India that have been found to be subsidized by the government of India.²

Background

The Commission instituted these investigations effective April 27, 2023, following receipt of petitions filed with the Commission and Commerce by Worthington Industries, Columbus, Ohio. Notice of the scheduling of the final phase of the Commission's investigations and of a public hearing to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** on December 13, 2023 (88 FR 86379).
