

Official, National Institute of Standards and Technology, Telephone (301) 975–2489. Mr. Brewer's email address is jeffrey.brewer@nist.gov.

SUPPLEMENTARY INFORMATION:

Authority: The ISPAB was established to function solely as an advisory body, in accordance with the provisions of the Federal Advisory Committee Act, as amended, 5 U.S.C. 1001 *et seq.* The Board reports to the Director of NIST, and reports annually to the Secretary of Commerce, the Secretary of Homeland Security, the Director of the Office of Management and Budget, the Director of the National Security Agency, and appropriate committees of Congress. The Board is authorized under 15 U.S.C. 278g–4 and tasked with identifying emerging managerial, technical, administrative, and physical safeguard issues relative to information security and privacy.

Pursuant to the Federal Advisory Committee Act, as amended, 5 U.S.C. 1001 *et seq.*, notice is hereby given that the ISPAB will hold an open meeting on the date and time in the **DATES** section and will be open to the public. The primary purpose of this meeting is to discuss and deliberate potential recommendations. The agenda may change to accommodate ISPAB business. The final agenda will be posted on the NIST website at <https://csrc.nist.gov/Events/2024/ispab-july-2024-meeting>, and is expected to include the following items:

- Board Introductions and Member Activities,
- Update on NIST's Information Technology Laboratory (ITL) Activities,
- Briefing from NIST on the US National Vulnerability Database,
- Briefing from CISA on the New Vulrichment Program,
- Discussion on Post Quantum Encryption Transitions into Commercial Technology,
- Briefing from NIST on Identity Management Guidance,
- Briefing from NSA on the AI Security Center,
- Public comments,
- Board Discussions and Recommendations.

Individuals and representatives of organizations who would like to offer comments and suggestions related to the Board's business are invited to request a place on the agenda. Approximately thirty minutes will be reserved for public comments and speaking times will be assigned on a first-come, first-served basis. The amount of time per speaker will be determined by the number of requests received but is likely

to be about five minutes each. Questions from the public will not be considered during this period. Speakers who wish to expand upon their oral statements, those who had wished to speak but could not be accommodated on the agenda, and those who were unable to participate are invited to submit written statements by email to jeffrey.brewer@nist.gov.

All participants will be attending via webinar and are required to pre-register to be admitted to the meeting. To pre-register and receive detailed instruction on how to join the meeting, please submit your first and last name, email address, and company name via the registration link at <https://csrc.nist.gov/Events/2024/ispab-july-2024-meeting> by 5 p.m. Eastern Time, July 16, 2024.

Alicia Chambers,

NIST Executive Secretariat.

BILLING CODE 3510–13–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; 3D Nation Elevation Data Requirements and Benefits Study

The Department of Commerce will submit the following Information Collection Request (ICR) to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on March 5, 2024, during a 60-day comment period. No comments were received. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic & Atmospheric Administration (NOAA), Commerce.

Title: 3D Nation Requirements and Benefits Elevation Data Study.

OMB Control Number: 0648–0762.

Form Number(s): None.

Type of Request: Regular submission; extension of a current information collection.

Number of Respondents: 600.

Average Hours per Response: 2.

Total Annual Burden Hours: 1,200.

Needs and Uses: This is a request for extension of a currently approved information collection.

NOAA and the U.S. Geological Survey (USGS) are working to improve the technology systems, data, and services that provide information about 3D elevation data and related applications within the United States. By continuing to learn about business uses and associated benefits that would be realized from improved elevation data, the agencies can more effectively prioritize and direct investments that will best serve user needs. The 3D Nation Elevation Data Requirements and Benefits Study (“3D Nation Study”) is part of the continuing effort to develop and refine future program alternatives that would provide enhanced 3D data to meet many Federal, State, and other national business needs. The 3D Nation Study seeks to understand needs for 3D elevation data in terms of mission-critical activities, geographic extents of data needs, accuracy requirements, frequency needed, and anticipated benefits of having the required data.

In 2022, NOAA and the USGS completed the first 3D Nation Study assessing requirements and benefits of topographic (terrestrial elevation) and bathymetric (water depth) data in inland, nearshore, and offshore geographies. The 3D Nation Study consisted of a standardized questionnaire covering a wide range of business uses that depend on elevation data to inform policy, regulation, scientific research, and management decisions. Input was gathered from a variety of government entities (*e.g.*, Federal, State, local, Tribal) as well as not-for-profit, academic, and private/commercial users of elevation data. Collected responses were aggregated at the agency, organization, State and national levels. Responses associated with individuals were not distributed. Responses were one-time and voluntary. In-person interviews to clarify questionnaire results were arranged on a case-by-case basis.

NOAA and USGS are now analyzing respondent data from the first 3D Nation Study. The report and appendices of questionnaire and other report-related sections are available at the 3D Nation Study site (<https://3dnation.iocm.noaa.gov/>) and via NOAA's Integrated Ocean and Coastal Mapping Program page (<https://iocm.noaa.gov/planning/3DNationStudy.html>). The findings are being used to update a baseline of national business needs and associated benefits for 3D data and associated technologies. This baseline enhances

the responsiveness of NOAA, USGS, and partner agency programs to stakeholder needs. It is intended to inform the design of directed future programs that balance requirements, benefits, and costs at a national scale.

NOAA and USGS plan to revisit national elevation data needs to assess changes to the 3D Nation Study baseline in or after 2026, which is why NOAA and USGS are seeking to extend the expiration date of this currently approved ICR. The survey tool for the future 3D Nation Study collection will likely include a subset of questions from the original questionnaire because the 2022 3D Nation Study provides a sufficient foundation to minimize questions in a number of study areas. Prior to conducting the next round of surveys, NOAA will submit a request for questionnaire revision to OMB based on analysis of the baseline survey.

Affected Public: Federal government, State, local or Tribal governments; not-for-profit institutions, academia, business or other for-profit organizations.

Frequency: On occasion, 3–5-year intervals.

Respondent's Obligation: Voluntary.

Legal Authority: Coast and Geodetic Survey Act of 1947 (33 U.S.C. 883a *et seq.*).

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function and entering either the title of the collection or the OMB Control Number 0648–0762.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Under Secretary for Economic Affairs, Commerce Department.

BILLING CODE 3510–08–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; NOAA Fisheries Greater Atlantic Region Gear Identification Requirements

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing, information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on April 2, 2024, during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic and Atmospheric Administration (NOAA), Commerce.

Title: NOAA Fisheries Greater Atlantic Region Gear Identification Requirements.

OMB Control Number: 0648–0351.

Form Number(s): None.

Type of Request: Regular submission (extension of a current information collection).

Number of Respondents: 2,307.

Average Hours per Response: 1 minute per string of gear.

Total Annual Burden Hours: 9,571.

Needs and Uses: This request would extend an approved information collection regarding Greater Atlantic Region fishing gear marking requirements. There are no changes to the gear marking requirements in this collection.

Under the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), the Secretary of Commerce (Secretary) is responsible for the conservation and management of marine fishery resources. The Secretary has delegated much of this responsibility to the National Oceanic and Atmospheric Administration (NOAA)/National Marine Fisheries Service (NMFS). The Magnuson-Stevens Act gives the Secretary and NOAA certain regulatory authorities to ensure the most beneficial uses of marine fishery resources. One of the regulatory

steps taken to carry out the conservation and management objectives is to collect data from users of the resource.

Regulations at 50 CFR 648.84(a),(b), and (d), 648.125(b)(3), 648.144(b)(1), 648.264(a)(5), and 697.21(a) and (b) require Federal permit holders using certain types of fishing gear to mark the gear with information necessary to identify the vessel and gear (*e.g.*, hull identification number, Federal fishing vessel permit number). The regulations also specify gear marking requirements for visibility (*e.g.*, buoys, radar reflectors). These gear marking requirements aid in fishery law enforcement, support safe navigation by increasing gear visibility, and help prevent gear conflicts by providing gear type information to other fisherman.

The number of end lines associated with each string of hooks, pots, or traps determine the quantity of gear in this collection. A single Federal permit holder may be responsible for marking several strings of a given gear type and may use multiple gear types that require marking.

Affected Public: Business or other for-profit organizations.

Frequency: Annual.

Respondent's Obligation: Mandatory.

Legal Authority: 50 CFR 648.84(a), (b), and (d), 648.125(b)(3), 648.144(b)(1), 648.264(a)(5), and 697.21(a) and (b).

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function and entering either the title of the collection or the OMB Control Number 0648–0351.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Under Secretary for Economic Affairs, Commerce Department.
