

virtual public listening sessions will be hosted via a video conferencing platform at the times detailed in the **DATES** section of this document. At the beginning of each virtual public listening session, HUD will deliver a summarized presentation of the details of the HOME Program proposed rule and then open the session up for verbal comment from attendees.

HUD's presentation delivered during each set of the virtual public listening sessions will detail the same information, so interested members of the public need only attend a single set of the listening sessions. Each virtual public listening session set will be delivered in two parts, with each part lasting one hour. The first part of each virtual public listening session (Part 1) will address the topics of community housing development organizations, maximum subsidy amounts, green building incentives, homebuyer housing, and community land trusts. The second part of each virtual public listening session (Part 2) will address the topics of rental housing, tenant-based rental assistance, and tenant protections.

II. Meeting Participation and Attendance

The virtual public listening sessions are open to the public. HUD encourages all interested parties to attend one set of a virtual public listening session. Attendees who provide verbal comments at a virtual public listening session will be limited to two minutes to provide their comment. Closed captioning will be available during all virtual public listening sessions.

III. Registration

39 CFR Part 111

FOR FURTHER INFORMATION CONTACT: Dale Kennedy at (202) 268-6592 or Doriane Harley at (202) 268-2537.

SUPPLEMENTARY INFORMATION: All submitted comments and attachments are part of the public record and subject to disclosure. Do not enclose any material in your comments that you consider to be confidential or inappropriate for public disclosure.

Currently, the standards in DMM section 203.4.5 require bundles of flats to be secured with banding, shrinkwrap, or shrinkwrap plus one or more bands. Additionally, it allows the use of rubber bands and twine/string as banding materials on bundles of flats.

The Postal Service is proposing to amend the standards in DMM section 203.4.4 to include an exemption for mailings of 500 flat-sized pieces or fewer entered at the BMEU from bundle preparation. Applicable mailings may be prepared loose in flat trays instead of in bundles. The Postal Service is also proposing to amend the standards in sections 203.4.5, 203.4.8, and 203.4.9 to require all bundles of flats to have two or more cross-strapped bands or be shrink-wrapped with two or more cross-strapped bands and to eliminate the use of rubber bands and twine/string for securing bundles of flats. Additionally, section 245.9.5(d) would be amended to reflect that shrink-wrapped multi carrier route bundles require two or more cross-strapped bands.

The Postal Service is proposing to implement this change effective August 18, 2024.

We believe that the proposed revisions will enable the Postal Service to process bundled flats in a more efficient manner.

Although exempt from the notice and comment requirements of the Administrative Procedure Act (5 U.S.C. 553(b), (c)) regarding proposed rulemaking by 39 U.S.C. 410(a), the Postal Service invites public comment on the proposed revisions to *Mailing Standards of the United States Postal Service*, Domestic Mail Manual (DMM), incorporated by reference in the Code of Federal Regulations.

We will publish an appropriate amendment to 39 CFR part 111 to reflect these changes if our proposal is adopted.
