The Regents of the University of Michigan, et al.; Notice of Decision on Application for Duty-Free Entry of Scientific Instruments

This is a decision pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, as amended by Pub. L. 106-36; 80 Stat. 897; 15 CFR part 301). On April 20, 2024, the Department of Commerce published a notice in the **Federal Register** requesting public comment on whether instruments of equivalent scientific value, for the purposes for which the instruments identified in the docket(s) below are intended to be used, are being manufactured in the United States. See *Application(s) for Duty-Free Entry of Scientific Instruments*, 89 FR 31723-24,

April 25, 2024 (*Notice*). We received no public comments.

Comments: None received. Decision: Approved. We know of no instrument of equivalent scientific value to the foreign instrument described below, for such purposes as this is intended to be used, that was being manufactured in the United States at the time of order.

Docket Number: 24-009. Applicant: The Regents of the University of Michigan, 5082 Wolverine Tower, 3003 South State Street, Ann Arbor, MI 48109-1287. Instrument: Formula Student Motor and Motor Controllers. Manufacturer: AMK Motion GmbH + CoKG, Germany. Intended Use: The instrument is intended to be used to teach current engineering students at the University of Michigan about vehicle integration, design, and dynamics. This is taught to students through participation in the national wide intercollegiate Formula SAE competitions. This motor is a critical component in the electric powertrain of the vehicle as each motor will independently control each wheel of the car. These specific motors from AMK allow our team to learn the fundamentals of such a process without having to design and manufacture our motors and motor controllers, which is a far more expensive, time-consuming, and knowledge-heavy process.

Dated: June 11, 2024.

SUPPLEMENTARY INFORMATION:

I. Abstract

This is a request for renewal of an approved information collection. Under the Magnuson-Stevens Fishery Conservation and Management Act, the Secretary of Commerce has the responsibility for the conservation and management of marine fishery resources. Much of this responsibility has been delegated to the NOAA's National Marine Fisheries Service (NMFS). Under this stewardship role, the Secretary was given certain regulatory authorities to ensure the most beneficial uses of these resources. One of the regulatory steps taken to care out the conservation and management objectives is to collect information from users of the resources.

This collection requires limited access mackerel and longfin squid/butterfish moratorium permit holders to bring all catch aboard the vessel and make it available for sampling by an observer. If a catch is not made available to an observer before discard, that catch is defined as slippage, and the vessel operator must complete a "Released Catch Affidavit" form within 48 hours of the end of the fishing trip which details why catch was slipped, estimates the quantity and species composition of the slipped catch, and records the time and location of the slipped catch.

This collection also requires any vessel with a limited access mackerel permit intending to land over 20,000 lb of mackerel to contact NMFS at least 48 hours in advance of a fishing trip to request an observer. Vessels currently contact NMFS via phone, and selection notices or waivers are issued by NMFS via VMS. If service providers are unable to provide coverage, an owner, operator, or vessel manager may request a waiver by calling the Northeast Fisheries Observer Program. Additionally, if a fishing trip is cancelled, vessels must notify NMFS of the cancelled trip to prevent observers from being deployed to a cancelled trip.
