

In the event that a contractor selects a carrier other than a U.S.-flag air carrier for international air transportation during performance of the contract, this clause requires the contractor to include a statement regarding the unavailability of U.S.-Flag Air Carriers on vouchers involving such transportation. The Government uses the information provided on the voucher to ensure compliance with section 5 of the International Air Transportation Fair Competitive Practices Act of 1974 (49 U.S.C. 40118), which requires the Government and its contractors and subcontractors to use U.S.-flag air carriers for U.S. Government-financed international air transportation of personnel (and their personal effects) or property, to the extent that service by those carriers is available.

- FAR 52.247-64, Preference for Privately Owned U.S.-Flag Commercial Vessels.

This clause requires a contractor to provide the contracting officer and the Maritime Administration's one legible copy of rated on-board ocean bill of lading for each shipment made by the contractor or its subcontractors. The Government uses this information to ensure compliance with the Cargo Preference Act of 1954.

- FAR 52.247-67, Submission of Transportation Documents for Audit.

This clause requires the contractor to submit for prepayment audit transportation documents on which the United States will assume freight charges that were paid by the contractor under a cost-reimbursement contract or by the contractor's first-tier subcontractor (for a cost-reimbursement subcontract). For freight shipment bills under \$100 are to be retained on-site by the contractor and made available for on-site audits. The Government uses this information to conduct a prepayment audit of transportation charges on a cost-reimbursement contract when reimbursement of transportation as a direct charge to the contract or subcontract is authorized. The prepayment audit is required to comply with agency prepayment audit programs established pursuant to 31 U.S.C. 3726.

- FAR 52.247-68, Report of Shipment (REPSHIP).

This clause requires contractors to send an advance notice of shipment to the consignee transportation officer to be received at least 24 hours before the arrival of the shipment, unless otherwise directed by a contracting officer. The Government uses this information to alert the receiving activity of certain shipments. The advance notice facilitates arrangements

for transportation control, labor, space, and use of materials handling equipment at destination. The timely receipt of notices by the consignee transportation office precludes the Government from incurring demurrage and vehicle detention charges.

- FAR 47.303 Clauses for Standard Delivery Terms.

The following FAR clauses require the contractor to (as appropriate to the delivery terms specified in the contract): Prepare or provide special annotation on a Government or commercial bill of lading; provide an ocean bill of lading or airway bill; annotate commercial shipping documents; distribute copies of the bill of lading; provide applicable transportation receipts; assist in obtaining documents for exportation or importation destinations; and/or obtain insurance documents:
