Type of Review: Extension without change of a currently approved collection.

Description: On September 11, 1993, President Clinton issued Executive Order 12862, "Setting Customer Service Standards" which clearly define his vision that the Federal agencies will put the people first. Executive Order 12862 directs Federal agencies to provide service to the public that matches or exceeds the best service available in the private sector. Section 1(b) of Executive Order 12862 requires government agencies to "survey customers to determine the kind and quality of services they want and their level of satisfaction with existing services" and Section 1(e) requires agencies "survey

front-line employees on barriers to, and ideas for, matching the best in business."

On March 30, 2016, President Obama established the Core Federal Services Council, which again emphasized the need to deliver world-class customer service to the American people. The Council, composed of the major high-volume, high-impact Federal programs that provide transactional services directly to the public, were encouraged "to improve the customer experience by using public and private sector management best practices, such as conducting self-assessments and journey mapping, collecting transactional feedback data, and sharing such data with frontline and other staff."

In March 2018, the Administration of President Trump launched the President's Management Agenda (PMA) and established new Cross-Agency Priority (CAP) Goals. Excellent service was established as a core component of the mission, service, stewardship model that frames the entire PMA, embedding a customer-focused approach in all of the PMA's initiatives. This model was also included in the 2018 update of the Federal Performance Framework in Circular A-11, ensuring 'excellent service' as a focus in future agency strategic planning efforts. The PMA included a CAP Goal on Improving Customer Experience with Federal Services, with a primary strategy to drive improvements within 25 of the nation's highest impact programs. This effort is supported by an interagency team and guidance in Circular A-11 requiring the collection of customer feedback data and increasing the use of industry best practices to conduct customer research.

These Presidential actions and requirements establish an ongoing process of collecting customer insights and using them to improve services. This new request will enable the Department of Treasury to act in accordance with OMB Circular A-11 Section 280 to ultimately transform the experience of its customers to improve both efficiency and mission delivery, and increase accountability by communicating about these efforts with the public.

The Department of Veterans Affairs (VA) gives notice under the Federal Advisory Committee Act, 5 U.S.C. ch. 10, that a meeting of the Rehabilitation

Research and Development Service (RR&D) Scientific Merit Review Board (hereinafter, “the Board”) will be held on Wednesday, August 21, 2024, via Webex from 1–1:30 p.m. EST. The meeting will be partially closed to the public, with an open portion from 1–1:10. The closed portion, from 1:10–1:30 p.m., will be used for discussion, examination of and reference to the research applications and scientific review. Discussions will involve reference to staff and consultant critiques of research proposals. Discussions will also cover the scientific merit of each proposal and the qualifications of personnel conducting the studies, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy. Additionally, premature disclosure of research information could significantly obstruct implementation of proposed agency action regarding the research proposals. As provided by Public Law 92–463 subsection 10(d), and amended by Public Law 94–409, closing the committee meeting is in accordance with 5 U.S.C. 552b(c)(6) and (9)(B).

The objective of the Board is to provide for the fair and equitable selection of the most meritorious research projects for support by VA research funds and to offer advice for research program officials on program priorities and policies. The ultimate objective of the Board is to ensure that the VA RR&D program promotes functional independence and improves the quality of life for impaired and disabled Veterans.

Board members will advise the Deputy Chief Research and Development Officer for Investigators, Scientific Review and Management (ISRM) and the Chief Research and Development Officer on the scientific and technical merit, mission relevance and protection of human and animal subjects of the proposals submitted to RR&D. The Board does not consider grants, contracts or other forms of extramural research.

Members of the public may attend the open portion of the meeting via WebEx, from 1–1:10 p.m., in listen-only mode, as the time-limited open agenda does not allow for public comment presentations. To attend the open portion of the meeting, the public may dial the Webex phone number (1–833–558–0712), then enter the meeting access code (2827 156 5012).
