SUPPLEMENTARY INFORMATION: DOL, as part of continuing efforts to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies an opportunity to comment on proposed and/or continuing collections of information before submitting them to the Office of Management and Budget (OMB) for final approval. This program helps to ensure requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements can be properly assessed.

Section 303(a)(4) of the Social Security Act (SSA) and section 3304(a)(3) of the Federal Unemployment Tax Act (FUTA) require that all monies received in the unemployment fund of a state be paid immediately to the Secretary of the Treasury to the credit of the Unemployment Trust Fund (UTF). This is referred to as the "immediate deposit" standard. Section 303(a)(5) SSA and section 3304(a)(4) FUTA require that all monies withdrawn from the UTF be used solely for the payment of unemployment compensation exclusive of the expenses of administration. This is referred to as the "limited withdrawal" standard. Section 303(a)(6) SSA gives the Secretary of Labor the authority to require the reporting of information deemed necessary to assure state compliance with the provisions of the SSA. Under this authority, the Secretary of Labor requires the following reports to monitor state compliance with the immediate deposit and limited withdrawal standards.
